WERDENS NEXT SUNDAY

Locals Expect to Take Game from Fast Semi-Professional Team

The Gold Dusts will be put to the supreme test next Sunday afternoon at Athletic park when they meet Perry Werdens' All Stars of Minneapolis and attempt to get their scalp as the crowning event of this year's baseball season. The Werdens are credited with being the fastest of semi-professional and amateur teams of the entire state, having lost but three games this season and having won over such teams as Hibbing, Mankato, the St. Paul Conrads and St. Cloud. The locals, who have made an enviable reputation as a classy bunch of players, will not concede the point in question to the team from the larger city, and are confident that with Benn in the pink of condition, Willie Benn and the bat, Johnson, who played with the locals against St. Cloud on the 3rd and 4th, at the third sack, Hall at shortstop, Hassler at the second base, Lauerman playing first base, and Kinger, Berg and Kidder in the outfield, they can take the game from the Werdens next Sunday. The Olsons and the Thoens of Minneapolis have both tasted of the bitter cup in their journey to this city, and it is expected that the Werdens will not prove an exception.

A victory from the Werdens will mean that the locals will have the privilege of claiming the baseball championship of all the state outside the leagues, and you may be sure the locals will make a big fight for it.

All lovers of baseball should be on hand to root for the Gold Dusts. Large crowds are expected to come from all the neighboring towns having good train connections to witness this game.

It is at an extra expense that Manager Moeglein has been able to secure the Werdens, but he wishes to give the home fans a chance to see the best there is in the line of baseball, and it is now up to the people to take advantage of it.

Cross Walks to be Put in—\$100 Appropriation for Pine Grove

A regular adjourned meeting of the city council was held Tuesday evening with Aldermen Kiewel, Dewey, Elvig, Lane and Carlson present.

Messrs. L. V. Tanner and S. E. Betts were up before the city fathers with a petition asking for a new crosswalk on the west side of Second street at Sixth avenue southeast, and asking that one of the proposed crosswalks for the First ward be changed and placed on the west side of Second street at Fifth avenue southeast. The matter of changing of location of the proposed crosswalk was referred to the board of public works by an order. The extra crossing matter was dropped.

Mr. Betts then offered a proposition made to the city council by the Franciscan sisters who have charge of St. Gabriel's hospital, in which they agree to place a sidewalk on a path to serve as an sidewalk to the hospital if the city fathers would grade up and turn-pike the block on Second street between the hospital and sidewalk which ends at Eighth avenue. The path would be about four feet wide. The proposition was accepted.

The city attorney brought up the matter of Mrs. Friesinger, who some time ago was taken to Staples but taken back here by her son, claiming that he could not take care of her at his home. He stated that he was willing to pay \$5 per month towards her keeping. It was stated that if her transportation was paid to Superior, Wis., where she has a daughter, it would not be very likely that Mrs. Friesinger would be taken back here. The council accordingly instructed the chief of police to purchase a ticket for her to the Wisconsin city.

DAM AT PIKE RAPIDS

Contingent on Negotiations Now Pending With Hennepin Paper Co.

The Hennepin Paper company is contemplating improvements, which will greatly enlarge their paper and pulp mills in this city. Among the new machines to be added is a paper-making machine, with twice the capacity of the one now in use; also grinders and other machines in keeping with the size of the mill contemplated. At least 50 more men would be employed.

We understand, however, that the above improvements are contingent on a deal that is now on between the Hennepin Paper company and the Pike Rapids Power company for the lease of 5000 horse power, in which case a dam will be erected at the site near the Soo bridge, about seven and a half miles below here, and electric current transmitted to this city.

President Nelson, of the Hennepin and C. P. Oberly of Sartell, who is heavily interested in the dam site, and E. J. Webber, superintendent of the local mill, were looking over the site last week and it is estimated that the dam would have a 48 foot head, producing 17,000 horse power. If negotiations are completed, the dam is to be built this year.

There would also likely be a paper mill located at this site, and some of the current transmitted to other points also.
