RULING REGULATING SIZE OF TRUNKS IS UPHOLD

The Interstate Commerce commission upheld the railway ruling regulating the size of sample trunks, which was objected to by the jobbers of the state. The ruling was made by the company two years ago, but the salesmen were given a little time in which to obtain smaller trunks. Hereafter any traveling salesman having exceptionally large cases will have to pay excess baggage and cases over 72 inches in dimension any way will not be accepted. This ruling does not include theatrical paraphernalia or wrap cases but the latter were limited to 90 inches in length, 12 inches in diameter at the base and 100 pounds in weight.
