

LOCAL MATTERS:

The subscription price of THE TIMES is \$1. per annum in advance or at any time within the current year; if not paid within the year \$1.50 will be invariably charged, as always heretofore, and from this rule no exception will be made.

TO ADVERTISERS.—The Times during a longer circulation than any other paper among the intelligent farmers and business men of Charles County, offers superior inducements to advertisers to insert their advertisements in its columns. Space for card rates, which are as low as any other paper in Southern Maryland, is being held at the lowest possible rate.

Farmers Meeting.—We publish this morning a call for a meeting of the farmers of this county to be held in this town on the 5th of January next to send delegates to the State Farmers' Association which meets in Baltimore on the 13th proximo. We are glad to see our farmers awakening to the necessity of a concert of action looking to the protection of their interests. If there is any ill that needs protection it is the farmers. Let the meeting be fully attended.

For Florida.—Messrs. Andrew Corrie, brother of Dr. L. C. Corrie, sailed from Baltimore on Monday by the steamer Lawrence for "Tampa, S. Fla.," on the Southwest Gulf coast of Florida. Mr. Andrew Corrie, who has been an ecclesiastical student at St. Charles College for the last four years, goes on account of failing health, and his younger brother accompanies him. We wish them a safe and pleasant trip and trust will be much benefited by the balmy and congenial climate of Florida.

Eggs for Winter.—Eggs being much higher priced in winter than in summer, and the supply of poultry men should be liberal supply of winter eggs. An exchange says: Extra early hatched pullets, not much water but bred, are the best winter egg producers, but they must have warm quarters and warm food, carefully varied every few days so as to stimulate appetite. Eggs are great most extra in the summer, they satisfy their desire for meat by eating worms, &c., but in winter they have no such resource, and so they should have most scrupulous, &c., furnished them. In fact everything which will tend toward increasing the production of eggs should be supplied the hens, in liberal quantities.

Things Musical.—We always like our readers to patronize merchants, who advertise in the Times and on this occasion we take pleasure in referring especially to the firm of G. L. Wid & Bro., of 709, 7th St. N. W., Washington, D. C. From a very small beginning in 1864, they have—by uniting industry, strict business integrity and fair and honorable dealing—built up a trade in Pianos, Organs, Musical Instruments, Music, Musical Novelties and every thing pertaining generally, and are to be seen in the National Capital, and we would impress it upon all of our musically inclined friends, not to fail to read their advertisement in another column and to either write to them or call at their store for the coming Holiday season.

Philly.—A number of persons who believe in old times might get some comfort from the fact that which we extract from a paper of that name. If all the winter were to follow the bare fact that they had no Christmas at all this year, they would be many who will risk all their efforts for the sake of enjoying their Christmas day on the festive season.

Christmas Gift Really Worth Having.—A Christmas gift really worth having can be had from O'Connell & Sons, the extensive dealer in Baltimore. See their advertisement in another column which will tell you how to get it. Their store at the corner of Pratt and Hanover Sts. is crowded daily with delighted buyers and men.

Local Brevities.—Today week is Christmas. Everything is now assuming a holiday appearance. Mr. Turner has supplied the clerk's of the land with a fire-proof safe. The December month falls on the 21st. Many of our citizens will doubtless post their December bills on the 25th.

Resolved.—At a meeting of the building committee of Christ Church, Port Tobacco, Md., December 7th, 1885, the following resolutions were adopted: Whereas Christ Church, Port Tobacco, Md., having been organized in the most beautiful and edifying manner and in our entire approval; Therefore be it Resolved by the Building Committee, that our sincere thanks are due and are hereby tendered Mr. J. H. Gibbons, the contractor, for the faithful and substantial manner in which he has done every portion of the work on the new building, exhibiting in every particular the most careful and careful manner of an ever-acting industry, and to assure him that wherever he may go, he will carry with him the most cordial and cordial wishes of the community for his happiness and prosperity.

The Vanderbilt Will in Brief.—Mr. William H. Vanderbilt's will was offered for probate at New York on Saturday. It is the largest will ever recorded in the State, and with the testament and no contest waiver is anticipated. The will was executed on September 12, 1885.

DR. BULL'S COUGH SYRUP.

The work of killing hogs has been the principal business of our farmers for a couple of weeks past. Some fine porkers have been seen on the gallows. The largest we have heard of in the county was one killed by Mr. Jos. Day weighing up wards of 450 pounds.

No marriage licenses have been issued by Clerk Turner this week. This is the first week that no more have been issued by the new clerk since his incumbency. There are still two days left in this week, however, in which the good work may go on.

Owing to the unusually large number of counties in the State which returned Democratic members to the Legislature, it is thought that there will be only one or two places to bestow to allow one place to each Democratic county—Who is to be the fortunate one from our county?

On the 1st of the month of Mrs. Mary J. Davis, it was found impossible to hold the meeting of the scientific club on last Wednesday. It has been suggested to us that the president call a meeting for some evening during the holidays, provided the members of the club are present for that purpose.

Gen. Chapman expects to ship 5000 pounds of pork this winter, and Mr. John V. Albrittain upwards of 4000. We do not know the number of some of these gentlemen, but we think it is safe to say that the figures given, but as both are somewhat famous for raising hogs, we presume the number was no greater than it should have been.

Major E. H. Hill, of Upper Va., who has handled Powell's Fort for the second year, has just received you a few certificates; you can mention Mr. P. Aylor, a good farmer, who recommends the Powell Fort for the first time. It is not necessary, but the Powell Fort is as well known and widely known in this section as any other thing is required. Address Brown Chemical Co., managers, Baltimore, Md.

Although Celery, Beef and Iron is patronized by all persons, it is particularly beneficial to women and children, as it has been found to be the greatest benefit to many of the poorer diseases incident to them, in nervous troubles of women. There is always a certain amount of distrust attending any new preparation that is put into the market, as so many have done with Celery, Beef and Iron, medicinal products can only be shown in its use. For sale by all druggists.

A Valuable Medical Treatise.—The edition of 1885 of the Medical Annual, known as Hester's Almanac, is now ready, and may be obtained, free of cost, of druggists and general dealers in books, or of the United States Medical and Surgical Association, 100 Broadway, New York. This Almanac has been revised, reprinted at the commencement of every year, and is over one fifth of a century old. It contains, with the most practical advice for the preservation and restoration of health, a large amount of interesting and amusing reading, and the latest astronomical calculations, chronological tables, &c., are prepared with great care, and will be found of great value.

Editor of the Times.—Will you please give me your valuable columns to call attention to that which I produce, and to the fact that I have not been allowed to take part in political conventions without forfeiting their per diem? If a teacher has a right to attend the primaries, and a majority of his party present desire him to go as a delegate to the convention, has he not a right to do so? Does justice or common sense require that he should be excluded simply because he is a teacher? I have often wished to know why a teacher is made so out of all countenance. If there is a deficiency in the school fund, the schools are closed, and the teacher loses his full pay per diem? Why have we not a law that would prohibit any teacher from attending political conventions? These are the questions that I have advanced to you, and I trust that you will be able to give me a satisfactory answer by deducting their per diem for attending political conventions. I will close by expressing my unfeigned admiration of the great legislative done some teachers by the school board.
