

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

"My little boy had a terrible cough. I tried everything I could hear of but in vain until I tried Ayer's Cherry Pectoral. The next night he was better, and he steadily improved until he was perfectly well."—Mrs. S. J. BREWSTER, ALTON, Ill.

THE CREAM SHIPPERS.

Up at Hinckley, Minn., there was a private local creamery doing a fair business in spite of fierce competition with the centralizers in Duluth and in the Twin Cities. The creamery burned down the other day and the very next morning, so Mr. Knickerbrocker, one of the proprietors, tells us, the price of cream dropped three cents per pound of butter fat. Farmers shipping away their cream instead of patronizing their local creamery should stop and consider what is surely coming to them the minute the local creamery shuts its doors. Only by supporting and patronizing the local creamery, can the farmer insure for himself a square deal in the disposal of his dairy products.—Dairy Record.

When your Watch Stops

You cannot make it go by shaking it. When the bowels are constipated you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and no machine made by man is as fine as the human body.

The use of pills, salts, castor-oil and strong cathartic medicines is the violent method. The use of the herb tonic laxative.

Lane's Family Medicine

is the method adopted by intelligent people. Headache, backache, indigestion, constipation, skin diseases—all are benefited immediately by the use of this medicine.

Druggists sell it at 25c. and 50c.

Fire That Has Burned 1,200 Years.

The sacred fires of India have not at all been extinguished. The most ancient which still exists was consecrated twelve centuries ago in commemoration of the voyage made by the Parsees when they emigrated from Persia to India. The fire is fed five times every twenty-four hours with sandal wood and other fragrant material, combined with very dry fuel.
