

Paulinus Huhn of St. Cloud was before the pension examining board Wednesday. Huhn was a member of Co. M, and was shot through the lungs in one of the engagements in Luzon.

Sergeant Ignaz Schiminsky, of Battery F, 2d Light Artillery, stationed at Washington, D. C., is home on twenty days' leave, visiting relatives in Swan River. He has been in the service nine years, first enlisting at Chaska, and has two years to serve to complete his third term of service. Two brothers are with the 6th U. S. Infantry in the Philippines. Owing to the recent death of both parents of the sergeant, the farm in Swan River has been left in charge of two minor sons, and Sergeant Schiminsky will ask for a discharge in order to care for the place. The sergeant has been stationed at Fort Riley, Kansas, Newport, R. I., Santiago, Havana and other places.

No Greater Mistake can be Made..

Than imagining it is economy to buy the cheapest Harness and Saddlery goods because the price seems low. The shoddy character of cheap goods takes away all apparent saving and means dissatisfaction. Remember that I make a special point on the character of my goods.

I positively deal in goods of reliable workmanship and A No. 1 material. The prices are consistent with high grade of goods always obtained at my place.

I earnestly invite inspection of my goods and prices.

Bring in your old harness and get them repaired and oiled up.

If I cannot do you the best job of any shop in the city, I will not charge you a cent for the work.

Yours very truly,

WOMEN'S CIVIC LEAGUE.

The Ladies Begin the Work of City Improvement in Earnest.

Spring being the time of woman's greatest activity in housecleaning, etc., the time is at hand when the Woman's Civic League can begin its practical work of city improvement and the meeting Friday was a very busy and interesting one.

Several new committees were appointed such as press and lecture; streets and premises; schools; tree and flower. A lecture on the work of village improvement in this state is talked of for the near future. The lecturer will be one well known and very popular here, who will help to stir up the civic enthusiasm that is in the heart of every loyal citizen of Little Falls. It is earnestly desired by the league that any woman interested in making her home, her yard, her street, her children's school and her city more beautiful, will join the league. We need every earnest, ambitious home maker to help along the good work.

At Friday's meeting a revised constitution was also adopted and an interesting article on the work of St. Paul Civic League was read. A cordial invitation is extended to every woman interested to attend the next meeting, the first Friday in April.

The cemetery water supply committee reported several estimates from windmill makers. The committee will have an expert well driver examine the well and the contract for the work will soon be let. It is hoped that the cemetery lot holders will feel a new desire this spring to plant trees, flowers and grass now that a constant water supply will keep them green and fresh.

In many smaller places than this the cemetery is a real garden spot for beauty and freshness. We have a pretty cemetery site and now we are to have a good water supply and competent care of the grounds. The only other element necessary to a beautiful cemetery is the personal care and interest of those who hold the lots, who surely ought to help in making more beautiful the last resting place of their loved ones.

While it is true that cemetery improvement is an important part of the league's work. It should be clearly understood that it is by no means all the work. Those who are not especially interested in the cemetery will find that the league is planning many other things to do, for the scope of civic work is unlimited; it is a great whole, made up of many vital parts. J. H. R. (Chairman of Press and lecture committee.)
