GIANT GRIP MEETING

Future Company Looks Bright—Officers of Coming Year Elected

The stockholders of the Giant Grip Horseshoe company held their annual meeting and election of officers Thursday afternoon of last week. Stockholders from Wadena and Frazee, who own the majority stock and several of the local stockholders were in attendance. Minneapolis and Duluth parties interested were not present. Although the outsiders held the majority of the stock, they were willing to be very fair with the local people interested, and expressed themselves as pleased that the local stockholders were taking an interest in the welfare of the company. J. K. Martin represents Little Falls on the board of directors, and was also elected first vice president.

The reports were made as to the condition of the company, one which has been made by the present management and which embodies more closely the actual state of affairs. An auditing committee composed of John Vertin, J. K. Martin and T. C. Gordon were appointed to ascertain the condition of the books and property of the company, who will be assisted by Manager Strom and President Kohler.

Those present who have been closely connected with the running of the plant since it had been started here spoke of the business affairs of the company since that time. The company had bought expensive machinery which had not proven as represented, and many other things of the same nature had happened to greatly inconvenience the company, but they thought that it was now in a fair way to get a fresh start and do well.

Since this last meeting the stockholders believe that the future success of the company is assured. The product that is now put out is meeting with entire satisfaction, and the business the last few months has been good and showed a nice profit, although it has been gotten practically all through mail orders; there being no one on the road at present.

The officers, who are also the board of directors, are as follows:

President—John Kohler, Frazee.
First Vice President—J. K. Martin, Little Falls.
Second Vice President—Frederick Claydon, Wadena.
Secretary—Dr. S. S. Jones, Frazee.
Treasurer—R. E. Strom, Frazee.

Rev. H. A. Seder of Brainerd was here Saturday to attend the funeral of his father-in-law, Charles Winscher.

Mr. and Mrs. Ed. M. Lafond visited several days in the Twin Cities this week. Mr. Lafond represented the Transcript at the meeting of the North Star Daily Press association which met on Tuesday.

SHAKE IN A BOTTLE

Advice of Authority. Also a Simple Prescription

Now is the time when the doctor gets busy, and the patient medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime. Just try this simple home made mixture at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity, when shown the prescription, stated that they can either supply these ingredients, or, if our readers prefer, they will compound the mixture for them.

Stringency Causes Much Suffering in Cincinnati

The following appeared in the Chicago Record-Herald:

"Cincinnati, O., Jan. 12.—A parade of thousands of unemployed marched to the city hall today, where a delegation held a conference with Mayor Markbreit and the city officials. The spokesman requested aid and work. The mayor informed them that steps had been taken to appropriate \$20,000 for immediate relief. AN EXPENSIVE FAD.

Of all the fads in the world, that of collecting and saving old and rare editions of printed books is perhaps the most costly. The prices of many of these books run up into the thousands. An inexpensive fad and a popular one, is that of serving golden grain malt beer at mealtimes. This clear, sparkling beverage is refreshing and appetizing—an aid to digestion and a muscle builder. Order of your nearest dealer or be supplied by E. S. Tanner, Little Falls.

PREPARE FOR ICE RACES

The local sportsmen were out Sunday trying out their horses on the ice, which had been cleared for a track, and although the ice was slushy, a pretty good showing was made by the different horses. A number of persons were at the race tracks and witnessed the little bursts of speed made by first this and that horse. The horses that were tried out were, Lady Option, driven by Barney Burton; White Cloud, driven by Joe Lafond; Lew Patchenwood, driven by Sam Lafond; and Half Chance, driven by Dr. Newman. The tryout proved very interesting.

FLAT CAR WAS ON FIRE.

An alarm of fire was turned in Sunday morning about half past seven, a flat car in the N. P. yards being on fire. The car had been loaded with cinders, and no doubt a number of them were live ones, which caused the car to catch. Chief Emdor thought it was unnecessary to put on water, so some of the section crew got busy, and with a few pails of water quenched the fire. The damage was not great.

M. S. Jacobson, who has for some time past been conducting the sale of horses in this city, has decided to ship his horses to St. Paul and con- duct the sale of horses in that city instead of here. During his residence in this city Mr. Jacobson has made many warm friends who, while regretting to have him leave, will wish him success in his new location.

Combine of Democrat, Herald and Transcript

W HAT WOULD WE DO if it were not for the Democrat, Herald and Transcript? We would surely have to advertise some other way as we have been informed there is not a family in the city who do not take at least one of these.

With such enterprising, up-to-date sheets, it ought to be the disposition of every citizen to subscribe for them all. Each one knows the value of pine wood and each one will tell you about it. You cannot know too much about it. The Transcript will tell you more frequent, but judging from our meeting with Mr. Hoblit and Mr. Auyer I think they will be able to give you the Democratic synopsis of pine wood—ECONOMY, HEALTH, COMFORT. The Herald is not so slow, they will say—use nothing but pine wood so long as you are able to purchase it, thereby prolonging life and cultivating a kind disposition.

Pine Wood Fuel Co. is in the real estate office of John Vertin, 112 N. E. 1st Str. Our telephone call is 154. Call when down town. If you do not need pine wood, Mr. Vertin will sell you insurance. Pine wood and insurance go well together, without one the other would be very little needed.
