**A NATURAL neighborly friendship and good-will leads your tobacco chewer to tell his friends about "Right-Cut", the Real Tobacco Chew.** And it's welcome news to the man who hears it — just as it was to you. "Right-Cut" gives the satisfying taste of rich, sappy tobacco — seasoned and sweetened just enough.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end. It is a ready chew, cut fine and short so that you won't have to grind on it with your teeth. Grinding on ordinary cased tobacco makes you spit too much. The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut." One small chew takes the place of two big chews of the old kind. **WEYMAN-BRUTON COMPANY** 50 Union Square, New York **BUY FROM DEALER OR SEND 10¢ STAMPS TO US**

### The Lesson of the Past

This master of the pen shows you the story that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades; through the Renaissance up to contemporary history, which Prof. Grousseau composes in brilliant manner. Is the story of the past the secrets of today? And you will understand them better when you get the Review of Reviews for a year—for the Review of Reviews will give you a sane interpretation of the events that are taking place with such rapidity.
