

WRECK IN LOCAL YARDS

Two Passenger Cars Leave Track But no Passengers Seriously Injured

The catching of a flange on a wheel of the second passenger car on Train No. 4 east-bound, due here at 7:45 p. m., but which was several hours late, caused that car to jump the track in the north end of the local railroad yards at the junction of the main line and the L. F. & D. branch last Friday morning at about 3:50 o'clock, also causing the smoker ahead of it to topple over onto its side.

The passengers were given a bad shaking up, but only eight were injured, these sustaining slight scratches about the face and hands from broken glass. The passengers were transferred to other cars of the train which continued on its way.

Called to this city to clear the wreckage in the local yards, the Staples wrecker collided into a freight train at Lincoln, demolished the caboose, badly damaged two box cars, and spilled the wheat they contained over the right-of-way. The wrecker remained to clear its own wreckage, while the Minneapolis wrecking crew was secured for this place. It arrived shortly after noon and in a few hours work had cleared the tracks.

LINCOLN SCHOOL GAVE AN "AT HOME"

The students of the Lincoln school held an "At Home" to their parents and friends in the eighth grade room last Friday afternoon, at which time an excellent program was given by the different grades of the school. From 1 to 2:30 p. m., the visitors, about eighty in number, were shown the regular work of the different rooms, after which the program was given, followed by a light luncheon of doughnuts and coffee. Chrysanthemums, carnations and pine boughs furnished the decorations for the reception room. A committee of eighth grade girls received the guests.

A full blooded Guernsey bull of the M. M. Williams herd has been purchased by J. E. Stevens, the well-known dairyman living west of the city, while L. Groveson of Pike Creek has purchased three heifers of the same herd.

LIBRARY FURNISHING FUND RECITAL WAS FINE

A fair sized audience was present at the recital given at the Congregational church last Saturday evening for the benefit of the Library Furnishing fund. Although Scott Woodworth of Minneapolis was unable to be up on account of illness, other singers were secured which more than made up for his absence.

Ralph Stokes, who possesses a bass voice of fine quality, Mrs. Frank O'Meara, contralto, and Mrs. C. A. Weyerhaeuser, soprano, furnished the vocal numbers, which were all very good and were forced to respond to encores, while the Misses Maybelle Brannen and Ramona Randall were the piano accompanists.

Mrs. O'Meara's singing was exceptionally good, and she was encored time and again, responding with some short selections, in which she was her own accompanist.

The program throughout was a good one and each number was well applauded.

MUSICALE ART CLUB HAS INTERESTING MEETING

A very interesting and instructive program was given by the Musicale Art club at Elks hall last Friday, the hall being filled. Mrs. C. A. Weyerhaeuser gave some very interesting items of current events in the musical line. Piano numbers by American composers were rendered by the Misses Helen Riche, Cecil Beattie and Ramona Randall and Mrs. B. Y. McNairy, the latter rendering pieces composed by Prof. Sachmund of Duluth. Miss Laura Brannen rendered some vocal numbers.

An instructive paper on "Evolution and Development of Music in America" was presented by Miss Pearl Longley.

Calendar cards for St. Paul's grand opera season, which opens January 28, were distributed.

James Beckman of Chicago is visiting in the city as a guest of T. H. Dewey.

Edward Schroeder, who a short time ago went to Phoenix, Arizona to recuperate from an illness which it was thought had affected his lungs, underwent a successful operation for pleurisy a week ago last Saturday. A specialist found his lungs to be sound with the exception of one cavity which was filled with matter, this being removed in the operation.

NEW FACTORY BUILDING

Sylvester & Nichols to Erect Large Structure on First St. N.

A solid brick building 40x100 feet, to be used for the manufacture and wholesaling of ice cream and candy and the jobbing of tobaccos and confections, is to go on early next spring on the 75x150 foot lot on First street northeast just south of the Farrow garage, Sylvester & Nichols having purchased the lot of Mrs. M. E. Butler for this purpose. The firm is to construct a substantial one-story and full basement building at a cost of about \$5,000. It will have a half store front equipped with double doors, one leading into the office on the right which will be 14x19 feet and the other into the sample room of the same size. The candy kitchen 19x26 feet will be just back of the office, the jobbing room of the same size, just back of the sample room, and the back of the building 44x40 feet will be used as the ice cream factory.

The latter room will have cement floor as well as all but the candy kitchen and office. A room 10 feet wide and 40 feet long with capacity of 800 gallons of ice cream will be used as an ice box and will have cork insulation. In order that the ice cream manufacturing department be as sanitary as possible, no corners will be tolerated, it being constructed on the rounded order that no dust accumulate in corners and crevices.

The basement will be used for the heating plant and store room.

An alley will take up the south 10 feet of the lot to allow farmers to drive to the factory with their cream, while another alley will take up the north side of the lot to be used by the shipping department.

Rock will be hauled at once for the building, and its construction will be commenced as early as possible in the spring so as to be ready about May 1st. Sylvester & Nichols will continue their confectionery in its present location independent of the factory and wholesale business place.

Beginning in a very small way in 1900 in the rooms now occupied by Sand sisters millinery, Chas. Sylvester by careful attention to the business built up a fine trade and in 1902 took Ralph Nichols into partnership, at the same time moving into larger quarters.

The manufacture of ice cream for wholesale purposes was then taken up and later that of candies and during the next five years the firm built up a fine trade in the neighboring towns and villages. At present their territory extends from International Falls to Rice and from Onamia to Morris, the quality of the ice cream and confections turned out by the local firm creating a ready demand for their products. Their success in the past has gained for them the confidence of their fellow business men and they were urged to take up the manufacturing and wholesale business on a larger scale.

FIREMAN INJURED.

Frank Williams, fireman on Passenger Train No. 11, which arrives here at 11:05 p. m., from the east, sprained his left wrist, badly bruised his left forearm and face and cut his nose in a fall he sustained at Rice last Friday evening while the train was moving at about 10 miles an hour. He had just filled the tender with coal and was climbing over it to attend to the water spout, enroute to the tank, when he slipped on a chunk of coal and was pitched to the brick pavement below. His injuries were attended to by the local company physician and he has since gone to his home in Minneapolis.

SECURE PATENT TO TYPEWRITER ATTACHMENT.

A patent to a copy-holder attachment for typewriters has been granted Herman Utsch, bookkeeper at the Pine Tree Manufacturing company office. The device is easily attached to the typewriter carriage with which it moves and copy advanced as writing paper is advanced, an indicator also indicating the same place on the copy as indicated on the writing paper. A number of companies have asked to manufacture the new invention.

E. S. Kaplan has resigned his position in the M. V. Wetzel drug store and is succeeded by M. M. Buckman.

Loiel S. Ryan, son of W. H. Ryan of this city, was last week elected president of the all-senior engineer class.

Phil Moran, who during the past eight months has been employed near Rainy River, arrived last week to spend Thanksgiving with relatives here.

Sixteen young people were entertained by Miss Charles Christen Wednesday evening of last week, the affair being in the nature of a farewell to a nephew, Walter J. Schultz, who with his mother departed last Tuesday for their home in New York City.
