

A RACE FOR LIFE

BIT BY A DEADLY INSECT

TRAIN DELAYED SEVERAL HOURS ON ACCOUNT OF A WRECK

In the spring of 1894 while in Austin, Tex., where I had been sent for my health, I was sitting in front of the Driscoll hotel when from a carriage hastily driven from the depot, two gentlemen emerged. One was an elderly, well-dressed gentleman of about 60; his face was swollen almost twice its natural size, his eyes and mouth almost closed. The other gentleman, who was his attendant, stopped to ask me if I could refer him to a first-class physician. I recommended him to the one who was then attending me, and at the same time asked him about the disease of his friend. In reply he stated that about two years ago a growth had appeared in the glands in the side of the neck. This was removed by an operation but soon reappeared. A late conference of the home doctors have reported that he could not live and we are now en route to Louisville, Ky., to consult Dr. Rea, of that city. Our train being delayed we are compelled to remain in Austin until evening.

You will not see Dr. Rea in Louisville, I replied, as I remember seeing in the Houston Post where Dr. Rea will visit Houston, Tex., in a few days, therefore you had better stop there and save yourself the journey. "What," muttered the sufferer between his half-closed teeth, "Dr. Rea of Louisville in Texas; how fortunate."

They left Austin that night and upon arriving at Houston the next morning found that Dr. Rea was due in Houston one day later.

Dr. Rea arriving in due time was informed of the suffering and importance of the patient waiting and hastened to make an early examination of his case.

Without asking him a question, Dr. Rea said to him: "My dear sir, it is my opinion that you have been bitten by some poisonous insect; it is also my opinion that one of your parents or very near relatives has died of cancer and that your system, being specially liable to develop cancer, has only been aggravated by this bite, which has produced a cancerous growth. With the proper treatment you can be cured. Do you want me to doctor you?"

"Yes," said the gentleman. No sooner had his permission been granted than Dr. Rea injected something into the growth, gave him something to make him rest and then sent him to his room to lie down. Being treated in the same manner the next day, he started to his home, stopping in Austin a few hours between trains. I saw him again at the hotel.

He assured me that he was feeling much better and that the Doctor had promised him a cure in from three to five months. Being interested in his case I gave him my address. Six months afterwards I received a letter from him saying that he was cured and that he was in better health than he had been for years. I met a number of patients while in Texas, as I have in all sections of the country I have been in, they all tell me of the miraculous features in Dr. Rea's practice, his unerring ability to tell a patient his disease without asking a question and the speed and ease with which he cures the most malignant disease. In cancer, consumption, tumor, paralysis, fatty degeneration of the heart, kidney and nervous diseases, that he does not lose one case in ninety, that his patients are those having the worst cases of chronic diseases and have been given up by other physicians as incurable, and yet these incurable, malignant diseases seem to be handled by him with the utmost ease and uniform success. The names of some of the patients whom he has cured have come to my notice. Miss W. A. Cochran, Woonsocket, S. D., cured of a terrible case of piles, which she had for years.

COMBINED DOOR KNOB AND BELL

A western inventor has recently introduced a combination door knob and door bell, which serves to give warning of the entrance of any one, and minimizes the danger from sneak thieves. The door knob is hollow and is made in two parts, the outer part forming a gong. Within this gong are a couple of bells, which are operated by means of gearing connected with the spindle to sound the gong whenever the spindle is turned, thus giving the alarm. THE BROWN-BUCKMAN WEDDING.

St. Cloud Times: "A complete surprise was given the people of Sauk Rapids when the marriage of Mrs. Enma C. Buckman to Mr. John Brown was announced Wednesday evening. The marriage ceremony took place at the home of Mr. and Mrs. J. W. Dewey, at 8:30 and Rev. C. W. Stark, of St. Cloud, officiated. "The surprise was complete, no one except Mr. and Mrs. Dewey, the pastor and the contracting parties knowing anything about it. A few of the young ladies of the city, who have been warm personal friends of Mrs. Buckman, were invited to a dinner, and there happened to be one other neighbor who came in to see Mrs. Buckman, having heard that she was not feeling well. When the young ladies had all gathered, Rev. C. W. Stark happened in. He was introduced to the young ladies and even then they did not surmise that there would be anything doing in the matrimonial line. Finally Mrs. Buckman and Mr. Brown, without any preliminary ceremonies, stood up and they were married in the presence of their guests almost before the latter could realize what had happened.

"Congratulations were then extended to the couple and they all sat down to a bounteous dinner, most elegantly served. The news soon spread and there was surprise after surprise.

"Mrs. Buckman is the divorced wife of Congressman C. B. Buckman. She has made her home in Sauk Rapids for the past year or two, and has a large circle of warm friends, both there and in St. Cloud. Mr. Brown had been employed as an electrician for the D. H. Freeman

company at Glendive, Mont., up to a short time ago. Before that he was connected with the Western Granite Contracting company in the mechanical department. He, too, is well known and is popular in Sauk Rapids. "Mr. and Mrs. Brown will make their home in Sauk Rapids during the winter. They may decide to locate there permanently. They are receiving the congratulations of their many friends in the village today."
