Jos. Kennedy Proves an Alibi and is Discharged from Custody

The preliminary hearing of Jos. Kennedy, charged with the murder of Annie Kintop, which was adjourned to 10 o'clock a. m. and then to 3 p. m. Saturday, was completed Saturday afternoon. The case attracted so much attention that it was necessary to hold the hearing in the big court room in the court house, and even then the court room was packed so that there was scarcely standing room. Justice Gaudet presided. The defense placed two lumbermen, of Park Rapids, George R. Wilson and John W. Jackson, on the stand. These testified that defendant could not have been in the vicinity of Darling or Randall at the time of the crime as he was working with them in the woods, and was off duty in the season of 1905 only between March 28 and April 1 or 3, when the camp was moving. As the crime was committed on April 10, 1905, the defense claimed that this evidence furnished Jos. Kennedy an alibi and that therefore he should be discharged on once.

Justice Gaudet ruled that both the prosecution and the defense would be allowed to introduce more evidence, if they had any more, on Monday. Neither had any new evidence, however, and the court discharged the defendant, holding that the evidence showed that defendant could not have been on the scene at the time the crime was committed.

NEW SPORT OF AVIATION.

How soon shall the average man be able to add flight through the air to his list of available sports? This is the natural query suggested by the recent successful experiments with flight machines. People are beginning to realize more and more the necessity of serving a good malt tonic, such as golden grain beer, at meal-time. The practice of keeping a case on hand at home is so general that it is well nigh universal. Order of your nearest dealer or be supplied by E. S. Tanner, Little Falls.

IS AFTER CHAMP. WEBER.

Now that E. J. Weber's prowess as a champion wrestler has gone abroad, a daring fellow from Pine River, Kid Boode by name, is willing to try conclusions with our local mat artist. He has had his manager write to make arrangements with Weber for a match, which he wishes to be for a side bet of \$25 and winner to take all gate receipts. And this even before we had decided on what title to give Weber, "Kid" or "Champ" or "Young Hack"!

SENT TO INSANE ASYLUM.

The examination of Peter Tuzinski of Pike Creek, which had been adjourned to last Friday morning, was taken up and completed in probate court last Friday morning. The man was found insane and was taken to the Fergus Falls hospital for the insane by Deputy Sheriff Heroux on the noon train. The unfortunate man's hallucination was that tramps from all over the world were making his home theirs.

TRANSCRIPT ELECTS OFFICERS.

At a special meeting of the stockholders of the Transcript Publishing company officers were elected as follows to take charge of the company on April 1: M. M. Williams, president; Sadie Fuller, vice-president; T. C. Gordon, secretary; E. M. LaFond, treasurer and manager; and these, with Clara M. Fuller, were elected as directors.

HOLD ENTERTAINMENT.

A fine entertainment was put on by the senior class, with the help of members of other classes, in the assembly room of the high school last night. It consisted of recitations, musical numbers and a comic play entitled "Sisters of Snow-capped Mountains," all of which was very well given.

Hose company No. 3 gave a dance in the West side hall last Friday evening, at which the ladies made their appearance in calico and the men in overalls, as it was for the purpose of putting the floor in condition for the Easter-Monday ball.

A young boy was brought before Justice Gerritz last Friday afternoon on the complaint of Truant Officer Dickinson. The lad has been in the habit of absenting himself from school quite regularly though he has been warned several times to attend all sessions of his school. The court reprimanded the boy but suspended judgment upon the lad's promise that he would attend school regularly and would report twice a week to the court during the period of one month.

Twitching of the Nerves

Became almost unbearable until Dr. A. W. Chase's Nerve Pills brought about a cure.

Tapping of the fingers, restlessness, sleeplessness, inability to control the nerves.

What a story of exhausted nerves is told by these symptoms. Nervous prostration and paralysis are not far away unless restorative treatment is used.

The writer of this letter was fortunate enough to learn about Dr. A. W. Chase's Nerve Pills and tells his experience for the benefit of other sufferers from diseases of the nerves.

Mr. I. W. OAKLEY, Montrose, Pa. writes:—"I was troubled with nervous exhaustion for several years and was so nervous I could not lie in bed but would walk the floor and my nerves would draw and twitch until I was almost wild. I tried all sorts of medicines in vain until I used Dr. A. W. Chase's Nerve Pills. Six boxes cured me and the old trouble never returned. I am very grateful to say."

GROVER CLEVELAND GENERALLY WORKED SEVENTEEN HOURS A DAY.

