AS TO INDEPENDENT CANDIDATES

Voters voting at the primary cannot sign nominating petitions of independent candidates according to the following letter to Sheriff Bailey of Bemidji:

AN UNDESERVED "CUFFIN"

The "upper" at a vessel discharging pig iron at the harbor in Glasgow was surprised one afternoon recently when a woman saluted him at the ship's side with the double-barrelled query: "Can ye tell me, mister, if it's the rule for the men to get knocked off work at this boat if there's no wagons to put the iron into, an' dey they're waitin' till empty wagons cum?"

FINE GIFT TO LIBRARY

The president of the Heidelberg Chamber of Commerce has just made to the University Library there a gift which is not only eminently worthy of that historic seat of learning, but fully in harmony with the rich halo of tradition encircling it.

HIGHEST CATHEDRAL NAVE

The most remarkable and striking feature of the new Liverpool (Eng.) cathedral is the height of the vaulting of the nave and choir - measured in the barrel vaulting 116 feet, and in the high transepts 110 feet - which cannot fall to produce a very magnificent effect.

WHAT MIGHT BE DONE FOR THE UPLIFTING OF THE WORLD

"Give me the money," says a recent speculative philosopher, "that has been spent in war and I will purchase every foot of land on the globe. I will clothe every man woman and child in an attire of white kings and queens would be proud. I will build school houses on every hillside and in every valley over the whole earth. I will build an academy in every town and endow it with a college in every state and all it with able professors. I will crown every hill with a place of worship consecrated to the promotion of peace; I will support in every part an able teacher of righteousness; so that on every Sabbath morning the chime on every bell shall answer to the chime on every bell around the earth's wide circumference, and the voice of prayer and the song of praise should ascend like a universal incense to heaven."

GERM OF GOOD CHEER

Fact is the art of adjusting the relationships between ourselves and others.

PHYSICIANS MUST "DOPE" LIQUORS FOR PATIENTS

Physicians who wish to give liquor as medicine to their patients must hereafter get a license from the government or face a fine, says the Wadena Tribune. If, however, the physician is allowed to give something with the liquor before administering it instead of giving it straight, the government will consider him a physician, and he need not pay a license fee. This will work a hardship on "doped pigs" in some states. The ruling of the commission of internal revenue is as follows:

WINTER MUSKMELONS

A new variety of muskmelons has recently been imported from Turkestan, which is as large as our watermelons and has a delicious pulp several inches in thickness. This melon can only be grown in the arid regions of the West. It matures in September, when it is picked, but is not ready to eat until December or January. We are finding new foods daily, but none so wholesome and invigorating as golden grain belt beer, an old standby of the West. Uniformly good, pure and delicious. Order a case of your nearest dealer or be supplied by...

IF YOU ARE GOING TO THE WORLD'S FAIR REMEMBER THAT THE MINNEAPOLIS "ST. LOUIS RAILROAD"

Is the most direct route from the Twin Cities and the Northwest and offers unexcelled service. Two through trains daily with Pullman Buffet Sleepers and free reclining chair cars and dining cars. All trains pass in full view of the World's Fair buildings and stop at main entrance to Exposition Grounds.

JANET PRIEST AS AN ACTRESS

Miss Janet Priest of 'The Maid and the Mummy' is a graduate of the University of Minnesota, says the Washington Star. She was soon employed by one of the Minneapolis newspapers, and it was not long before she became editor of the woman's page of the same publication. Afterwards she wrote with success about the stage and its people. Just how she became possessed of the desire to act no one save herself appears to exactly know. Her choice is depicting children; and, if possible, children of the stunts. That she has carefully studied such children is evinced by the care with which she portrays them.
