

Local Matters.

The subscription price of THE TIMES is \$1. per annum if paid in advance or at any time within the current year; if not paid within the year \$1.50 will be invariably charged, as always heretofore, and from this rule no exception will be made.

ADVERTISEMENTS.—THE TIMES having a larger circulation than any other paper among the intelligent farmers and business men of Chesapeake County, offers superior inducements to advertisers to insert their advertisements in this paper. Send for rates, who will be glad to say every paper in South-Western Virginia, any other paper in circulation.

Rev. Mr. W. H. Wigot. The subscription price of THE TIMES is \$1. per annum if paid in advance or at any time within the current year; if not paid within the year \$1.50 will be invariably charged, as always heretofore, and from this rule no exception will be made.

Conventual Services. Conventual services will be held at St. Paul's Church in this city on Monday and Tuesday the 27th and 28th days of this month, and at St. Paul's Chapel (Place) on Wednesday the 29th, and Thanksgiving Day services at Place on Thursday, the 30th. The Rev. G. F. Williams, the efficient pastor of these congregations, will be assisted in these services by several clergymen from other places. It is hoped that a full attendance will be on hand.

Caroling Expenses. A father of several young ladies, living not far from here, called his daughters around him a few evenings since and delivered the following lecture: "Girls, the winter is coming on cold and high, and kerosene oil way up the store needs a new grate and the parlor a new carpet; they ain't fetching much, and wood will be dear. Cashmere and advancing and banded-hair girls are going out of fashion; so taking all these things into consideration, you had better say to the youngsters, you are going into the decline for the cold weather—that is, you decline receiving their company, and don't you forget it." He left them in tears.

Rev. B. F. Wigot. We are pleased to learn of the continued improvement of this Rev. gentleman which confers him to the house at St. Thomas, Manor. Rev. Father Wigot has been complaining very much for the past couple of weeks, so much so as to deter him from taking part in the Sunday services held at that church. We hope soon again to see his benign and cheerful face in the sanctuary, as his kind expression has such a decided influence upon the piety of the congregation.

Annual Meeting. M. A. Newell, Secretary State Board of Education calls the attention of friends of education to the following: "The annual meeting of the Association of Public School Commissioners will be held at the State Normal School, beginning at noon Tuesday, November 28th, and continuing for two days. It is very desirable that there should be a full attendance of all the School Commissioners and Examiners, and as many District Trustees as can make it convenient to be present. All who are interested in the promotion of public education are cordially invited. The State Board of Education will meet in their office at 12 o'clock on Wednesday, November 29th."

Matrimonial. Rev. F. M. Baruch, Rector of the Episcopal Church in Accomack, was married Wednesday in Alexandria to Miss Mary C. Snaout, of that city. The newly married couple arrived here on Friday on the steamer "Helen" and received many congratulations from the friends and parishioners of the bridegroom. The vicar wishes them a long life of conjugal felicity. We learn that Mr. Baruch will soon fix his residence at Drummondtown.—Eastern Virginia.

Journalistic Enterprise. Several years ago the Baltimore Sun with commendable enterprise made a big effort to secure the full election returns from Southern Maryland, but did not entirely succeed. This year a similar effort was made with successful results, and, on the morning after the election, the result in every county and precinct of the State was published in that paper. When we consider that some of these precincts were nearly a hundred miles from any telegraph communication with Baltimore, the greatness of the undertaking can better be understood. The Sun, with increased mechanical facilities is one of the most enterprising newspapers of the country.

Died from his Wounds. The colored man John Butler who was shot at by Frank Smothers, also colored, while returning from a political meeting at Peters Ditch, and which we reported last week, has since died from his injuries. Smothers has been arrested, though the report that he had left the county the day following the shooting is untrue. Smothers is still in the neighborhood of Newport, and on Sunday last was seen in that village. Why have our authorities not been more active in this matter and had the man arrested. Surely, so far as we have heard the facts, there were no extenuating circumstances, and even if there had been, a trial should be held by the shooting was justifiable as demanded by our laws. Let our authorities be more active in this matter, and have the man here for trial at the approaching term of court.

