

LOCAL MATTERS:

The subscription price of THE TIMES is \$1. per annum if paid in advance or at any time within the current year; if not paid within the year \$1.50 will be invariably charged, as always heretofore, and from this rule no exception will be made.

TO ADVERTISERS.—The Times having a larger circulation than any other paper among the intelligent farmers and business men of Charles County, offers superior inducements to advertisers to insert their announcements in its columns. Send for card rates, which are as low as any other paper in Southern Maryland, to any nothing about circulation.

The days have grown about twenty-five minutes in length, twenty-four of this being a gain on the evening and only one minute on the morning. From this time on the gain will be nearly equal, making about a half hour between this time and the first of February.

Magistrate Appointed.—Mr. George N. Simms, of Cobb Neck, has been appointed a magistrate in the fifth district, vice Washington Page, deceased. Mr. Simms's commission has been received by Clerk Stoneham, and in order to qualify the appointee must take it out within thirty days from the date it was received. We congratulate George on his elevation to the judicial bench and trust that the wisdom of Solomon may be given him in all his decisions. That he will make a good magistrate we have no doubt and that he will adjudicate the affairs of the people of Cobb Neck with prudence and discretion we are also equally sure.

EISENMAN BROS., popular tailor and clothiers, Washington, D. C.

Office to Let.—"Few office-holders die and none resign," is a quotation not always verified as far as State appointments are concerned. The resignations, particularly, are exceptions to the rule, for they have been very frequent at the executive department of late. Applications for vacant places are always in order at the executive department, and when a vacancy occurs there are always a half dozen or so ready and willing to serve the State. The latest resignation comes from a Worcester county magistrate, who would appear to be growing tired of his office, and position, and so doubt there could be a sufficiency of applications from that quarter to supply the entire county if the information had gotten out before that a vacancy existed. The Governor has been annoyed so much of late by applications for vacant places that he has adopted the plan of keeping the vacancies within his own breast.

Sociable Meeting.—The third of the series of sociable meetings, since the organization of the club in our neighborhood, was held at the residence of Mr. B. G. Stonestreet on Wednesday evening last, and though the exceeding frigidity of the atmosphere kept many who would otherwise have come from being present, still to those who were on hand the affair was equally as enjoyable and pleasant as those heretofore held. Dancing was indulged in with much zest and enjoyment until by the mutations of time the hands on the clock dial pointed out the inexorable hour of twelve, at which time the musicians were dismissed. All thanks are due to Mr. and Mrs. Stonestreet and their attractive daughters for the generous hospitality and kind attention which was bestowed on their guests, and for the earnest and thoughtful manner in which they labored to promote the enjoyment of all. The club adjourned to meet at the residence of Judge Stone on February 11th, and by a unanimous vote it was decided to have the next sociable a masked one. So all the members are requested to appear in some costume that will best preserve their incognito.

Boys' Clothing, Eisenman Bros., cor. 7th and E Sts., Washington, D. C.

Marriage.—Mr. Adair Pusey, the managing editor of the Independent of this place, was united in marriage, at St. Thomas's Church yesterday, to Miss Mamie Howard, of this county, by the Rev. Father Hayes. The bride is the sister of Messrs. J. C. and Wm. M. Howard, the enterprising proprietors of the Chapel Point resort. She is a young lady of many graces of person and is by her amiable and winning manners, has made herself a favorite in her large circle of friends. She has been heretofore engaged as a teacher of one of our public schools, in which capacity she has been well known for her proficiency and success. Though no card were issued, there were a number of the intimate friends of the contracting parties present at the ceremony to offer their congratulations and wish the young couple God speed upon the journey of life. We regret that the largeness of the reception of an invitation and the existence of previous unavoidable engagements, deprived us of the pleasure of being present; but we cordially join with the numerous friends of the wedded couple in congratulations and well wishes. The ceremony was performed during a nuptial mass, one of the most imposing and interesting services of the Catholic church. Immediately after the mass the newly wedded pair went to Cox's Station and took a noon train from that place for a short tour to Baltimore, Philadelphia and New York. They will return on Tuesday night, and for the present will reside at "White Hill," the residence of Mr. F. A. Pusey, the brother-in-law of the groom.

