

# Relieves Neuralgia

Sloan's Liniment gives instant relief from neuralgia or sciatica. It goes straight to the painful part—soothes the nerves and stops the pain. Don't rub—it penetrates.

## PROOF

Mrs. RUDOLPH NISCKE, Oconto, Wis., writes:—"I have used Sloan's Liniment for toothache and neuralgia in the head where nothing else would help me and I would not be without the Liniment in the house."

# SLOAN'S LINIMENT

is also good for rheumatism, sore throat, chest pains and sprains.

## Pains All Gone

Mrs. C. M. DOWKER, of Johannesburg, Mich., writes:—"I wish to say your Liniment is the best medicine in the world. It has cured me of neuralgia; those pains have all gone and I can truly say your Liniment did cure me."

## Pain All Gone

Mr. J. R. SWINGER, of 547 So. 12th St., Louisville, Ky., writes:—"I suffered with quite a severe neuralgic headache for four months without any relief. I used your Liniment for two or three nights and I haven't suffered with my head since. I have found many quick reliefs from pain by the use of Sloan's Liniment and believe it to be the best Liniment on the market to-day. I can recommend it for what it did for me."

## FRIEDMANN WILL NOT TELL

Government Must First Recognize Improvement in Patients.

Washington, March 13.—Government tests of Dr. Friedmann's tuberculosis vaccine may be delayed indefinitely by the refusal of the Berlin physician to impart to the public health service the method of making vaccine from his cultures or the size of the dose.

It developed that Dr. Friedmann has notified Surgeon General Blue that he will not divulge his secret until the government physicians have recognized improvement in patients treated by him.

Surgeon General Blue announced that under no circumstances would the public health service administer the vaccine to human beings at this time, if at all.

## TELL OF LONG HOURS OF DUTY

Firemen Also Complain to Board of Lack of Time to Eat.

New York, March 13.—Complaints of excessive periods of labor, weakness from lack of food, increase of work, exhaustion from overheating, blistered hands, scorched clothing and added responsibilities were made by railroad firemen as witnesses before the arbitration board which is seeking to settle the firemen's demands on fifty-four Eastern roads for better pay and extra firemen on large locomotives.

Judge William L. Chambers, chairman of the board, announced that he had been informed, after communicating with Washington, that Sundays are not to be reckoned in the thirty days allowed for the board to reach a decision on the controversy. This announcement means that the board will have until about April 5 to consider the firemen's demands.

## "That's Just What I've Been Looking For"

WHILE we were getting the opinion of farmers on our new cream separator power outfits, one of them said: "I have been looking for such a combination as this. I need an engine with that kind of a gear on it to slow down the speed. There are half a dozen small machines on my farm for that engine to run. I want that outfit."

This is a sample of the enthusiasm with which our new power outfits have been received. The outfit consists of an

## IHC Cream Separator Dairymaid, Bluebell, or Lily

and a one-horsepower back-gear IHC engine. The engine is mounted on a portable truck, and can be used for any farm work to which power can be applied. The back gear adjustment runs at the proper speed to operate any hand turned machine.

The working parts on IHC cream separators are accurately made and the bearings are well lubricated. The shafts and spindle are the strongest used in any separator. The shaft and spindle bearings are supported by the frame, but have no contact with it—the contact is between the steel spindles and phosphor bronze bushings. The gears are spirally cut so that there is no lost motion between them. They are entirely protected from grit and milk, but are easily accessible for cleaning.

See the local dealers who handle these machines. You can get catalogues and full information from them, or, write
