

LOCAL MATTERS:

The subscription price of THE TIMES is \$1. per annum in advance or at any time within the current year; if not paid within the year \$1.50 will be invariably charged, as always heretofore, and from this rule no exception will be made.

TO ADVERTISERS.—The Times having a larger circulation than any other paper among the intelligent farmers and business men of Charles County, offers superior inducements to advertisers to insert their advertisements in its columns. Send for a card rates, which are as low as any other paper in the Southern Maryland, to any of our advertising agents.

School Fund. —Comptroller Turner has made the following quarterly distribution of the public school tax to white and colored schools in the several counties and city of Baltimore, the drafts for the same being payable on and after the 10th inst. The several amounts are the same as for the last quarterly distribution; in this Charles county receives for the whiteschools \$2,282.40; and for the colored schools \$1,484.40.

Boys' Clothing. Eisenman Bros., cor. 7th and E Sts., Washington, D. C.

To Leave the County. —It will be regretted that Mr. E. D. R. Bean, the well known merchant of Patuxent city, has determined to give up his business in our county and enter business in Baltimore.

Mr. Bean has conducted a general merchandise business at Patuxent city for a long time and by his uniformly upright and accommodating manner has been successful in the sale of a large amount of such goods to the people of that section to lose Mr. Bean from among them and by his departure our county will lose a popular and useful citizen. He has on best wishes for success and prosperity in whatever business venture he may embark.

Kindly Remembrances. —While in Washington last Monday, in company with Capt. Wm. F. Demant, the junior editor of the Times called at the National Hotel and was introduced by the Captain to Mr. Thos. F. Harbin, the gentlemanly and affable clerk of that well known resort. We spent some time in a pleasant chat with Mr. Harbin who well remembers all of his old friends in Charles and kindly inquired for the health and prospects of all of them. Mr. Harbin still holds dear his old associations in Charles and any of his friends who will call at the National will find Mr. Harbin will receive a kind and cheerful greeting. To those who stop at the National we can promise more polite attention and more general satisfaction than they can possibly receive elsewhere in the city.

Eisenman Bros., popular tailor and clothiers, Washington, D. C.

A Good Income. —Mr. Jos. A. Gray, Sr., has furnished us with the account kept by him during the year 1884 of the amount of butter and eggs sold during each month, and the price obtained for the same. The amount received from these two sources foot up a snug little sum which will go far toward defraying the expenses of a farmer's household, and all of our good ladies could aid their husbands materially would they pay as much attention to this matter as they do the lady in question. Mrs. Gray made during the year 4547 pounds of butter, for which she received an average price of 23¢ per pound, making a total sum from this source of \$121.10. From her hens she got 587 dozen eggs, the average price was 15¢ per dozen per dozen, making a total of \$78.85. If any of the housewives in the county have done better than this lady in these matters we would like to hear from them.

CHILDREN'S SUITS, Eisenman Bros., 7th and E Washington, D. C.

Act on This Advice. —The benefit of settling up promptly all outstanding obligations, if possible, at the beginning of a new year is so obvious as hardly to need argument. In a community where the same person is often both debtor and creditor the payment of a debt due to man frequently enables the latter to start a long series of payments in the course of which one's money finds its way back to one's own pocket. A given sum of money put in circulation today may within a short time effect the settlement of obligations aggregating ten or a hundred times the amount. Hence it is a matter of duty as well as good policy to square accounts, and the beginning of a new business period, is the best time to commence. Payment made promptly all round now during the existing depression of trade will go far to dispel it, and encourage business enterprises that must otherwise languish for want of returns from capital already invested.

Eisenman Bros., popular tailor and clothiers, Washington, D. C.

A Flour in Wheat. —There was quite a boom in the wheat market on Saturday. No. 2 red winter Western, spot, which sold on the morning change at 87 1/2¢ per bushel, closed at 90 1/2¢. In the afternoon, with the feeling strong and excited. The business was large, and all deliveries reached probably a million and a quarter bushels. The advance from the lowest point touched at about the middle of December is 12 1/2¢ per bushel. The other leading markets were equally strong, and the trading at all points was equal if not greater than on any previous day. The improvement is attributed to the light receipts at the Western collection points, to better European advices, and a belief that the principal domestic markets have been largely overcast. Many operators have taken the position that the advance was 8¢, and large quantities have been sold short at each fresh improvement. Other grain participated in the movement to a moderate extent. —Baltimore Sun.