Farmers' Talk.—The Sandy Spring Lyceum held its sixteenth annual meeting Tuesday last, and, composed as it was of aggressive farmers of Montgomery and adjoining counties, its deliberations are always read with interest. After a full day's discussion of the several questions before it, a practically unanimous decision was reached. The club decided that wheat should be killed by frequent cutting and propagated by frequent plowing; that the importation of foreign labor for preference to using colored labor; that South Carolina is a good and desirable phosphate; that the acreage of wheat should be increased; that creameries are desirable in each county; that it pays from 25 to 50 per cent to cut fodder in cutting boxes, nor to use sulky pows. The club was organized in 1844, and keeps records, from which appears that the average of wheat raised in the acre in 1844 was 10 bushels, in 1854 from 22 to 25 bushels. Corn in 1841, four and two-third bushels, in 1844 ten bushels. Other crops show a like increase. President Hallows, in taking the chair made some remarks well worth the attention of farmers, especially the croakers among them. He said in substance that the prosperity of farmers depends on their attention. How different from the manufacturer, whose plant, employees and expenses, compel him to keep open at a loss to his operations. Farmers are discouraged at low prices at times, but they are always sure of enough to eat and wear. They can live, even if they find they must practice some self-denial. The farmer does not feel the crushing of that iron hand to which merchants and manufacturers submit of necessity. Let us not be discouraged, but learn to farm better and to be better and wiser men.

School Board.—The School Board met on Tuesday last for the first time since the reappointment of the gentlemen who have so successfully and discreetly managed our school affairs for the past two years. Dr. G. D. Mard, as president, as the Times, in the last issue, predicted at it would do. Few men in the county are better acquainted with the workings and needs of our public school system than the able president of the board, and his re-election to that responsible place is a just testimonial to his worth and ability in that position. Soon after its organization the board drew up the following letter and presented it to Mr. A. W. Neale, the Treasurer and Examiner of the old board:

Mr. A. W. Neale:—The undersigned take pleasure in testifying to your faithfulness and efficiency in the discharge of the various duties devolved upon you as Secretary, Treasurer and Examiner of our Board during our two years incumbency, and after mature consideration of the claims of all applicants for the position you have so acceptably filled, we deem it our duty to avail ourselves of your continued services and do hereby notify you of your unanimous reappointment.

WM. H. GRAY, P. A. SASSCER, In reappointing Mr. Neale to the position he now holds, and which he so ably and acceptably filled for the past six years, the board had in view a wise and judicious act, and one that will meet with the commendation of the public generally. Mr. Neale's fitness for the place has been fully tested and the deep interest which he has always manifested in our public schools has been a source of general remark and has had the tendency to raise and elevate the standard of our school system. Another fact connected with Mr. Neale's management, which deserves the commendation of the public, is the strict economy with which he has managed the school funds. In the annual report of the Secretary of the State Board of Education, Charles county has always shown to be one of the few counties in the State in which the school boards have kept free from debt and when a surplus has been shown to remain in the hands of the treasurer. In view of these facts the wisdom of the board in giving Mr. Neale a reappointment will be fully appreciated and it is a source of self-gratulation to all to know that our schools will have his very efficient and able supervision for another two years.

EISENMAN BROS., Dress Suits, cor. 7th and E Sts., Washington, D. C.

State Convention of Maryland Farmers.—It is proposed to hold in this city on the 23rd of February, says the Baltimore Sun, a convention of farmers to consider the state of agriculture in Maryland and to discuss such topics of general concern to the agricultural community as may be brought up. This arrangement is the result of a meeting which took place in Baltimore on the 22nd of February of last year, which was styled the Farmers' Convention of Central Maryland, and which composed of citizens of Baltimore, Harford, Carroll, Howard and Anne Arundel counties, made up one of the largest meetings of farmers for counsel which ever gathered in this State. The proceedings were so interesting and profitable that it was resolved when the convention adjourned it should be to meet again at the date named next month, and the county societies of Harford and Baltimore were called upon to enlarge the basis of the meeting so as to make it comprise the whole State. These organizations have accepted the duty confided to them, and will invite every association of farmers in the State, clubs, granges and county societies to send representatives. Some of the county societies have already seconded the movement, and the Montgomery county convention of Tuesday last appointed ten farmers as a delegation from that body.

Local Brevities.—Cold again this week. Miss Maggie Iglehart, one of Anne Arundel's fair belles, is visiting the family of Mr. B. G. Stonestreet. The county commissioners were in session last Tuesday, though nothing but routine business was transacted. Pray for a cloudy day next Monday so that the ground hog may not see his shadow, and will remain out of his hole. During the recent damp weather our farmers have been busy stripping their tobacco crops, and getting it ready for market.

The passage of the French Spoliation claims bill through Congress, is causing considerable commotion among the claimants in this county. Will our friends throughout the county please send us any little item of news that may occur in their neighborhood. Locals are awful scarce with us. "What is heaven's best gift to man?" she asked, sweetly smiling on him. "Dr. Bull's Cough Syrup," he replied, with prudence. He has just been cured by it of a bad cold. The February term of court will begin on Monday two weeks. As usual the dockets are short, and it is expected that but few days will be consumed in winding up the business of the term.

Mr. J. Samuel Turner still suffers much from the gunshot wound which he accidentally gave himself last fall. The wound Mr. Turner says, heals very slowly though he is careful and prudent with his hand. A small sized snow storm visited us on an early hour on Wednesday morning. Snow fell quite briskly for a short while, though not enough remained on the ground to enable the teaux and belles to enjoy a sleighride.

