Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. If he has a better medicine, take his. Get the best always. This is our advice.

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer: "Take laxative doses of Ayer's Pills."

Taft Asks Explanation

Calls on Ballinger for Definition of His Policy.

Washington, Aug. 26.—President Taft has instituted a searching investigation of the interior department because of facts that have been brought to his attention in connection with the taking up by private corporations of valuable coal lands in Alaska.

Secretary Richard A. Ballinger of the interior department, Assistant Secretary Franklin Pierce and Fred Dennett, commissioner of the general land office, have been called on by the president for explicit detailed information as to these coal land troubles and their connection individually with the matter.

Specifically the charge to be met by the interior department officials is that they have rushed matters to permit the approval of entries to valuable coal lands without giving proper time to the hearing of testimony of a complete investigation of the charges of conspiracy.

SAYS HE IS ALL RIGHT

Harriman Issues Statement Regarding His Health.

Arden, N. Y., Aug. 31.—Edward H. Harriman, urged by weary representatives of the press who have camped about his mountain home since Wednesday last, came out with a statement that he was all right. Though brief, the statement is straightforward and explicit, with perhaps a touch of patient resentment at the surveillance to which he has been subjected and a request that reporters withdraw, not so much for his sake, but for his friends, who have been interested daily coming to and from his residence by zealous interviewers eager for the latest bit of information. It concludes thus frankly: "If there should be anything serious I will let the press know, and as I have never deceived them, I ask that the press now withdraw its representatives and rely on me."

The message was so characteristic of Mr. Harriman's affable attitude to newspapers, an attitude which was marked when he underwent the strain of a lengthy interview on the day of his return, that most of the men who have been here during the scare over his illness returned to New York, relying on his word.
