Mrs. Vaughn departed for the state of Washington Tuesday, where she will make her home.

Born—To Mr. and Mrs. Ed. Wynn last week, a daughter. Mother and child doing well.

Arthur Gish was to Randall Saturday and again Tuesday.

Mrs. Nancy Brown was sick Tuesday, but is better today.

A. G. Oby and wife were to Randall Tuesday.

The rain Monday night and again Tuesday evening has relieved the situation somewhat but more rain is needed as it seems the clouds divide over us here and we fail to get sufficient rainfall to meet present needs.

G. W. Gish has some ripe sugar cane and will commence to work it up next week. He thinks about half his crop of cane will make syrup but not high grade.

The feedmill will run Thursday.

### RIPLEY

### Southwest Darling

Sept. 21.—Herman Hanson has commenced grading the road on the line between sections 28 and 33.

August Lindahl has gone threshing. Those who had gone, will soon be home.

August Blomquist writes from Chicago that he has trouble in not receiving his mail. Threshing is good and the weather fine.

### PIERZ

Sept. 24.—We are again compelled to make another correction. At the time the hunting season opened, we reported that, as near as we could estimate, 999 chickens were shot by our hunters the first day. Later we were compelled to acknowledge that we had made a mistake. That only 998 1-2 chickens were shot. One hunter shot one chicken entwine and could not find the one half. Now Christ Schlegel, one of the high officials of the town of Granite, informs us that he has found the other half. It was the rear end of the chicken and he found sixteen (16) eggs in same. He laid them in a fine mossy place, where the sun registered 105 degrees, and they were hatched out in a few minutes. See Christ Schlegel. If he don't show you the chickens, he will give you further information. What will come next?

Chas. Buetgen, our boss painter, invited us to his paint shop to see the new Columbia Hotel omnibus. The bus is a fine one and something new in Pierz. Charley's work, as painter, is number one, as can be expected by all that know him.

**Dr. S. R. Fortier, dentist, will be in Pierz Sunday, Sept. 27, on a professional visit.**

Jos. H. Grell made a business trip to Minneapolis last Tuesday.

Bills are out announcing a social dance in Faust's opera house, to be held Monday, Sept. 28th.

Henry Kruhshak had a cow killed by lightning in his yard last Tuesday evening.

Joe Ries, Jack and Joe Meyer started out last Sunday for a few days' hunt. For their field of operation, they picked out the Sullivan lake country. They were well supplied with guns of all kinds, also had plenty of ammunition. They were prepared for any kind of game, be it a gopher or a hippopotamus as one of the bunch expressed himself. They returned the former part of the week. We have not seen any parties from the Sullivan lake country and could not inquire or find out if there is any game left in that country.

The O. T. Nelson hardware store in P. L. Poster's building, corner of Main and Sixth streets, is now opened and ready for business. J. W. Hanson of Bagley, Minn., is here assisting Mr. Nelson. He will carry a full line of heavy and shelf hardware, paints, oils, glass, etc.

The rain we have been praying for has come at last. Monday evening the first real showers passed over Pierz and vicinity and it rained off and on until Tuesday morning. Tuesday was again a very hot day, but late in the afternoon another heavy shower passed over this part of the country and it poured down for about an hour. Now the soil is well moistened and our farmers can do good plowing.

Osmar Leigh of the new town of Leigh, east of Pierz, informs us that a district school house has been organized. It will be known as school district No. 125. The building is nearly completed, and school will be

opened some time in the former part of October.

Peter Kugel of Little Falls, who is employed by the Minneapolis Brewing Co. as deliverer, has taken a few weeks' vacation and will visit relatives in Madison, Wis. His brother, J. F. Kugel, of Pierz, will take Peter's place during his absence.

Next Sunday, Sept. 27th, the annual meeting of the directors of the Catholic Life and Benevolent association of Minnesota will be held in St. Cloud. The festivities will last three days. A special train will leave Little Falls between 8 and 9 o'clock Sunday morning. As stated last week Pierz will be represented by the St. Joseph's society, Buckman by the St. Michael's society and Lastrup by the St. John's society. The three societies have employed the Pierz band.

The J. Borgard & Co. elevator at the Pierz station has been completed and is now ready for business. Many loads of wheat are hauled there every day, and as threshing advances business will increase. With the Gravel mill and elevator buying grain, Pierz certainly must become a good grain market.