Eisenman Bros., popular tailor and clothiers, Washington, D. C.

Incidents in Hog Cholera. —A series of experiments is now in progress, the result of which will be awaited with interest by the scientific as well as the agricultural world. The series is triangular, one point being at the Department of Agriculture, another at the Johns Hopkins University, Baltimore, and the third at the office of Dr. Reeves, executive officer of the West Virginia Health Executive. The first result achieved has been the discovery that the germ of hog cholera is a specific germ, a bacillus, and can be reproduced. If the experiments verify present hopes and other animals may be inoculated with the virus of cholera, and by producing in them the disease in a mild form the ravages by the plague in its fatal stage may be prevented. Already cattle may be inoculated for Texas fever and pleuropneumonia, and Dr. Reeves has the strongest hopes of the same result with the cholera. The disease is now raging through Belmont county and all Eastern Ohio, though practically stamped out in this State.

The Modern Clothing House is Acas Hall, 265 W. Baltimore Street, Baltimore. They show Children's Suits from \$2.50 up to the most elaborate make; Men's from \$10 to \$35, and Overcoats in profusion and at all prices. If you want style, quality and low prices, you cannot go astray at this house.

Apology Accepted.

Elsewhere we publish an apologetic card from Mr. Adrian Posey, the manager of the Maryland Independent, in which he retracts the insulting epithet which he printed by an oversight in the issue of this paper of December 26th, ultimo. The card will explain itself, having been signed for Mr. Posey by Mr. P. R. Willis, who came directly from a conference with his principal, and delivered to Mr. C. F. Daley, by whom it was handed on Monday morning to the senior editor of the Times, then on his way to what he supposed was the already arranged place for a hostile meeting on that morning, which being the full retraction that had been demanded, was promptly accepted. It is perhaps proper that we should say here that, since our return to the county, we have been shown a note from Mr. Posey, in which he sends an amended apology, slightly different in arrangement and with the word "wrong" let out; but otherwise substantially the same. While the apology as amended would have been received at first, we have declined in arrangement and with the word "wrong" let out; but otherwise substantially the same. While the apology as amended would have been received at first, we have declined in arrangement and with the word "wrong" let out; but otherwise substantially the same.

Wedding.

We are indebted to the Cumberland Chronicle of December 21st for the following notice of the marriage of J. W. Thomas, formerly of St. Mary's county, to Miss Susan Maxwell Smith, of Cumberland. The ceremony took place at the residence of the bride's father on Thursday evening, the 18th ulto, and was a brilliant affair.

"A large number of guests were present and all the accompaniments were in the highest style. The ceremony took place at 9 p. m. and was performed by Rev. J. E. Moffatt, pastor of the Presbyterian church. The marriage party and immediate friends stood during the ceremony in the spacious hallway, the guests remaining in the rooms on either side, which were separated from the hallway by folding doors. Above the bride and groom was suspended a floral bell. The bride pair came into the hall-way preceded by the four ushers, A. R. Lewis and J. W. S. Cochran, of Cumberland, Waring Thomas, of St. Mary's (brother of the groom), and J. T. Briscoe, of Annapolis. The groom was in full evening costume and the bride in a magnificent dress of satin and brocade veiled and wore a pearl necklace and diamond pins. There were no attendants. The ceremony was a really a grand affair, which the numerous guests present tendered their congratulations. Then followed a magnificent repast, furnished forth in most hospitable style by the father of the bride. Mr. and Mrs. Thomas left on the night train for New Orleans by a western route. They will be returning about ten days.

Lost.

ON THE 18th OF DECEMBER, ON THE road between H. C. Page's and Wm. H. Mitchell's, a small "RED PLUSH SATCHEL," containing a purse with money, and some other articles of value to the owner. The finder, who was passing the place, found the same at the residence of Wm. H. Mitchell, at the Office, on 21st.

No sufferer from an infectious disease, who will fairly try Ayer's Sarsaparilla, need despair of a cure. It will purify the blood of all impurities, thereby destroying the germs from which scrofula is developed, and will infuse new life and vigor through the whole physical organization.
