

A WORD TO FARM TOILERS.

PAINE'S CELERY COMPOUND

The Home Friend of the Farmer and His Family.

After the labors and toils of the summer time, and harvesting of crops in the early autumn, many of our farmers, their wives, daughters, and sons, find themselves in a condition of health demanding careful attention if suffering is to be avoided later on. Many experience kidney trouble in some form; with some the liver is torpid; there is biliousness, nausea, and vomiting, with loss of appetite and depression of spirits. Thousands who have been exposed to cold, damp winds and rains while toiling in the harvest fields, now feel the twinges of terrible rheumatism; others run down by worry, overwork, and irregular dieting, are tormented with the pangs of dyspepsia. To the thousands of run down, sickly, and half dead men and women in farm homes we recommend with all honesty and confidence the worker's friend, Paine's Celery Compound, the only medicine that can quickly and fully restore strength to the weak body and vigor to the muscles. Paine's Celery Compound tones the stomach; it removes poisonous acids from the blood which cause rheumatism; it feeds the weak and diseased nerves; it banishes neuritic tortures; it purifies the blood and gives true vitality and life. The use of Paine's Celery Compound in autumn means the establishing of a perfect physical vigor to withstand the rigors of a severe winter.

MURDERED BY MASKED MEN.

Policeman Shot in Attack on a Waterbury (Conn.) Street Car.

Waterbury, Conn., March 9.—Violence in its worst form has broken out anew in Waterbury as a result of the high feeling in connection with the strike of the motormen and conductors of the Connecticut Railway and Lighting company. This time it is murder, and Policeman Paul Mendlesohn is the victim. The scene of the crime was at Forest Park, the terminus of the North Main street line. The spot is isolated and when the car reached the end of the line the crew made preparations for the return trip. Immediately after the conductor turned the trolley and the motorman reversed his levers, eight masked men sprang from the bushes by the roadside, entered the car, and discharged their revolvers, every man being armed. Officer Mendlesohn fell at the first report, and as a later examination showed, the first shot was fatal, having pierced his heart. The motorman was also hit and leaped from his car with a cry of pain. Some of the men followed him while the remainder turned their attention to the conductor. He was thrown to the floor of the car and pounded and kicked until he was almost unconscious. The men then left him and joined their companions outside. The conductor regained his feet with difficulty and went to the side of the wounded officer, but he saw that the officer was dead. Webersdofer, hardly able to stand, went to the controller and started the car back toward the city with the dead officer. On the way he met another car, the crew of which relieved the injured man and hurried to the city for assistance.

Henderson first presented Sheriff W. W. Butchart with a testament and handed roses to each of the deputies, thanking each in a few words for the kindness shown him while under their care.
