SHOCKS FELT IN CALIFORNIA

EARTHQUAKE DAMAGE IS ESTIMATED AT \$400,000.

Four Persons Killed and Scores Injured—Calceico Suffers Heavily From Fires.

El Centro, Cal., June 24.—In an area extending roughly from the shoulder of the Cocopah mountains of Lower California to San Bernardino and Needles, Cal., on the north, Yuma, Ariz., on the east, and San Diego on the west, a series of earthquakes wrought damage now estimated at about \$400,000, killed four persons and injured perhaps a score. The tremors continued intermittently and decreasing steadily in strength, doing only negligible damage.

The zone in which the tremors were felt most centered about Calceico in Lower California and Mexicali, the Mexican town opposite where all the fatalities occurred. Men and women were crushed beneath the adobe wall of a dance house.

At Calceico the damage was estimated at close to \$200,000. Several fires at Calceico added to the damage done there by the quakes, which threw the municipal water tank off its 60-foot tower.
