Mr. and Mrs. Willson and Mr. Cadwell called at Mr. Cook's Sunday.

Grace and Eddie Willson started school Monday.

Mrs. C. E. Look visited at the lake Sunday and Monday.

Mr. F. A. Johnson has an attack of the grip. Fortunately all have escaped with a very light attack thus far this winter.

Mr. Willson will commence work in the woods next week.

T. S. Look lost his horse last week.

Mr. Cook took some seats down to the school house Wednesday.

Mr. Cyrus complains he is a badly abused man. He was up after a warrant for Mr. Short for assault.

The Sabbath school will be an earth again next Sunday. We will elect officers for the year and start new once more. The bad weather is to blame for no attendance but since it is more settled we will hope for better times.

Jan. 16—Mr. and Mrs. T. S. Look and Miss Whan visited at A. W. Cook's Tuesday evening.

Mrs. Cook was quite ill Wednesday.

Mrs. Simms visited Mrs. L. P. Ford Thursday.

RIPLEY

Jan. 18—Miss Clarissa Ledoux, who has been visiting at the home of her uncle, Frank Brussean, returned home Thursday afternoon.

Roy Baldwin and Sam Chartier are busy now hauling wood.

A crowd of jolly young people gathered at the home of Mr. and Mrs. Mitchell Ledoux Thursday evening. They spent the evening in dancing.

We see it's leap year. By the choice of some well educated young school ma'am one traded a bright young man for an old Reaner. We wonder if she can run it. How is this for leap year.

Roy Troxel and Miss Sophia Hatten called at the home of Mr. Alex Chartier.

Mary Davien is reported a little better, but still very weak.

Its leap year, girls. So you better hustle, or it will be gone and you'll be left.

SWANVILLE

Jan. 20—Prof. Philo spent Sunday at Gray Eagle.

Mr. Watkins of the Gordon Ferguson Co. of St. Paul was in the village Thursday, selling spring line of hats to J. D. Stith & Son.

Born—To Mr. and Mrs. Ed. Seth, Sunday, Jan. 18th, a girl.

Jake Seth and Miss Allie Foster of Brurtrum were visiting friends here Sunday.

The I. O. O. F. banquet and ball given in their hall Thursday evening was the principal thing of the season. Among those present from the county seat were: County Attorney Lindbergh, Wm. Hall, Frank Lyon, Wm. McDaniel, Mr. Carlson and Ed. Collins. From Gray Eagle were: Guy Robbins, Mr. Young and wife. Buelow's orchestra furnished the music.

The Diamond & Hearts dramatic play by Prof. Rhodes' school of Gray Eagle at the opera house Friday evening was greeted by a large audience. The play was very good. A dance was given after the play.

Mrs. C. D. Stith is enjoying a visit from her cousin from Cyrus.

Miss Florence Bain of Culdram was the guest of Miss Myrtle Stith Saturday.

Mrs. A. Bain and mother, Mrs. Vanzile were Little Falls visitors Saturday.

James Thompson of Upsala was in the village Thursday.

Miss Sesta Irvin departed for St. Paul Saturday where she will work at the millinery trade.

Wm. Dobbs of Sank Centre was in the village Saturday, en route home from Minneapolis.

The Columbia hotel burned down Sunday evening. The fire department responded hurriedly but despite their efforts water could not be got from the well at the engine house and the engine had to be moved to the well on Main street. Two streams were soon playing on the fire, but the hotel could not be saved; so they worked to save the adjoining buildings which were Connelly's saloon and Kregler's shop. The fire was soon extinguished and the south wing of the hotel saved. Mr. Corcoran, the proprietor will suffer a great loss, for the building was only insured for \$1200, which is about one-half its value. We understand it will not be rebuilt.

Mrs. Jos. McDonald returned to Otsego after a visit with her sister, Mrs. W. A. Dow.

LEDoux

Jan. 19—Born—To Mr. and Mrs. J. R. O'Donnell, the 13th, a daughter. The infant child of Mr. and Mrs. Peter Blair died Friday. The funeral was held Sunday from the Catholic church at Ledoux.

John Yanitz, the well known cattle buyer of Elm Dale, passed through our town Saturday on his way home.

Michael Yasgar, who called on us Sunday afternoon, tells us that leap year has nothing to do with the girls for the way of love. He says after waiting since Jan. 1st, not a single girl called on him. He was very much disappointed and did not have much time to talk at any one place, but left his card as usual.

A. L. Green gave a dance in honor of the young ladies of our town Monday night. A good time is reported.

We notice in our last issue that deputy sheriff Ferrell was out to North Prairie after a blind pig and got a sample of liquor. Why not visit other places of the same kind and get a good sample, such as a keg of B. or ski.

The Pike Creek brass band called at the Ledoux basement hall and gave us some loud music which made life real. The last tone played was, "Over the Hills and Far Away."

Rudolph Richard, Eight grade, Columbia school, is the sole occupant of the honor roll for the past month, standing over 90 in every subject and in deportment.

Mrs. Louis Hamlin slipped and fell Friday breaking her right arm between the wrist and elbow. Dr. Fortier reduced the fracture.

SUBMITS AMENDMENTS

Charter Amendments will be Voted on in March

At the council meeting Friday evening, the proposed amendments to the city charter were ordered published and will be submitted to the voters at the city election March 15th. The amendments will provide an easy way of paving any street or avenue in the city, and allow payments for the same to be carried over a term of years.

The poor committee was directed to look into the case of Geo. Hoover's family, on Seventh street southeast, reported in destitute circumstances. Hoover is working in the woods.

