Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

ALUM BAKING POWDERS.

There are so many baking powders about, most of which are represented to be made of cream of tartar, that the following list of powders which chemists have found alum will be of value:

I. C. CALUMET CHAPMAN'S PALACE.

The housekeeper should bear in mind that alum makes a cheap baking powder. It costs but two cents a pound, while cream of tartar costs thirty. The quality of the powder is therefore usually indicated by the price.