Forging Cows. On Friday night last, a lot of cows belonging to the citizens of the village, feeling no doubt, that they had a full right and free pass to all premises after dark, made a foraging expedition into the garden of our postmistress, Mrs. Bitton, and before morning they had devoured all the vegetables that that lady had been keeping for her winter use, all her young cabbage especially finding its way into their rapacious stomachs. They also attempted to get at her flowers which she had in a flower pit in the garden, and in their efforts to do so broke several panes of glass out the cover that was over them, but finding that they were hard to reach they let them alone. In the morning when Mrs. Bitton found the damage that had been done she naturally felt much aggrieved, and at once demanded if possible to get her dress. She notified the parties to whom the cows belonged of her loss, and asked that she be reimbursed. She then selected a board of arbitration to assess damages, who after a survey of the field promptly assessed compensatory damages, which was soon collected and turned over to the postmistress.

A Word to Our Friends.

On next Monday begins the November term of the Circuit Court, and as usual at such times, many of our farmers are brought to town on business, who do not often get here at any other time during the year. Also when they come here at such times they have so much to occupy their time and attention in the court room and on the square, by meeting old friends and discussing the gossip and the crops, that they forget where our office is situated, and also forget that little bill they owe us, for subscription or advertising which we assure they would have no hesitancy in paying did it once enter their minds. Now we are in great need of money to carry on our business. Money is the motive power which enables us to grease the machinery of the Times and keep it going and without it, in this, as in every other business, we must swamp. We depend almost entirely on our business and collections for funds to carry on our paper, and if you forget us now, why in the course of time we may be compelled to forget you, and therefore we ask as a personal favor, that all who owe us little accounts and who come to town during court, will call around to our office and settle up. We have in view several contemplated and carried out improvements on our paper, which will require money and for that money we look to those who owe us. Each individual account is small but in the aggregate it would be to us a considerable sum and would enable us to make our improvements. We hope this will be heeded.

Assault Case. A case of prosecution for an assault is on the criminal side of the court for the approaching term. The parties connected with the case are Major Wm. B. Matthews and Mr. Richard Payne. The affair arose out of an altercation which took place on the farm of Major Matthews on Friday last. It seems that Major Matthews had levelled a charge upon the goods and chattels of Mr. Payne, his tenant, to secure arrears of rent; and while the sheriff was in the act of going through the legal process of that proceeding the two gentlemen came to pretty high words and an altercation ensued which led to this prosecution. Mr. Payne, it seems, sued out a writ against Major Matthews for assault, and the case came up to a hearing before Justice Cotton, but the Major waived a hearing and removed the case to the Circuit Court as above stated. He was required, we understand, to enter into a recognizance in the sum of \$500 for his appearance.

Sudden Death. A most sad and distressing death occurred near Newburg in the lower section of the county on last Friday morning, which in its suddenness and extraordinary circumstances was one of the saddest it has been our duty to record. The victim a young gentleman named Clark, with some companions, went on a hunting expedition on that day in good health and fine spirits. After walking about for some time they finally got upon some game, and the companions of Clark, told him to remain in the bottom where he was at the time, while they went to hunt for a while. The game was so good that he might allow them to let him then sitting on a fallen tree ready to do his share of the work. After nightfalling the game in his direction and not hearing him rise they called out to him, but received no response. They then went to find out the cause of his inactivity and found him lying over behind the tree dead. They immediately took him home and summoned a doctor who attributed his death to heart disease. Young Clark was originally from Virginia, but had been carrying on the blacksmithing and wheelwright business at Newburg, in connection with his father for many years past.

When Judges Enter on their Duty. We have been repeatedly asked the question since the election whether Mr. Crane will be qualified to sit on the bench at the approaching term of court, and for the general information we would state that all the judges elected at the late election enter upon their duties as they receive their commissions from the Governor and qualify. The returns of the election are made to the Governor by the clerk of the Circuit Court in the counties, and the Governor issues the commissions to the persons elected. They can then be sworn in as soon as they please. The constitution, in article 4, section 3, says: "Each of the judges shall hold their office for the term of 15 years from the time of his election and until his successor is elected and qualified." In section 2 of this constitution, amongst other qualifications, says the judges "shall be selected from those who are well distinguished for integrity, wisdom and sound legal knowledge." Section 7 says: "No judge shall sit in any case wherein he may be interested or where either of the parties may be connected with him by affinity or consanguinity within such degrees as may or may hereafter be prescribed by law, or where he shall have been counsel in the case."

