

Rescued from Suffering and Death by PAIN'S Celery Compound

MR. ALFRED BROWN, A Prominent and Popular Citizen, Says: "After the Use of Paine's Celery Compound, I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward L. Phelps, M. D., LL. D., after years of long practice and close scientific study, is suffering and diseased men and women, and has discovered the great medicinal value of Paine's Celery Compound, which he has prescribed for his patients, and has seen the most wonderful results in the treatment of all the ailments mentioned above.

"I acknowledge with thankfulness and pleasure the fact that I have been cured of a very painful illness of eight years' standing by the use of Paine's Celery Compound. I had, during the years of my illness, tried almost all the advertised medicines without deriving any good results. I was also treated by several of the best doctors of this city, hoping to find the cause of them, at this, would understand my case."

"I was getting worse, and was told I was incurable. I was indeed in a critical condition. I could not get from the house alone, as I was liable to sudden collapse. I tried hospital treatment, but no relief or good result came to me. I could not sleep; anything that I ate increased my agonies; I was extremely weak, restless, tired, and despondent; was obliged to walk about with my hands pressed firmly into my left side to ease my pains; my feet and hands were cold continually; inclination to vomit, had profuse, cold sweats, quick breathing, and would be racked with pain for hours at a time."

"After the regular use of Paine's Celery Compound for a time, I am now in the best of health, have good appetite, and can use any kind of food. Thank God I am my old self once more, all through the use of Paine's Celery Compound."
