

The Jar of Coughing

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

"I always keep Ayer's Cherry Pectoral in the house. It gives perfect relief whenever any of us have coughs or hard colds. I have used it for a great many years and so know all about it."—MRS. MARY OBERTEAN, Varysburg, N. Y.

Election is at hand again and no petition as yet has been circulated asking for a division of town and village. Matt Rasser is home from the West and is here at present. During a conversation the other day the following remarks were made by a person who has traveled both West and South: "During his travels he has had occasion to visit many creameries, but none cleaner or better than the creamery he has never found inside of than the one at Randall, operated by Andy Hanstrom. BUH

Oct. 31.—Next Tuesday is election day. Let us all turn out, and whatever we do we should not forget the Herald man. He deserves support. Mrs. Anna Vieth is reported sick. Yes, one creamery or skimming station in Pierz is sufficient even if it is located in upper town. The writer does not believe that many farmers are foolish enough to patronize an individual creamery when a farmers cooperative creamery is within their reach. The Freedom Creamery Co. which will control the skimming station in upper town consists of about sixty stockholders, who are willing to compete with anyone if necessary. Herman Block will have charge of the station. Mike Eckel has written a letter from Dakota stating that he will stay there this winter. Mr. and Mrs. William Virnig left Monday for Quincy, Wash. A wireless telegraph message says that Mike the correspondent's brother, will soon be married. Of course we know nothing about it.

The residence on First avenue Northeast, between sixth and seventh streets, which was occupied by the family of Gus Buskirk, was damaged by fire at about 7:00 o'clock Wednesday morning. According to Mr. Buskirk's story, he came home from his work at the Northern Pacific round house a short time before and kindled a fire in the kitchen stove, afterwards going for a pail of water. When he returned he found the building full of smoke. Mr. Buskirk found the upstairs full of smoke as well as the lower floor and immediately turned in a fire alarm, to which the department promptly responded. When the hose companies arrived however, the building was doomed, as it was a frame structure, unplastered, and burned like so much tinder. The firemen quenched the flames within a short time of their arrival, but the ravages of the fire had been such that the building and contents were a total loss. Mr. Buskirk states that he had no insurance on his household goods, and his brother, John Buskirk, who owns the house, had no insurance on the building, which will make their loss considerable.
