NEWS IN MINNESOTA

EVENTS OF A WEEK THROUGHOUT THE STATE

Mrs. Anna Walker, a resident of Minneapolis since 1854, is dead.

Among the unusual exhibits at the Cokato fair and carnival last week was a squash weighing 122 pounds.

Joseph Conroy, seventy years old, shot John Mason during an altercation at St. Paul. The wound is not serious.

For the first time in many years all the flour mills of Minneapolis are running to their capacity day and night.

Fire of unknown origin destroyed the saw mill of the Charles Betcher Lumber company at Red Wing, causing a loss of \$50,000.

Frank Webber, a farmer living near Centerville, fell from a load of hay, breaking his neck. He was dead when picked up after the accident.

Florence, the eight-year-old daughter of Mr. and Mrs. John Miles of St. Paul, was accidentally drowned in a cistern at the home of John Ahern in that city.

George W. Gunn, yardmaster for the Northern Pacific road at Stillwater, died suddenly from apoplexy on one of the company's trains while on a trip to St. Paul.

According to the report of the state census bureau more than 100 residents of Minnesota were born at sea. About a score of these reside in the Twin Cities.

George F. Putnam, treasurer of Sherburne county, who admitted that he used several hundreds of dollars of county funds in his private enterprise, has resigned.

Charles Wolford, a Minneapolis telephone lineman, is dead as the result of a fall of fifty feet while repairing a line. His skull and one of his arms was fractured.

Colonel Arthur J. Stabbert of St. Paul has been appointed major general of the uniform rank, Knights of Pythias, by Charles E. Shiveley, supreme chancellor of the world.

Miss Myrtle Sterling, a well known young lady of Red Wing, has confessed to the police that she caused several recent fires in that city. Her mind is said to be unbalanced.

Reports from all the public schools in St. Paul for September show that instead of there being an increased attendance, as compared with last year, there is a falling off of forty-one.

Daniel McCormick, a switchman employed in the Milwaukee yards at Minneapolis, was caught between two cars while helping to make up a train and so badly injured that he died two hours later.

Mrs. Rose Hammond, twenty-five years old, committed suicide at Minneapolis by drinking and inhaling the contents of a two-ounce bottle of chloroform. The act was probably due to domestic infelicity.

Because of the prevalence of glanders in Minneapolis the city health department is planning to shut off all of the public drinking fountains provided in a number of different parts of the city for watering horses.

While pulling stumps at his farm four miles from Bemidji Eric Bos was struck by the sweep of the stump puller and so badly injured that he died in the wagon that was bringing him to the hospital in Bemidji.

John Faughy, lineman for the Red Wing Gas and Electric company, was electrocuted while on top of a pole fixing wires. The dead man was thirty-five years old and served with the Thirtieth Minnesota in the Philippines.

The October apportionment of the public school fund, announced by State Superintendent Olson, amounts to \$82,881.80, divided on the basis of 875,126 pupils, or \$2.30 per capita. This is 10 cents more for each pupil than the apportionment of last October.

Prompt arrival of fire fighting apparatus from Clequet and Scanlon saved the village of Carlton, on the Northern Pacific road, from complete destruction by a fire that began at noon Friday. Ten buildings were badly damaged, and many others were destroyed, so that the loss, roughly estimated, probably will exceed \$50,000.

The slipping of a new wagon tongue from the neckyoke resulted in the instant death of Peter Tollefson, a farmer residing near La Crescent, and perhaps fatal injury of his wife. In the runaway which followed the accident Tollefson was hurled to the ground and his neck was broken by the fall. Mrs. Tollefson was injured internally.

The unusual shortage of cars for the movement of the grain crop in the Northwest is likely to result in an official investigation on the part of the state railroad and warehouse commission to determine whether the companies are giving Minnesota a fair share of their freight cars and whether or not these cars are being distributed properly to the different shippers.

The state board of equalization has completed its work, having added about \$11,000,000 to the personal property valuations. The return for personal property was \$158,397,416 and the raise will make it about \$170,000,000. The valuation as left by the board last year was \$149,684,181, so there is an increase of about \$20,000,000. About \$25,000,000 is exempt, so there will be \$145,000,000 to be taxed. The board had nothing to do with the valuations of real estate this year. The valuation of real estate last year was \$700,000,000 and the improvements this year will add about \$10,000,000. It will make a total taxable property in the state \$855,000,000.

CITIZENS FIGHT BANDITS

One Killed and Two Wounded in Desperate Battle.

Wild Rose, Wis., Oct. 9.—One bandit was killed, two were seriously wounded and one other was captured as the result of a desperate fight with a posse of fifty armed citizens of the village, aroused by the burglary of the postoffice and bank.

The bandits were caught in a forest eight miles from the village and fought with guns for an hour and a half.

The bandits secured \$100 in cash and \$300 in stamps, which, with nitroglycerin and burglars' tools, were found on them. They cracked the outer door of the safe in the State bank of Wild Rose, but were frightened away before reaching the money chest.

No citizens were hurt in the fight.

ASSISTANT CANAL ENGINEER.

John G. Sullivan of Winnipeg Will Aid Stevens.

Washington, Oct. 9.—John G. Sullivan has been appointed assistant chief engineer of the isthmian canal commission by Chief Engineer Stevens, at Panama. Mr. Sullivan is a member of the American Society of Civil Engineers and was division engineer of the Canadian Pacific railway, with headquarters at Winnipeg.

BOYCOTT SUSPENDED

CHINESE WILL GIVE CONGRESS A CHANCE TO AMEND THE EXCLUSION LAWS.

Washington, Oct. 9.—News that the merchants of China, who have been prosecuting the boycott against American goods, have decided to temporarily suspend that movement to await possible action of the United States congress in softening the exclusion laws, is contained in official dispatches received during the day from Peking. The information comes from the Merchants' guild of that place and is to the effect that this course has been decided on by merchants throughout the empire. The action follows the action of the Chinese government in the matter, which was given as a consequence of the attitude of President Roosevelt. Should congress fail to take the desired action the boycott will again become effective and will be pressed with renewed vigor.

HUGHES DECLINES NOMINATION.

Refuses to Make Race for Mayor of New York City.

New York, Oct. 10.—Charles E. Hughes, counsel for the legislative insurance investigating committee, has declined the Republican nomination for mayor of New York city. In stating his grounds for refusing the nomination, which was tendered to him by the unanimous vote of the city Republican convention last Friday night, Mr. Hughes said:

"In this dilemma I have simply to do my duty as I see it.

"In my judgment I have no right to accept the nomination. A paramount public duty forbids it. It is not necessary to enlarge upon the importance of the insurance investigation. This is undisputed. It is dealing with questions vital to the interests of millions of our fellow citizens throughout the land. It presents an opportunity for public service second to none and involves a correlative responsibility. This work commands all my energies. It is imperative that I continue in it."