The white public schools of the county will reopen on next Monday. The vacancy which exists in the school in this village, caused by the resignation of Mr. T. Hancock, has not as yet been filled by the trustees. If you want quick returns and full prices on Hides, Fur, Wool, Butte, etc., etc., send for our Price Current. Consignments solicited. R. L. Williams & Co., General Commission Merchants, Office, 169 Williams St., New York.

It was reported in town on Tuesday that several new cases of scar fever had developed itself in the neighborhood of Bryntown and in Benedict. The disease is said to be dying out in the neighborhood of La Plata, White Plains and W. D. B. Salvation Oil is the greatest cure on earth for pain. It affords instant relief and speedy cure to all sufferers from rheumatism, neuralgia, headache, sore throat, pain in the back, side and limbs, cuts, bruises, etc. Price twenty-five cents a bottle. Rev. G. F. Williams says the congregation will be able to worship in the new Christ Church on next Sunday week. The edifice will not be completed by that time but the contractor expects to have the interior in a condition to admit the congregation. During the prevalence of the high wind on Wednesday morning the chimney of Salie Swa's house caught fire, and affairs looked quite equally about the place for a short while. Assistance was promptly on hand, however, and the fire was soon put out without any serious damage being done.

The Third of the Season.—The third party given this season by the "Chickamuxen" folks, took place Thursday evening the 22nd, at Spaid's Hall, Doncaster, and was in every sense of the word, a success. The popularity of this party was fully attested by the large number who, in order to be present, braved the hard frosts and muddy roads, and by their presence aided in making the party large and very enjoyable. There have been larger gatherings of this kind at the Hall, but those who danced away the fleeting hours say they were not more pleasant. It was 7:30 o'clock when the floor managers announced that the enjoyment of the evening had commenced. As at previous parties the music was of excellent quality. Dancing was continued until 1 o'clock in the morning. The floor managers looked after the comfort and pleasure of all, and are to be congratulated on the successful manner in which the party was conducted. Among the fair sex of distant neighborhoods was the fascinating belle, Miss Marie Adams, of Nanjemoy, Misses Dows, of Hill Top, and Miss Blake Dunnington, all of whom were dressed in full party style, and with Miss Marie Adams showed by every movement that they were the walkers of the evening and with them the girls continually and perpetually showed their agility. A plentiful supper was prepared and given by the host and hostess. We thank them for contributing so liberally toward the pleasure of the young folks. W. P.

IN MEMORIAM.—The following lines were written by a friend a few days after the death of Mr. Washington Hicks (three little children who died of scarlet fever, November 11th, 13th, and 14th). Little GRACE, Gibson and Eddy, are no more. The messenger of death—the terror of the ill—has called them to his bosom. But they are not alone. Their souls, with their dear mother's, will carry them to his bosom. "He will comfort them in the heavenly paradise, friends, and the abandoned wretch dare deny it—these little ones, who died, they were not dead. Their souls, with their dear mother's, will carry them to his bosom, everlastingly. How many wonder why little children are made to leave their fathers and mothers? Others wonder why the kind parents are taken away from their little ones. But little children do not die. Even so, the Christ shall all be made alive. Let us hope the remedy, therefore, and in the end, "eternal life" will be our great and final reward. We will give our little ones, we shall see them, and give them the reward of life. "We shall see them, and give them the reward of life." Amen.

They Modern Clothing House is Acme Hall, 209 W. Baltimore Street, Baltimore. They show Children's Suits from \$2.50 up to the most elaborate make; Men's from \$10 to \$35, and women's in profusion after the latest styles. If you want the quality and low prices you cannot go any other place.

Our Civic Display.—We are sorry to say that no steps have as yet been taken by our citizens to act on the suggestion thrown out by the Times a few weeks ago, regarding the organization of a body from our county to attend and participate in the procession at the inauguration of President Cleveland. The usual apathy of Charles county appears in this as in nearly every other public movement that is endeavored to be started here; for while we are sure there are plenty ready and willing to join such an organization and do all in their power to make a successful and creditable showing in the inauguration procession, each one is waiting for his neighbor to take the initiative steps, and so the whole affair remains in statu quo. Our sister county of Prince George's has held a public meeting looking to a similar organization there, and have been successful in getting up a goodly number of her citizens to participate, and they will be fully represented. But short time now remains in which to make any preparations looking to this end, and Charles is to be in the front in this matter if it is now time to call an early convention. At the suggestion of any five active citizens we will issue such a call through our columns, and feel sure that it will have a prompt response from a sections of the county. Let the matter be attended to at once.

A Busy Place is the Children's and Boys' Parlor, 55 Hanover street, adjoining corner East. Thousands of beautiful Suits and dresses for the rising generation from \$2.50 up to \$10.00. A. S. & S., Baltimore.