Peter Tretter's separator and three stacks of grain burned on the old Ziegler farm in the northwest corner of the town of Buh last week. Mr. Tretter was threshing on the place when one of the stacks caught fire through sparks from the engine as it is supposed and the three stacks of grain and separator were consumed by the fire. The amount of grain lost is estimated at about 250 bushels. Mr. Tretter has bought a new Nichols & Shepard separator in Minneapolis and is now at work again.

### ROYALTON

Royalton Banner:

**ACCIDENTALLY SHOT.**

Walter Gorst, son of Mrs. H. Ayers was shot in the left leg, a few inches above the knee Wednesday afternoon, while hunting on the river within the village limits. The bullet which was from a .22-calibre rifle, was removed from the fleshy part of his leg where it had lodged without striking any bones. He is not in a serious condition and unless blood-poisoning develops, will be up and around in a few days. It is not known who fired the shot, but it was evidently an accident, as Walter was concealed in the rice waiting for ducks when struck. As is usual in such cases the authorities have been looking into the matter and will hereafter enforce the ordinance, prohibiting the use of firearms in the village limits.

John Stuhl's sawmill at Morrill was burned to the ground last Saturday afternoon. Fire started from the fire-box in the engine-room and spread so rapidly that it was impossible to check it. The building and machinery were entirely destroyed, with no insurance. Mr. Stuhl lost about 15,000 feet of planed lumber and as much custom stock. Reports that the fire had spread into the woods were groundless as the mill hands did not allow it to get away and it burned out on the millsite.

The wedding of Miss Katherine Brausen, daughter of Mr. and Mrs. Peter Brausen of route one, to Mr. Nick Dahmen, son of Joseph Dahmen of Pierz, occurred at the church at Buckman Tuesday morning at 9 o'clock, Rev. Fr. Lange, officiating. The bride is one of the well-known young ladies of Buckman and a large number of friends wish her much joy. Mr. Dahmen is a hustling young farmer of Pierz and has a fine farm near the new Pierz station, where they are now living.

W. J. Broker has an attraction at the Bank Bar—that is very rare. It is an immense buffalo head, beautifully mounted and one of the best specimens we have ever seen. The head was secured from Frank Otremba of Buckman who has a herd of these "monarchs of the plains" on his farm. Mr. Broker paid a fancy price for the ornament, but as usual, wants the best on the market, regardless of price.

Miss Elma Burkel, who has been clerking in the St. Paul Dry Goods store, went to Minneapolis the first of the week, where she has accepted a position in a store.

## WITH BELLS AROUND NECK

If they saw anyone come, must run away. Turned out of the city.

We read with horror of the almost inhuman yet successful effort in England in the middle ages to stamp out the scourge of leprosy. The unfortunate sufferers were turned out of the city into the wilderness and forbidden under pain of death, to speak with or hold any communication with his more fortunate fellows. He even carried a bell around his neck to distinguish that he was a leper. If he saw anyone come, he must run away. But out of the darkness of this brutal law, there sprang up a beautiful flame of Christianity. Brave men, plus men, banded themselves together and gathered up these poor lepers, attended to them, treated them until the disease died out. These houses were afterwards turned into hospitals. This formed the hospital system of England. From this system the echo of their work has come down to our own age.

### NO PLACE FOR THE CONSUMPTIVES.

When once this disease is called consumption, no boarding house, no private family, no community is safe from its ravages. Who will shelter them? The doctor turns to the hospital for the care of his patient, but he finds that refuge for the sick is also closed against the poor consumptive. What have they then to expect? A wait for death, a few weeks, a few months, a miserable life to serve. It is a shock to civilized Christian people to find that for one the most pitiable forms of sickness there is provided no shelter.

Dr. Rea has been treating as a specialty, tubercular diseases for the last twenty years.

His system of hypodermic injection for tubercular consumption is acknowledged by high authority.

His cures are remarkable and his patients are some who have almost passed away. Dr. Rea proposes to cure only those that have a reasonable chance of recovery, and from his experience the past has taught him, he is expected to obtain better results than the average physician or specialist.

Below we publish the names of some patients cured of different diseases:

Gilbert Hove, Thief River Falls, Minn., cured of blood and skin trouble.

Mrs. Amund O. Lee, Fosston, Minn., cured of a chronic nervous trouble that she had suffered with for years.