Andrew Karl, aged 70 years, asked for help. His last residence for any length of time was Cantor, Ottertail county but had been refused him there. The towns had passed him along, and the same was done here. He has relatives in New York state.

Mrs. Guy Cota, whose husband has left the city, was before the council. Cota was arrested charged with non-support. Mrs. Cota, since her husband left, has been staying on her brother's farm near Gravelville most of the time. She said that her poor health prevented her earning enough to care for herself and child. She said her brother, now in the woods, would look after her if the city helped her until another crop was harvested. The farm had given little during the past year. She thought \$6 or \$7 a month would help her until harvest time. The matter was sent to the poor committee.

The mayor read the following message:

"The terrible calamity in the Iroquois theater at Chicago has directed general attention to the condition of public buildings throughout the country. The result has been in many cases a revelation of defective construction and ineffective provision for the safety of the people.

"While this city has never had and may never have any reason to sorrow over occurrences of the nature of that at Chicago, yet I believe a proper regard for the safety of human beings requires that the city authorities should concern themselves in a matter so important.

"We have no building inspection ordinance. There should be one passed providing for competent inspection and requiring approval of building plans before construction. This approval would include everything necessary in public buildings for the safety of those who frequent them.

"There will be no building done until spring. The present is a good time to discuss a building ordinance, take advantage of the experience of other cities and pass a proper measure.

"So far as buildings already erected are concerned, it would be wise for the council to have examined all churches, theatres, hotels, halls and other buildings used for public assembly, as well as such other houses and blocks as it is thought should be inspected, and where it is evident that the safety of the public or the users of said buildings is not fully protected, to order such changes to be made, more exits provided, fire escapes, etc., as will tend to reduce danger to the minimum. Under the exercise of the general police power, the city has, I understand, the right to order such changes, alterations or additions deemed necessary.

"There is no need of wilful injury to property in any case but if it is plain that alterations are necessary, they should be made. It is not likely that the cost of any alterations liable to be made would be great, nor is it likely that any fair minded property owner would object to salutary and reasonable regulations.

"I urge this matter for prompt consideration.

The council referred the message to the building committee, to report at the next meeting.

The order of the state board of health requiring all cities to put in septic tanks for sewers, was discussed. It is believed that perhaps the order may be modified as relating to Little Falls, as Brainerd, thirty miles above, has a septic tank, and St. Cloud, the nearest town to be affected, is forty miles down river.

Health Officer Chance will appear before the state board of health on the matter.

GOLD, COPPER, ZINC

Great Expectations in the Swanville Mining Region

Swanville News: The discovery of gold at the Johnson farm has caused everybody owning land in this vicinity to turn prospector, and as a consequence some astonishing discoveries are being brought out regarding the contents of the hills all around us, and if the half of the indications of valuable ore deposits prove true this section of the country will become one of the richest producers of copper and zinc—if not of gold—in the county. There can be no doubt that gold has been found in the Pine Lake neighboring localities, and it is thoroughly believed to be in paying quantities, but this fact must remain to be attested when spring comes. As to there being plenty of copper and zinc, results have always shown that there is no possible chance of its being merely a trace of these metals, but that they are to be found in abundance in almost any of the hills. During the past week there has been no less than a score of specimens of ore brought in, almost every one of these are exceedingly rich in copper or zinc, and many of them too, not simply specimens of float ore, but came from large bodies of the ore. One thing that is certain, that the warm weather of spring will bring out development that will prove the mineral value of this community.

Fred Owens, a practical mining expert and mineralogist was here Thursday and made a preliminary examination of the hills in the Pine Lake neighborhood, and in speaking to the News regarding the find of gold and copper gave out much encouragement, but for reasons which he and several parties who are interested with him, do not care to make public at present, refused to say anything for publication. However he did admit, when asked, that there was plenty of indication of copper, and that spring weather would and prospecting would very probably bring out some very agreeable surprises in this direction. As to the question of gold of being found, he was equally encouraging but for very good reason, in a much more guarded manner. From another party, who was out with Mr. Owens, and being much interested in the matter knows whereof he speaks, he told that interesting developments might be expected before long. Mr. Owens will make further investigation after a little.

NO RESERVATION SAWMILL

CHIPPEWA LUMBER WILL BE SAWED AT OUTSIDE POINTS

Washington, Jan. 15—Secretary of the Interior Hitchcock this afternoon passed upon the petition of Representative A. L. Cole and others who desire to have the logging rules changed so that all pine logs cut on the reservation shall be manufactured at sawmills located on the reservation.

Mr. Hitchcock refuses to grant the petition. He says that the Morris act gives him the choice of either granting permits for sawmills or not. In the secretary's opinion, it will not be for the best interests of the Indians to have the lumber sawed on the reservation.

Mr. Hitchcock holds that it might result in lowering the bids on pine in the future. Mr. Hitchcock also refuses to extend the time for logging. He says that if any emergency arises where it will be necessary to extend the time, action can be taken then.

The F. W. Loesgren agency has sold L. J. Olson's farm in section 3, Elmdale, 80 acres, to M. Hanson, of Joel, Wis., for \$3000. Mr. Hanson takes possession in April, and Mr. Olson will move to Minneapolis.

Chas. Walling has placed a copper still in his drug store for water distilling.

VANADIUM STEEL

A new alloy of steel is vanadium steel. When three to five parts of this metal, now little known, are added to a thousand parts of steel, it communicates remarkable properties. It does not suffer any new properties on the steel, but it doubles its resistance to fracture of all kinds, and gives such extreme hardness that the thickness of armor-plate on war vessels can be reduced about one half. With the strength of bread and meat in liquid form, golden grain beer is excellent as a table beverage. It sparkles with purity and is very refreshing.
