Who Can Dispute These Facts?

WE HEARD upon our first visit to Little Falls after the purchasing of the fuel business from the Pine Tree Lumber Co. quite a few discussions from some of the citizens relative to the question—"Is Pine Wood Cheaper Than Ever Before?"

Some argued in the affirmative and some in the negative. As has been our motto at all times—"allow people to get through with their argument before starting ours."

Our first question—How did Little Falls ever get such beautiful weather?—The question ought to be answered easily but for fear of some mistakes we will give the correct answer, namely—Because the Pine Wood Fuel Co. brought it to us.

Who can say that Pine Wood is not the best and cheapest fuel they ever used? To be sure in days gone by when the thermometer registered 20 to 30 degrees below zero you used a lot of fuel, but did we not state upon our arrival here that the sun would be just as good to us as it would be to you. Is this not true? When have you ever been blessed with such sunshine at this time of the year? You can credit the Pine Wood Fuel Co. for it all and we shall never tell you not to believe it either.

Remember we are going to make it an object to buy your wood direct from the mill. You will receive the same amount of wood and save 33 per cent on it.

Our Price Per Load Delivered is \$1.50
