

## MADE A FINE STOP

**Fire Discovered in Tomelty Store Sunday Morning Quickly Extinguished**

The fire department made a fine stop of a fire which was discovered in the Close building on First street northeast, occupied by the P. J. Tomelty store, early Sunday morning, the alarm for which was turned in at about 12:30 o'clock. The origin of the fire is unknown but was located in the southeast corner of the basement of the building and had burned its way through the main floor and filled the store with smoke to such an extent that it was impossible to see past the door. The chemical extinguished the blaze on the main floor, after which the basement was broken into through the front and one stream of water played on the basement fire.

Damages to the stock of goods through heat and smoke is placed by Mr. Tomelty at about \$500, which is covered by insurance.

The building is the property of Mrs. Ellen Windom of Boston, the First National bank being agent for the property and the damage to it is also covered by insurance.

Some of the smoke got into the Richard Bros store but the damage done there was light.

## LITTLE FALLS CREAMERY MAKING IMPROVEMENTS.

Considerable improvements are at present being made and more are contemplated at the Little Falls Creamery. Mr. Moore, the proprietor, is at present having a new boiler put in, and early this spring work will be commenced on a brick and stone addition to the west side of the creamery. A new churn will be installed also upon the completion of the addition.

The girls who were attending the short course in domestic economy at the local high under the supervision of Miss Mary Bull, served a lunch consisting of mixed salad and coffee and rolls to about twenty Thursday of last week.

## PUNCTURELESS TIRE COMPANY.

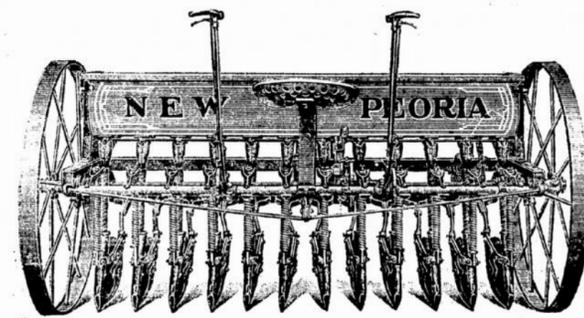

W. H. Schater of Minneapolis and ten Brainerd men have formed the Speed Punctureless Tire Company which manufactures a tire filling compound guaranteed to do away with all punctures in tires.

The filler made by this company is moulded so as to make a perfect fit for any size casing. It is made with different degrees of stiffness for different cars. It is a substance like rubber but a great deal more resilient, than solid rubber and will not dry out or grind up in the casing. These speed punctureless tires the company claims will reduce car troubles 90 per cent.

## WORLD'S RICHEST WOMEN

Senora Cusino of Chile is possessed of coin, valuables and estate said to be worth \$200,000,000. She is a young widow, and manages her gold, silver and copper mines personally; owns fleets of steamers and railroads, a magnificent estate near Santiago; owns the whole town of Data, which she "runs" herself, and is too busy to pay attention to getting married again. For a woman with so much to handle, nothing would be of more benefit than a regular quantity of golden grainbelt beers, which relieve fatigue. Order of E. S. Tanner, Little Falls.

## The Only Drill with a Perfect Furrow Opener.

Here's the drill which will greatly increase your crops and profits, just as it has done for hundreds of other progressive farmers!

It is equipped with our Wonderful Disc Shoe Furrow opener—the only one which combines every advantage of the single disc for cutting trash and penetrating hard ground, with every advantage of the shoe for forming the furrow and depositing the grain.

It's the only furrow opener which packs the seed bed after the disc has opened the furrow. The shoe carries the seed to the bottom of the packed seed furrow. Every seed counts. Every seed is sown at proper, even depth, so every stalk comes up and ripens evenly, and the grain grades up best.

Come in and see the sample. Compare it with others, as it is by comparison you will know what is best.

## AN OPPORTUNITY FOR ORCHARDISTS.

For the purpose of increasing its membership and at the same time promoting the introduction of top-grafted trees of superior hardiness in Minnesota orchards, the Minnesota State Horticultural society offers to each new member paying the annual membership fee of \$1 a lot of six valuable apple trees. Two of these are Hibernian or Virginia two years old; one Delicious, one King David and one Louisiana Raspberry all one year old. The offer is limited to 200 lots—each lot containing six trees. The Hibernian and Virginia are both hardy and produce valuable fruit. The hardiness of two of the other varieties has not been fully tested; but it top-grafted on the Hibernian or Virginia the probabilities of success are greatly increased, as there is no question that top-grafting any variety on a hardy variety makes it hardier. Even the Wealthy, hardy as it is, will do much better top-grafted on either the Hibernian or Virginia.

Full directions for doing this grafting will be furnished by the secretary; and it is to be hoped that the full 200 orchardists will be found to take part in this interesting experiment, success in which will do much toward the increase of Minnesota's apple crop.

Thirty-five cents for express charges on the trees should be added to the \$1 paid for a membership. Address: A. W. Latman, Secretary, 207 Kasota Block, Minneapolis.

## ENTERTAINED THE G. A. R.

The students of the Hawthorne school entertained the local post of the G. A. R. at a Washington day program given last Friday afternoon. The decorations for the occasion were very good. The program consisted of patriotic numbers and was very well received. The guests entered between two lines of girls clad in white who sang, "America," and left in the same manner as they sang, "The Battle Hymn of the Republic."