Hon. Andrew G. Chapman. We had a pleasant visit at our office on Wednesday our representative in Congress, Hon. A. G. Chapman. The General was looking quite well and he used his late defeat in his usual manly and cheerful manner. He concurs with the Times in attributing the defection in the portion of Baltimore city attached to our district to the complicated growing out of the election and judicial movement in that city, and charges the defection in the Democratic vote, resulting from apathy, in Anne Arundel, and other counties of the district to the different unfortunate dissections growing out of the personal politics which has distracted our party in the last few years, and to the fact that the new registration law is operated almost exclusively and very appreciably against the Democrats. He is also not unmindful of the fact that Holton's money played an important part in the late contest. We regret Gen. Chapman's defeat very sincerely, and a reflection upon the cause that brought it about has no consoling effect. We regret very much to learn that some persons in the county failed to vote for Gen. Chapman in consequence of the report, that he intended to vote for the Democratic ticket. It is painful in this age of enlightened public opinion to know that any one invested with the right of franchise should allow his vote to be influenced by such considerations. We referred to such a rumor some time ago, but we could not believe that any voter in the county would be influenced by any such narrow and illogical consideration; and Gen. Chapman, though opposed to the measure, and intending to vote for the Democratic ticket, did not do so, very properly de-termined to vote, for or con, before the election, and though informed of such a rumor, declined to make any explanation upon a matter so foreign to the issues of the campaign.

Dr. Wm. R. Barker. We had the pleasure of a visit at our square on Wednesday, from Dr. Wm. R. Barker, of St. James, who has been elected to the county. Dr. Barker is a graduate of the medical department of the University of New York city, and is a promising young physician. He has his office in the Farrall's Hotel, and will engage in the general practice of medicine. See his professional card elsewhere in to-day's paper. We wish the doctor every success.

Corrected Registration.

We re-published last week a table previously published in the Times, showing the registration of white and colored voters in the different districts of the county during the past year. Our attention having been called to the preponderance of white voters in the registration, we have shown by our table, we have taken trouble to examine the list of registered voters in that district, and find that there was an inaccuracy in our statement in regard to the relative number of the two classes of voters in that district. In our table, as previously published, the registered voters of that district were given as, white 149, colored 121. An examination of the list shows that those are 114 white voters, and 117 blacks in that district, making the same total—231. We reprint the table below as corrected. We think it is now accurate. As corrected it gives a negro majority in the county of 163, instead of 111 as by the former table.

Table with 3 columns: District No., White, Colored, Total. District No. 1: White 192, Colored 102, Total 294. District No. 2: White 209, Colored 108, Total 317. District No. 3: White 212, Colored 117, Total 329. District No. 4: White 169, Colored 239, Total 408. District No. 5: White 206, Colored 186, Total 392. District No. 6: White 115, Colored 196, Total 311. District No. 7: White 114, Colored 223, Total 337. Totals: White 1497, Colored 1207, Total 2704.

For Winter's Use. We would call the attention of our readers this week to the card of R. A. Golden, the well-known greener and commission merchant of Washington city, which appears heretofore in this issue. This gentleman is too well and favorably known to the people of this, his native county, to need any encomium from us but in calling this attention to his card we merely wish to remind our people that in dealing with Mr. Golden they can place every confidence in his word and what he represents to them in his business relations. Mr. Golden is more especially conspicuous in a line of family flour and Domestic berries for sale, and those of our people who desire to lay in their winter supply of these articles could not do better than to call on or write to Mr. Golden to have their wants supplied. They will also find at this house Mr. J. Berry Smith, another of county's well known men. Mr. Smith is more especially conspicuous in the immediate neighborhood and we can therefore as confidently speak of his honesty and fair dealing with any of our citizens who may have business relations with this house.