Mrs. August Kuklok, Rices, Minn., cured of big neck, or goitre of the neck.

Mrs. G. Rohner, Long Prairie, Minn., cured of varicose veins and chronic ulcerative catarrh.

Miss Tina Williams, Ulen, Minn., cured of appendicitis without operation.

Mrs. J. Droskoski, Little Falls, Minn., cured of cancer way back in 1902, writes recently that she has never had a return of the disease and that she is in excellent health.

Peter Slough, Nary, Minn., cured of paralysis of the right side. Consulted Dr. Rea after learning that Dr. Rea had cured his neighbor.

Fred Sonnenberg, Alia P. O., Minn., cure of stomach, liver and kidney troubles.

Miss Mary Peterson, daughter of Morris Peterson, of the United States custom house at Duluth, Minn., cured of tubercular consumption. Dr. Rea had a hard pull with Miss Peterson, but brought her out sound and well. She was far gone when he commenced treating her.

Mrs. Louise Hill, West Duluth, Minn., cured of chronic eczema and blood troubles. Symptoms of cancer were complicated with this disease. Henry Wilkes, Pierz, Minn., cured

The archbishop of Canterbury and 9 number of clergy were adjourning for luncheon after an ecclesiastical function, when a canon remarked facetiously: "Now to put a bridle on our appetites." "Say, rather," retorted his grace, "to put a bit between our teeth."

Wise Provision of Nature.

The skin of the men and women of some nations is much thicker than that of others, particularly in hot countries. The Central African negro has a skin about half as thick again as that of a European. That of a negro is thickest over the head and back—evidently to form protection from the sun.

of kidney trouble and bladder disease that was injuring his health and was considered to be a hopeless case.

August Zutz, Kimball Prairie, Minn., cured of enlargement of the liver, stomach and bowel trouble.

Mrs. H. E. Bowers, Bemidji, Minn., cured of protruding piles. Says she would not take \$1,000 for what Dr. Rea did for her in a few treatments. She had given up all hope of ever being cured.

Chas. Beimet, Pierz, Minn., cured of catarrhal deafness (ringing in ears).

Arthur W. Jones, Little Falls, Minn., cured of kidney, bladder and bowel trouble. Had been sick and doctoring a good many years and spent lots of money. Was advised by a friend to consult Dr. Rea. Mr. Jones now says: "Dr. Rea, you have done all you promised for me. I feel satisfied that I am cured. You may use my name as a testimonial if you wish. I will always do all I can for you."

Miss Hannah Sherberg, Blackduck, Minn., writes: "The medicine of Dr. Rea is helping me wonderful. I shall never forget him for what he has done for me."

Emil Gustafson, Puposky, Minn., cured of tubercular glands. He says, "Dr. Rea your treatment is the first of many I have tried that has ever done me any good."

Mrs. Magnus Hanson, Solway, Minn., cured of stomach trouble and nervousness.

Son of M. Maher of Perry, N. D., with an open sore in the left lung passing almost through the body. A most remarkable case. Mrs. Maher traveled a long distance of nearly two hundred miles from Perry, N. D., to Alexandria, Minn., to see Dr. Rea. She writes on July 1st, that the boy is almost well. He has had so far, only four months' treatment. This case excites the curiosity of the most skeptical. Those that believed that such a disease could not be cured.

Charley Larson's son of five years old, Long Prairie, Minn., suffering from diabetes, and it was said by local doctors, to be absolutely incurable. Now well, after being three months in Dr. Rea's care.

Mrs. Gasper Reuter, Osakis, Minn., cured of a severe case of protruding piles, catarrh of the stomach and other serious ailments. Mrs. Reuter was in a bad condition and has spent lots of money when she consulted Dr. Rea, but was told by him she could be cured which he quickly did.

Wm. Scheel, Alexandria, Minn., cured of protruding piles of 14 years' standing by Dr. Rea's new plan of treatment, the hypodermic injection method. No operation or cutting. Mr. Scheel has sent Dr. Rea many patients.

Dr. Rea's wonderful cures are sufficient reason to prove that he is one of the greatest specialists of modern times. He makes regular monthly visits to the following towns and will be at—

St. Cloud, Grand Central Hotel, Monday Sept. 22nd, from 1 until 3 p. m.

Little Falls, Buckman Hotel, Tuesday Sept. 29th, from 9 a. m. until 4 p. m.
