# A GREAT ALTERATION SALE

Having decided to add new departments to my business I find that more room is necessary and an additional 2400 square feet will be extended on to my present location.

## The Back of the Store Comes Down

Builders and workmen will soon begin the attack. It is necessary a hasty sale of all goods in the store shall take place before the necessary changes in the building are made. The store will be thoroughly overhauled, new counters, show cases and shelving added and a general change made throughout. Before the tearing down commences we must dispose of goods as never before. It means we must sell fully \$10,000 worth of up-to-date merchandise in a very short period or allow them to gather dust and become antiquated while the transformation is going on. But we would rather cut the prices again and give the people the benefit so the word has been spoken to spare nothing.