A Sudden Change in the Weather. The humid nature of last week has given way to colder and more settled weather. The cold wave, which began in the Northwest, where the thermometer in Kansas is in some places reached 11 degrees below zero, moved southeast to Texas, where the temperature fell 32 degrees in 24 hours. The wave then moved northeast, and along its track were rapid changes in temperature. In Toledo, Ohio, and Cleveland, on Tuesday it was snowing. There have been high winds all along the coast. The barometer fell considerably on Monday, and was followed by a storm rainstorm, during which the wind blew 21 miles an hour, tearing away the leaves from the trees and stripping them of their autumnal glories and uprooting many of them. It was perhaps according to the "general fitness of things" that a physical tempest should follow the late political cyclone, and that a "cold wave" should succeed the recent well heralded "tidal wave." It will be calm now.

Value of Advertising. Not long since Mr. V. H. N. called on us in the columns of the Times a notice of the sale of a pair of mules and a pack of oxen. We have just learned from Mr. N. that through the advertisement he sent he made a short time after they were advertised for \$200 and the oxen for \$25. This was considered remarkably good prices and shows the value of advertising in good mediums such as the Times presents to our good people. Mr. N. was undoubtedly unable to engage a stevedore in stock raising on his farm in the Chesapeake Bay, and it will pay him better profit this year, and as he will be better able to take care of his stock and devote his attention to stock raising than that time, he has been raised by R. T. Borman at 10 cents per pound, a gentleman of Baltimore for \$500.

A Remarkable Coincidence. It is a matter of journalistic record, that some years since a schoolmaster from Baltimore, having on board a crew of thirteen men by a most singular freak of nature, the entire crew was attacked by a skin disease, which manifested itself in a large abscessed swelling of the arms and hands, which incapacitated the crew to do any work. The result was that the vessel was towed back to the city where the men were placed in the hospital. Moral: "Hill's Sanguifer" treatment for skin diseases has been used in the first place, the crew would have recovered in from 12 to 24 hours.

New Pastor. Father Kerwick, assistant at St. Patrick's, has been appointed pastor of a church in Charles county, Md., and has already returned upon his duties.

Personal. Dr. F. B. Adams was registered at the St. James Hotel, Washington on last Wednesday. We suppose the Dr. must be on his way to the county, for surely he would not come so near to his home without visiting it. We hope he will drop in to see us, if he gets to the county.

Nothing Short of Unmistakable Benefits. Confirmed upon tons of thousands of sufferers could originate and maintain the reputation which AYER'S Sassaaparilla enjoys. It is a compound of the best vegetable alteratives, with the bodies of Potassium and Iron—all powerful, blood-making, blood-cleansing and life-sustaining—and is the most effective of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain, it produces rapid and complete cures of Scrofula, Sore Throat, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it relieves and often cures Liver Complaints, Female Weakness and Irregularities, and is a potent renewer of waning vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick. For sale by all druggists.

Local Brevities.

A little cooler—just a little. Oysters are plentiful in Port Tobacco. Court begins on Monday. In the old court house, remember.

Eggs are scarce and very high hereabouts. Farmers generally speak well of this year's crop.

Quite a number of rabbits have been bagged by our sportsmen this season. If you want a nice dress made cheap call on Miss Helen Quince.

Colds in the head are quite prevalent owing to the recent change in the weather. Our lady friends have housed all their choice plants for the winter.

Miss Lucy Robertson has returned to the county from an extended visit to her sister, Mrs. Ford, at Chestertown.

The political campaign of 1882 is a thing of the past, but we can't help discussing it. It is said that early sown wheat has suffered somewhat from an attack of the Hessian fly.

Get your ice houses prepared for this year's crop. It is well to be ready to take advantage of the first freeze.

Venerable folks good sleighing before the end of this month. Get your bakery poles and dry goods boxes ready, boys!

Geo. W. Waters has been appointed a justice of the peace in the ninth election district of this county by Gov. Hamilton, vice J. Wm. Turner, who failed to qualify.

Beards are going out of fashion? Some of our young men with nary a hair on their face, can congratulate them selves that they need't try to put on (blains any more to be in the fashion.

Counterfeit \$10 treasury notes of the series of 1885 issue, are said to be in circulation. \$10 bills are such a rarity with us, however, that even the sight of a counterfeit one might do us good.

We have heard nothing of the evening services which are to be held on alternate Sundays in this village, for some time past. It is hardly possible that such a good undertaking has died out.

