Peter Virnig of Buh is a candidate for the democratic nomination for county commissioner of this district. Mr. Virnig has lived here for the past 38 years, nearly all his life. He is well qualified for this office, and his record as a citizen and town official in the past proves that he will make a good and capable commissioner if elected. He will receive the entire support from the people here.

Pierz will hold their primary election in the Newman building and Buh in the J. Kugel building both in the village. Granite will do their voting at John Kraemer's place and Hillman at C. Taylor's house. The election will take place next Tuesday, Sept. 20th. Polls will be open from 9 o'clock in the morning till 9 o'clock at night. There are several contests in the democratic party this year, and every voter should turn out and help elect the candidates, and again turn out at the November election and elect the nominees.

Chance Brookway of Granite returned from the Dakota harvest fields Wednesday.

Math Ziegler, who left Buh about a year ago and moved to Duluth will soon return and will occupy John Hoffman's farm which he has rented.

Theo. Thielen of Pierz and Theo. Ortman of Lastrup are up for the democratic nomination for school superintendent. Mr. Thielen is teacher by profession and has taught school in Buh for several years. He also served as clerk in that town since it was organized until about four years ago when he removed to the village. He is now secretary of the board of education and has acquired the title of an excellent official and would make a good school superintendent. He states that if nominated he will make a hard fight for the election and give his republican opponent a lively chase for the office. Mr. Ortman is also a teacher by profession and has taught the Lastrup school for many years and promises if elected, will also work to the best interest of the Morrison county schools.

West Darling

Sept. 13.—Heavy frost Sunday night killed some garden stuff. Fred Freeman has moved everything to Little Falls. This is the fourth time Fred has moved. He has been in the restaurant business three times, and is now to run a hotel. We wish him success.

The Oak Park farmer is getting lonesome and wants to move to Little Falls. The warm days are passing and the summer birds are leaving for the South, not to return until spring. Of course this makes anybody who is interested in any particular bird get lonesome when winter comes and birdie goes.

Candidates are more plentiful than mosquitoes in a swamp. The cigar business must be good.

Two young girls of these parts indulged in a conversation something like this:

"Why aren't you going to be confirmed like I am? You can't be married if you don't."

"Why, I've got three fellows already."

These silly girls are not 15 years of age, and what they need is a real good old-fashioned spanking.

Rockdale will be good natured this fall, and let the children of his future f-in-l. cross his land to go to school. Good.

Albert Peters sold a steer for \$12.

Miss Minnie Bennet of Parker will teach school in District 35, commencing Oct. 31. All parents are requested to send their children, especially children from 7 to 14 years of age, though older ones can go. The board will try to have all children go.

The Oak Grove children have a great time every Saturday, judging from the racket they make. Children that are alone are bound to have a time.

B. D. Stitler and John Malm are clearing a lot of land and with a ditch that is being put in, the land will be in good shape. It would make a fine Hillside addition.

Silver Park farmer hauled hay to the Falls last week and sold it at \$5 a ton. Some claim there may be a hay shortage this winter, after all.

That deep hole on Yankee street needs fixing. What's the matter, overseer in District 31?

We hear that McCarthy has moved to Little Falls.

The Pike Creek liverman walked to East Darling and she drove him to the Falls. Well, well. Look out for Rockdale; he needs a housekeeper.

Pike Creek people petition the Little Falls council for better roads. Why don't their town board see to it and have the road overseers get down to business. Bridges need repair and roads need attention.

Business must be bad on the great N. P. road. They haven't yet paid for Sol. Crow's cow, killed on the track last winter and Sol. feels like going to law about it. \$30 was offered for a cow worth \$40.

RANDALL

Sept. 13.—On Monday morning Nick Ehr, night operator here, was transferred to Royalton. Nick has been here for a long time and by his strict attention to business, courteous and accommodating ways he made friends with everybody and everybody is sorry to see him go.

Reports come from the West that the weather is very bad for threshing and several who went out to work have come home again.

Mr. Smith of Ft. Ripley, manager of the stock department of the Farmers' Exchange, was in town on Saturday but did not find farmers enough who would furnish cattle enough to load a car, although there was a good many farmers in town they seemed slow to take advantage of shipping through the Exchange.

It would seem that Chas. Chandler made a mistake after he returned from Sioux City, when he said he didn't want any more cattle. He should have said he wanted more cattle, at least it would seem so by the way he is buying. He bought a carload, thirty head, Saturday afternoon and Monday forenoon and would have shipped Monday evening if he could have got a car.

Mrs. Lucas and Miss Crandall will probably leave some time this week for Oregon, to visit with their parents and other relatives.

B. R. Gide of Grey Eagle spent Sunday with his family in Clough.

Two car loads of stock and household belongings arrived here last week from Blue Earth county. They belong to Herman Haas and another young man who have purchased land in Sec. 21, Clough. Mr. Haas and his partner are those of the come-to-stay kind and appear to be genuine rustlers. Mr. Haas has a wife and family and expects them here Tuesday night.

The frost of Monday morning was quite a damage to corn, tomatoes and pumpkins.

Miss Hilda Olson left Wednesday for St. Cloud where she will attend school.

Winter is approaching, we can tell that by seeing cord wood hauled and the teamsters wearing fur coats.

The candidates for the different offices are canvassing the country closely.

The changing of the mail route took effect Thursday. Instead of going by Page's as heretofore we shall hereafter go by Lundberg's. No 6 taking in the Page vicinity.

We thought we would not contradict the Darling correspondent as he is our personal friend, but the chances are to a good first he stated that it would not pay to run a rural mail route as there were only about 300 letters a year and now when the route is to start anyhow, then he boasts of 160 letters in one day. How is this? Has Darling general delivery only twice a year or is the business picking up. We don't mention the 140 newspapers delivered from Darling in one day. We have had as high as 197 newspapers in one day, so here's 'ho' for the R. F. D. No. 2.

For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich food. It not only feeds the blood-making organs but gives them strength to do their proper work.

Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

Wheaty Flavor

You should eat bread raised with Yeast Foam. It has a wheaty flavor and delicious aroma all its own, and retains sweetness, freshness and moisture longer than bread made with any other yeast. Yeast Foam partially predigests the bread and preserves in it all the nutritive qualities of the wheat.

YEAST FOAM

is made of pure vegetable ingredients. With proper care it never loses its life and strength. It's always fresh and ready for use. Bread made with it is never acid, sour or heavy; it's always good as long as it lasts.

The secret is in the yeast.

For sale by all grocers at 5c a package. Each package contains 7 cakes—enough for 40 loaves. "How to Make Bread," mailed free.
