A Breckenridge man resorted to the meanest trick on record to get his wife to dig up the garden. He went out with a spade and after digging around for a while he went to wash the dirt off a dime and a quarter. Back to the garden he went whistling "Sweet Marie." Directly he came in again, this time showing another quarter and remarking that he could afford to take a nap; he had made enough for one day anyhow. When he awoke his wife had the whole lot dug up, but she had not found a cent. She does not know yet that the "mine" was "salted," says the For-man, N. D., Independent.

To the Voters of the Sixth Congressional District:

I announce that I am a candidate for the republican nomination for member of Congress for the Sixth District of Minnesota, subject to the will of the voters in the primaries and earnestly solicit their support.

The determination of all questions of governmental policy rests with the people. There is now a pressure for legislative action on more intricate questions of national policy than there has been in any previous period and the wishes of the people must be shaped into legislation through their servants in office and as a candidate I wish to study with the people the questions that interest them and solicit their consideration with me and ask all voters to attend the primaries Sept. 18th, 1906.

## TAYLOR FOR JUDGE

### Popular St. Cloud Lawyer is Favorably Considered

St. Cloud Journal-Press 27: It appears that the mantle of the district court judgeship of the Seventh district destined to fall on the shoulders of M. D. Taylor of this city at the next election, if the common wish of nearly all of the members of the legal profession in Stearns, Wadena, Clay and Otter Tail counties are to be considered as evidence of who is the favored man to fill the honored position which has been practically vacated by Judge D. B. Searle.

Of late the press throughout the Seventh district has been very favorable to the St. Cloud man, whose well known modesty has somewhat kept him in the background ever since the talk began to grow that Judge Searle would not be a candidate for re-election. The St. Cloud lawyers and personal friends of Mr. Taylor did not consider it wise to make their wishes known publicly till after it was announced from outside that nearly every lawyer in Clay, Wadena and Otter Tail counties had signed petitions to Mr. Taylor to become a candidate for judgeship. It was therefore not till late yesterday afternoon that three of the well known attorneys of St. Cloud, Theodore Brunner, D. T. Calhoun and J. D. Sullivan, circulated a petition among the lawyers of this city asking Mr. Taylor to enter the race. The petition was signed by E. B. Gorman, J. D. Sullivan, E. S. Locke, Peter Brick, Theodore Brunner, A. H. Klason, D. T. Calhoun, J. R. Bennett, Jr., Hubert Hansen and J. E. Pattison, former County Attorney W. F. Donahue of Melrose, who happened to be in the city, also signed the petition.

This expression of the sentiment of the lawyers throughout the district makes M. D. Taylor the logical man for the office of district judge. As the attorneys throughout the district are the men who will have more to do in dealing with the judge of the district court than any other class of people, the recommendations and wishes of the lawyers will go a long way in electing the candidate. M. D. Taylor has not been as actively in practice of late years as many other lawyers in this city, but he has always enjoyed the distinction of being considered one of the best lawyers of the state, and one of the most learned men in law of Minnesota.

The talk of appointing a man to fill the vacancy left in the judgeship caused by the illness of Judge Searle has largely been scouted by the members of the legal profession. They say that it would show bad taste if the governor were to appoint a man at this time when election is so near at hand, when the people themselves could make their selection, and it is more than likely that there will be no appointment before election. It is not expected by anyone at this time that Judge Searle has the remotest idea of re-entering public life, and this has been admitted for a long time past by Mrs. Searle, who has watched over her husband throughout his illness. His recovery is looked forward to, and is expected by his physicians but that his serious stroke of partial paralysis will leave him too weak to remain in politics and in too uncertain health to take up the work of a jurist on the bench seem beyond a doubt certain.

## THE CITY'S FINANCES

### Treasurer's Report Shows Them to be in a Satisfactory Condition

The report of the City Treasurer Charles Syster, for the year ending April 30, 1906, shows a satisfactory condition of the city's finances.

In the revenue fund there was a balance of \$5,063.86 on April 1, 1905. The receipts during the year were, including the balance, \$88,507.67, and the disbursements \$83,896.13, leaving a balance on hand in the revenue fund of \$4,611.62, a good showing.

The report shows that the guarantee fund of \$500, deposited as evidence of good faith in the proposition to build a street railway, has increased with interest to \$580.57. The council will undoubtedly order the treasurer to transfer this amount to the revenue fund, or start a sinking fund, as the time has long since passed and leaving the money in the guarantee fund might probably prevent it being used for other purposes.

The poor fund showed a balance of \$8,666.70 a year ago, and with the receipts during the year made \$5,435.16. The disbursements were \$1,914.30, which is less than usual, and leaves a balance of \$8,527.56. The June and October appropriations, and the fact that the poor expense is smaller during the summer, will put this fund in fine shape before winter.

The revolving fund, from which the payments for paving are made, had a balance of \$10,838.51, and with receipts during the year amounted to \$12,441.12. The disbursements amounted to \$1,007.80, leaving a balance of \$12,271.83. There have been some more payments since the financial year ended, but the total is not large enough to do the paving that is desired unless property owners pay in advance and it is understood that several will do so, and thus the work will go ahead.

Receipts in the library fund, including balance, were \$1,587.67, and disbursements \$880.48, leaving a balance of \$697.09.

In the bond fund, out of which interest on the outstanding bonds are paid, there was a balance of \$398.73, and with the receipts during the year the total was \$5,993.44, and the disbursements \$5,478.23, leaving a balance of \$515.21.

The city's bonded indebtedness is \$116,000, on which the interest charges are \$5,240 a year, or \$450 a month. The bonds include \$40,000 bridge bonds, \$41,000 funding bonds, \$15,000 building bonds, 10,000 sewer bonds, and \$10,000 revolving fund bonds. The oldest of these issues has still many years to run. There is, in addition, the bonded indebtedness of the school district, which is large.

Leonard and four sisters who are members of the order of St. Benedict.

At the March election Jos. Boehmer and Conrad Stangi were tied for road overseer in Dist. No. 3. The judges of election were of the opinion that the old officer would have to hold over, declared Mr. Stangi elected as he was overseer of this district last year. On Monday Jos. Boehmer handed this letter to the town board at their meeting in the village hall:

To the Board of Supervisors of the town of Pierz:—In regard to road overseer in Dist. No. 3 in this town, the judges of the last town meeting in March 1906, have left a tie vote for overseer and decided as the laws of the state says: In case of a tie the tie shall be decided by casting lots and the judges of election shall cast lots to decide the tie. But our judges did not do this and declared a certain party to be overseer and forwarded the books to him illegal, and said party is not legally appointed, as the place is not vacant, so the said party cannot legally receipt for road work done. Jos. Boehmer, as a taxpayer in this town, protests against the paying of any money out of the town treasury for compensation to the supposed overseer in this district, as it practically stands today we have no overseer in this district.

Now I hope the board of supervisors will attend to this matter and do their work prompt and legally and not the way our judges of election in March did, as they decided illegally and partially where they took their oath to be impartially, but acted contrary to their oath.

I call your attention to the fact that said judges of election are criminally liable for perjury.

Jcs. Boehmer.

No action was taken on this letter and Stangi continues as road overseer.

Pitrowski did not appear, and the majority of the witnesses put the blame onto him. The Justice dismissed the case.