Mr. John S. Greer killed a large swan in Port Tobacco creek on last Monday morning. Large numbers of these birds passed over this village, in their southward flight, on Tuesday evening.

The gunners in the village arise early to indulge in their favorite pastime. They get up about daylight, take the cause way as a shooting ground, and have black birds for game. But they must be bad shots for they meet with little success.

Turkeys come to graze and gobble, apparently all unconscious of the fact that President Arthur has designated Thursday the 30th of this month as a day to be observed in general thanksgiving. And thanksgiving means death to turkey.

We have heard that La Plata has become drier than ever since the court house vote was made public. We can't under stand why this is so, the good denizens of that driving bog take more water than usual in their nose to drown the disappointment. We advise them to stick an antiseptic well. They could then have plenty of good water and it would also be a convenient hole to crawl into should the question ever again be submitted to the people.

The commissioners have prepared an easy office chair for the use of Chief Justice Stone in the court room. The chair is a patent, spring back arrangement, and is similar to those now in use in the Senate chamber at Annapolis. This is rather hard upon the other two judges, as only one chair has been procured. To make the thing even they will have to petition the commissioners for their respective comies to give them an easy chair for their use at home. This would equalize the matter and have nobody out in the cold. We charge nothing for this suggestion, but will take the old chairs if they will donate them to us.

American babies. The first impression Sara Bernhardt (reputed of the American ladies manifested her beauty, having on her face a beautiful, but somewhat faded complexion. I have seen before, all of her beauty, and she is a good deal better than she is now. Her complexion is a pale pink, and she has a clear and clean complexion, and a healthy color. This result is due to the divine precept "cleanliness is next to godliness."

Dr. HARTER'S Great Superiority of DR. HARTER'S COUGH SYRUP over all other cough remedies is attested by the fact that it is the most popular remedy for this ailment established remedy.

For the Cure of Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Infant Consumption and for the relief of consumptive persons in advanced stages of the disease. For Sale by all Druggists.—Price, 25 cents.

EVERYTHING SOLD UNDER A GUARANTEE.

---REX--- AMMONIATED SUPERPHOSPHATE. REDUCED IN PRICE BUT NOT IN QUALITY.

EXPERIENCE having shown that, owing to differences in natural peculiarities, as good results to be obtained from these, on the grain crop, of lower priced fertilizers, recently manufactured, as from the more costly tobacco compounds we have substituted "REX" for "LEADER" for the wheat crop this fall, fully satisfied that its merits will have a reputation as a grain fertilizer, equal to that of "LEADER" for tobacco. We have so reduced the price so as to place it within easy reach, and thus encourage more liberal applications to the land. Feed the land generously if you expect it to yield generously.

WE GUARANTEE THE FOLLOWING EXCELLENT ANALYSIS: AMMONIA 1.78 @ 2 per cent. SOL. PHOS. LIME 21.76 @ 22 " POTASH SULPH. 2 @ 3 "

FRANCIS NEALE & SONS. COMMISSION MERCHANTS, 103 S. Charles Street, Baltimore, Maryland.

Dr. HARTER'S A Combination of Iron, Potassium, Quinine and Phosphorus in a palatable form. The most powerful tonic, and the only one that will not blacken the teeth, or disarrange the bowels of other iron preparations.

Dr. HARTER'S IRON TONIC. It is a powerful tonic, and the only one that will not blacken the teeth, or disarrange the bowels of other iron preparations.

ROLAND CHILLED PLOWS. This Plow has three feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and that it evenly distributes wet and sticky phosphate. It is the simplest and strongest drill made. It is more easily drawn than any other, and gets out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during during the past few years, a large stock of repairs, and it is always on hand. Send for circular.

CHAMPION GRAIN DRILL. This Drill has three feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and that it evenly distributes wet and sticky phosphate. It is the simplest and strongest drill made. It is more easily drawn than any other, and gets out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during during the past few years, a large stock of repairs, and it is always on hand. Send for circular.

BRITISH MIXTURE. The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniform and that it has been found the equal of the highest priced more valuable for each dollar paid than any other fertilizer in the land. Send for circular and price list.
