HAPPY CORNER

May 1.—Twenty trees were planted at the schoolyard yesterday. August Blomquist, clerk of the district, and only six children, were present and planted trees. They were Willie Peterson, Ebel McCarthy, Lucille McCarthy, Alfred and Herman Liljgren and Willie Lind, and we give their names to show their good will. Probably many other children would have come if their parents would have let them. Some people say they would like to see a nice grove at the schoolhouse but we can't have any grove without trees, and they should have let the children come. The clerk planted ten large maple trees and in front of the building two rose bushes. We hope everybody will give the flowers a show to live.

Get SCOTT'S Emulsion

When you go to a drug store and ask for Scott's Emulsion you know what you want; the man knows you ought to have it. Don't be surprised, though, if you are offered something else. Wines, cordials, extracts, etc., of cod liver oil are plentiful but don't imagine you are getting cod liver oil when you take them. Every year for thirty years we've been increasing the sales of Scott's Emulsion. Why? Because it has always been better than any substitute for it.

RANDALL

May 1.—Some changes are about to be made in the village, so says the president of the village council and among them—the lid goes on, the curtains come down, the slot machines must go down and out and rushing the can will be prohibited if there is a law to do it.

The school exercises that were held here in the village hall on Friday evening were very good. Superintendent Sheldon was up from town to attend, and expressed himself as well pleased with the exercises and highly commended the teachers in their efforts to accomplish such results. S. C. Cochran, Geo. Danielson also made a few remarks.

John McCoon, a former resident of Burtrum, and well known here, has addressed a letter from Santa Rosa, Cal., dated April 22d, to a lady here, in which he gives a description of the earthquake at that place. Space is too limited now to give full details of the letter but will do so in another issue, but one remarkable feature about it, he says, it wiped out thirty or forty saloons and didn't hardly scratch one of the hotels or fifteen churches.

S. C. Cochran's new building is up and will soon be enclosed. Mr. Nelson is pushing the work right along.

Several of our working men with their team have gone up country to work on the railroads.

Chas. Bery is about to sell out his property here and will go north to look the country over in the vicinity of international Falls and will probably locate there.

Many of this place attended the show in Lastrup. All spent a pleasant evening.

The Skunk Valley correspondent reported something about Joe Socher of Scrapper Hill which wasn't so. Look out what you write of him, or it may really happen that he will be in the Justice's office one day. Some people get mad if they see their names in the Herald, suppose we mustn't write about them. X