Harry Keeler had one of his legs injured last Friday while unloading machinery at the depot for the Brown Transfer company.

A number of young people were entertained by Miss Sigua Johnson at a Washington birthday party Thursday evening of last week.

Work on the new Loomis building being erected on corner of First street and First avenue southeast is progressing in fine shape.

The delivery rig of the Gendron store was damaged somewhat Saturday afternoon as the result of a runaway by the breaking of a part of the harness.

Al. Manz, a resident of this city a number of years ago, and family have moved from Princeton, to Bend, Oregon, where he will engage in the hardware and implement business.

Peter H. Holam of this city has put on the market a new drink called "Delytus," which is calculated to take the place of coffee. It is made of cereals and molasses and is said to be delicious.

A surprise party was given for Mrs. Richard Wallace at her home last Saturday, at which about forty friends were present. Refreshments were served at the close of a pleasant evening spent at cards and games.

The Ole H. Johnson residence, about two miles north of Darling station was burned to the ground Sunday afternoon by a fire which originated in the attic of the home. Only the furniture of the ground floor was saved. The residence was valued at \$2,500 and carried but \$600 insurance.

## COME AND GONE

Miss Olive Cornwell, who came up last Friday from Minneapolis where she has been studying military styles for the coming season, departed Saturday night for Sleepy Eye, where she will be engaged as trimmer.

Carl Cook was down from Ft. Ripley Monday on a business visit.

T. C. Gordon made a business trip to Minneapolis Tuesday.

A. F. Keolosky made a business trip to the Twin cities Monday evening.

Mrs. Mesdames Thos. Gavin and Wheeler returned to Minneapolis Tuesday, after a visit here as guests of Mrs. Alex Rowe.

Mrs. John Hedlund returned to her home at Gilbert Saturday, after undergoing an operation at the local hospital for a ruptured blood vessel in her ankle.

## RAPS TRUST LEADERS

**Wilson Says Individuals Who Misuse Business Should be Restrained**

Topeka, Kan., Feb. 21.—Governor Woodrow Wilson of New Jersey tonight addressed the Kansas Democratic club on "The Relation of Business to the Government."

"When we in our generation look upon the circumstances of America we must try to see the facts as they are and to see them broadly. America is a business nation, a nation of material enterprises and commerce on a large scale.

"The cry of the hour seems to be that business has grown so formidable in its independent organization as to have set itself up in rivalry to the government itself and that it therefore must be regulated; that the whole force of government must be bent to the restraint of business. I venture to suggest that what we are really after is not the restraint of business but the restraint of individuals who are putting business upon a false and selfish footing.

"We do not wish to hamper the great processes of our economic life, but to free them where they have been made wrong use of by men who have ignored the common interest and sought to promote their own private and selfish purposes by means that were neither public-spirited nor honorable.

"The rules that we now seek to set up are that the men who are making use of our corporation laws for their own advantage shall not employ them to establish monopoly; that they shall not use them to limit credit to those whom they draw into their own enterprises; that they shall not, if they do wrong, find cover and concealment within the corporations whose power they employ.

"In respect of the restraint of individuals rather than with corporations. It should be laid bare of whom business combinations consist, and those of whom they consist should be directly and individually dealt with whenever a wrong is done, either to an individual or to the freedom of business itself."

## FIREMEN GYMNASIUM ASSOCIATION.

The Firemen's gymnasium association was organized Monday evening with P. J. Lauerman, president; Jos. Moeglein, secretary and Geo. Ender, treasurer; P. J. Lauerman, William Hatters and Henry Smith, a purchasing committee; and L. W. Vasaly, Geo. Ender and Eric Anderson, a committee on by-laws. Turning pole, rings, bicycle, parallel bars, boxing gloves, wrestling mat, dumb-bells, Indian clubs and rowing machine have been installed in the large meeting room in the city hall for the firemen organization. More apparatus will be purchased.

## WORK RESUMED ON DAM.

Foreman J. Burns and crew of twenty-five men resumed work the first of the week on the concrete sluices being put in by the Little Falls Water Power company at the local dam, and it is expected to complete the work in another week or ten days. The finishing up of the lower end of the sluices and putting in of gates is all that remains to be done. The gates for the log sluice will be put in at once, while the gates for the two waste ways will be installed as soon as the company decides to remove the old one.

## SUNDAY SCHOOL CONVENTION.

Four of North America's greatest Sunday School experts are to be in St. Paul April 9, 10, 11, 1912, at the fifty-fourth annual convention of the Minnesota Sunday School Association. It will eclipse all previous conventions in size and strength of program. Every Sunday School in Minnesota is invited to send delegates.

C. H. Bain of Swanville collected \$7.50 wolf bounty at the court house Tuesday.

Nels Thompson, who was receiving treatment for typhoid fever at the local hospital, returned home Saturday.

Henry Bentfield, the present constable, will be a candidate for re-election, his petition being circulated this week.

Harold Anderson, son of August Anderson, of the West side is confined to his home with an attack of typhoid fever.

Joseph Vadnais, junior member of the grocery firm of Firnstahl & Vadnais, went to Chicago Tuesday, at which place he went to purchase an auto-delivery rig for the store.

Chief Stenographer P. M. Woodward of St. Cloud is the proud father of a baby girl which was brought to his home by the stork last Friday.