Jesse Lynch Williams in writing his personal recollections of Grover Cleveland in the April American Magazine, refers to the late ex-president's method of writing his messages to congress. He says:

"He once spoke of the care with which he prepared his messages at Washington. Usually he was days doing them. He kept them by him in a convenient drawer of his desk at the White House, would take them out from time to time to make annotations, to show them to Mr. Carlisle. He never did anything hastily if he could help it. To be sure, the celebrated Venezuelan message was written at one sitting, from half-past ten o'clock, on the evening he returned from his fishing trip, to half-past four in the morning; was sent to his stenographer before breakfast and dispatched in its final form to the Capitol at ten—but he had been thinking about it all through his fishing trip. That was why he took the trip, to get away from the turmoil and see things clearly, in perspective. He was certainly one of the hardest toiling presidents we have ever had work for us. From nine in the morning to two at night were his regular working hours, but many a time he was still at his desk working his way painstakingly through a mass of papers when the rising sun looked in through the windows of the east room."

SAYS FRANK IS O. K.

Dobley Thielman, formerly of St. Cloud is one of the wrestlers implicated in the big fake sporting syndicate which was brought to a sudden dissolution by the authorities at Little Rock, Ark. The leaders of the gang are being prosecuted. Thielman, in days gone by, played ball with different teams at this place and is well known by a number of Little Falls people.

THE DIFFERENCE.

What is the difference between high-grade and low-grade baking powders? All baking powders are white and are sold in round cans with bright labels. They look alike, but in contents they are very different.

High-grade baking powders are made of pure cream of tartar derived from grapes. They are healthful and economical to use.

Low-grade baking powders are made of alum, an astringent mineral acid. Before the Pure Food Law only a chemist could tell by analysis one from the other.

But now baking powders have the ingredients printed on the back of the label. By reading the label the housekeeper knows the ingredients and being careful of the welfare of her household, avoids the Alum kind of baking powder.

Good baking powder is one of the most useful things in the kitchen—and there is a difference.

ARREST FREDRICKSON

Darling Merchant is Held as Having Knowledge of Kintop Affair

Alfred Fredrickson, a young business man of Darling, who was arrested Wednesday of last week and incarcerated in the Hennepin county jail from which place he was brought up here last Friday night by Sheriff Armstrong, will be given a preliminary hearing before Justice Gerritz Monday morning at 9 o'clock, the hearing having been postponed to this time when it came up last Saturday. He is charged with the murder of Annie Kintop, which case has been attracting so much attention of late in this part of the state.

The preliminary hearing of Hugh Kennedy on the same charge will be held in Justice Gaudet's court tomorrow.

HINTS FOR STOCK OWNERS.

Shear the sheep early. Dip the sheep immediately after shearing, and again in about three weeks to destroy eggs and all ticks that may have escaped at the first dipping.

The lambs should be dipped at the same time; for when the ewes are shorn, the ticks go on to the lambs. Do not leave them out in the spring rains.

When a cow is a little off, never put her milk in with the rest.

To milk a cow clean, and without treading her, is an act that should be looked upon as an accomplishment.

Apply the Babcock test and be guided by its teaching and thou shalt have gold both to spend and to lend.

Blind the hogs that have the habit of eating chickens by hanging a strip of tin, four inches by eight inches in size, from their ears. This will stop them when almost everything else has failed.

The new-born colt must have milk during the first half hour of its life, or the chances are that it will die.

See that the colt is strong enough to start the milk. If it is not, help it. The first milk is necessary as it causes the bowels to move naturally.

Keep the mare quiet, and feed carefully for a week or ten days, when she may be turned in pasture—but only for a short time at first.

If the mare does not have milk enough, cow's milk may be given to help out, but it must be done with common sense.

Very rich milk should not be used.

SAVE RECIPE ANYWAY

Put it in a Safe Place, for it May Come in Handy

Here is a simple home-made mixture as given by an eminent authority on Kidney diseases, who makes the statement that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night, painful and discolored urination, are readily overcome. Here is the recipe. Try it: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well-known druggist here in town is authority that these ingredients are all harmless and easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire Kidney and Urinary structure, and often overcomes the worst forms of Rheumatism in just a little while. This mixture is said to remove all blood disorders and cure the Rheumatism by forcing the Kidneys to filter and strain from the blood and system all uric acid and foul, decomposed waste matter, which cause these afflictions. Try it if you aren't well. Save the prescription.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS
The Publishers of Webster's International Dictionary allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every part, and is admirably adapted to meet the largest and severest requirements of another generation."
We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the largest and severest requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.
It is, in fact, the dictionary of the future, and that in the future in the past it will be the source of constant reference.
