

# Mechanics and Farmers Shoes

We've just received our fall Mechanics and Farmers shoes which are built to meet their every day requirements. Built to withstand all sorts of hard usage, and still not clumsy. Built for comfort. No man can work intelligently when his feet are constantly hurting him. The leather is the most durable of box calf, kangaroo calf, hand sewed and hand pegged on broad comfortable lasts, the best of heavy oak soles. The construction of these shoes throughout is the very best.

**10-in. top \$3.25**

We ask for a trial of our mechanics and farmers shoes. The goodness that's in them will soon be known

### PIERZ

Aug. 12.—We walked to the Soo depot Monday morning to see how work is advancing, but outside of the gravel train with its steam shovel, there was not much to be seen. The carpenters and well diggers have all gone to Vawter to finish work there, as Mr. Gust Sorenstahl, the operator, informs us. He further tells us that the road will be completed to Moose Lake this fall. The well is about 25 feet deep now, but will be made deeper yet. It is 14 feet in diameter and the frame inside is ten cornered, and cement brick will be put inside of the frame. The tank will be put up side of the well and will have a capacity of 2500 barrels of water. The most interesting work one can see now is done by the gravel crew. The Soo company has bought 25 acres of land of Magnus Ranch to be used as a gravel pit. They are at work with the steam shovel now, which takes up a cubic yard of gravel at a time and nine shovels full fill a car, which is done in five minutes. J. Borgerding will build his elevator soon. He has several carloads of lumber here already for his yard. He will also put up a coal shed. R. E. Brice one of the engineers, informs us that every effort will be made to complete the line to Moose Lake as soon as possible. The grading crew, under contractor Ed. Falbe, has come upon a bad place eight miles east of Waukon. It is a marsh about one half mile wide, in which there is a box or sink hole, the length of which is not exactly known, but is thought to be about 200 to 250 feet. Contractor Falbe has had a double crew working day and night to fill the sinkhole, but the gravel or ground he fills in sinks slowly as fast as he fills in. How long it will take to fill this bog nobody knows. We are informed that the steel crew will commence laying rails on the other side of the bog to Moose Lake at once, and lay the rails across the bog later on. Mr. Brice tells us there are several such places along the line, but all much smaller. One at Holding, although the trains pass over same, is constantly sinking, but very slowly, and men are at work nearly all the time filling up. This is an appearance the engineers cannot account for, but they think the gravel or ground that is filled in spreads out as it gets down farther where the morass is probably softer.

M. Wermerskirchen is getting a fine omnibus built. It will be a regular bus; same as the Buckman and Columbia house busses in Little Falls. There will be room for eight, and if crowded, for ten passengers. The bus will make regular trips to the depot. Quite a large crowd of harvest workers went to the Dakotas last Monday. Most of them went to Casselton, N. D. That place seems to be the rendezvous for parties from Pierz. There are quite a few parties living there that formerly lived in Pierz. Those who went Monday, as near as we could find out are: The three brothers, Mike, Joe and Andrew Kama, Robert Wanninger, Joe Schubert, John Virnig, M. Schommer, Ed. Stuckmeyer, Louis Schebel, Jacob Girtz and family, John Girtz, Peter Froehlich, John Gassert, Mamie and Annie Eisel.

Last Monday two families coming from Alexandria, Douglas county, passed through Pierz. They came with their teams over land, and will settle on land they own two miles south of Onamia.

John Vertin and P. Arendt of Little Falls, made a business trip to Pierz last Tuesday.

Harvest will be over around Pierz by the time the readers of the Herald get this issue. Three or four miles north and east of here it will take three or four days longer to finish. Grain as a whole, or on an average, is not as good as expected. In some

localities wheat is good with a good kernel, in other places very poor. Oats is all around not near as good as last year. Premesberger & Konen commenced threshing Monday. They say there is a great difference in fields. There are fields with large ears, that poorly filled, and the yield is far below expectation. The straw on most fields is long.

John Hohlit of the Morrison County Democrat and Sam Trebby of Little Falls were business callers in Pierz last Tuesday.

Messrs. R. E. Brice, I. C. Moe and Wm. Emerson, engineers on the Soo line, returned to Pierz from Minneapolis the latter part of last week.

John Leigh of Pierz went to New Munich, a station on the Soo line, where he will open a barber shop.

Jesse Leigh of Hillman went to North Dakota last Monday. He has been employed there to work during harvest and threshing.

Look out for the game warden. We are informed that he has an eye on the hunters of Pierz and vicinity this year.

George Kiewel and family and Peter Kiewel and family of Little Falls camped at Fish lake, near our village, a few days last week and a few days this week. As we are informed by George, the party enjoyed their outing very much. They returned Tuesday.

Last Sunday afternoon a game of ball was played between the Lastrup team and the Pierz Juniors on the Pierz diamond. The game was very exciting and many brilliant plays were made. The Juniors, a bunch of young lads of the village, have improved much this season and it takes a fairly good team to beat them. With the visitors to bat in the first inning, Herm Vanderhaar, of the Juniors, struck out three men and in the second inning he struck out two more, and the others did not get to first, but no score was made so far. In the third inning the visitors scored on an error by the Juniors, who were not able to get a man across the home plate. Brummer of the visitors striking out the first two and the third did not get to first. The fourth inning it was one, two, three, out. In the fifth inning the Juniors got even with the visitors by bringing Wermerskirchen over the home plate and the score was a tie. Before the side retired Vanderhaar made a steal for home, scoring one more for the home team. After the fifth inning neither side scored, but the visitors made a desperate effort to tie the score in the last half of the ninth inning with two out and a runner on second, but he was thrown out on third. This ended one of the best games ever played on the Pierz diamond, leaving the score 2 to 1 in favor of the Pierz Juniors.

Jos. Brummer, Sr., Henry Nagel, and John Hobeisel were at Onamia last week looking over the place. They say business is lively and merchants are all doing well.

Onamia Lake Breeze: Joseph Brummer, Sr., Henry Nagel, and John Hobeisel, of Pierz, were over taking in the sights in town the first of the week. Joseph Brummer, our local shoe man, was not satisfied to confine his sightseeing to Onamia but accompanied August Eichmiller to Cove. Mr. Eichmiller proposed to combine pleasure with work, so invited Mr. Brummer to help him load the hay which he was to take back with him. By the time the hay was loaded, sightseeing completed and they had reached home it was evening and Mr. Brummer happened to think that he was to have taken the train for Pierz several hours previous. The rest of the party had boarded the train but finding that Mr. Brummer was not with them, concluded to stay over and commenced a search for the missing member of the party. The boys say that they will keep a closer tab on Mr. Brummer next time they

come to Onamia.

Pierz Juniors will play a game of ball with the Vawter team on the Pierz diamond next Sunday afternoon. A complaint is made by our two ball teams that the games are not visited enough and after a game is over, the players have to go down into their pockets and settle for the expenses. We are told that some that do come will put up five or ten cents only. It is asking too much from the teams to furnish amusement and the pay for same themselves. Under such conditions the players are losing courage.

The Star Comedy company that was advertised to show in Faust's opera house the 13th, 14th and 15th will not come. Ed. Skogan, the manager, sprained his foot, and is unable to go on the stage.
