We have had nearly seventy years of experience with Ayer's Cherry Pectoral. That makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. Ask your own doctor what experience he has had with it. He knows. He can advise you wisely. Keep in close touch with your family physician. No alcohol in this cough medicine. J.C. The year of 1910 has passed down to history as one of the most peculiar years ever experienced in the north-west, speaking from an agricultural standpoint. The heavy snowfall last winter hardly presaged an early spring, but owing to the unbroken condition of the ground under the snow a most advanced spring season arrived weeks ahead. An untimely frost or two, untimely because of other advanced conditions, nipped the fruit buds and set back the forward progress. But the real damage came from the lack of spring rains and later, the lack of summer showers. And now another year is here, and we can make of it what we will, within reasonable limits. The past year is gone and concerns us but little. The question before the farmer of today is not what he raised in 1910, but what he will raise in 1911. Wasting time over yesterday is not nearly so profitable as planning for tomorrow.

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But provides real economy in the baking.
