Mr. Busse's plan is to get all the parties interested along the line from here to Brainerd, and have a switch placed in a me house where connections could be made with our line here. As telephones are becoming a necessity to the modern farmer we believe the above mentioned gentleman ought not to meet with any opposition. Mr. Busse was in Brainerd Saturday in the interest of this. A whole lot of our farmers were at Brainerd Saturday with pork, and they were such as Chas. Hedlund, G. H. Petersen, Ferdinand Eul and some others that escaped our notice, but they were there just the same. Lars Olson has installed his new phone and is well pleased with it.

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE Chemists 409 Pearl St., N. Y. 50 cents and \$1.00 All druggists

PLATTE

Jan. 10.—Some boys and girls went out riding with an ox team and they thought they had a bad accident, but it did not sound like it when the whole party came out of the snow. John Kosobanski's leg couldn't stand to see his body hurt so he ran all he was good for to catch the oxen. John K. was the first one of the wreck one. Now we do not know just how it happened. Some say one of the stakes fell out at one end of the sled and the plank that was on the side fell off. The oxen did not want to stop and its first swept John K. into the snow and he called "Ho" for the oxen to stop, but the wild beasts would not stop or probably made a mistake, and so they started off on a gallop and swept Bessie E., the poor girl, right in the snow and then a plank hit Annie E. on the top of the head and the poor girl thought she had her head smashed. But then you ought to have seen John K. stretch his long legs after the oxen. He ran so fast that his fur coat nearly lost him, but he got the team just the same. Now boys and girls, how would you have liked to be on that sled that was pulled by one spotted ox and the other red. Mr. and Mrs. Kosobanski were in Little Falls Thursday. Born—To Mr. and Mrs. Roch Maelock, a child which died after 26 hours of life, and was buried on Tuesday. Some of our teamsters that are hauling ties to Topeka are taking 35 ties to a load.
