FAIR ADVERTISING TOURS

LOCAL FAIR SOCIETY PLANS TO INCREASE ATTENDANCE IN THIS MANNER

A new way of advertising the county fair of the Morrison County Co-operative Agricultural society, which is to be held September 23, 24, 25 and 26, is to be carried out in September. The scheme is to make several automobile tours to the different parts of the county, advertising the fair and getting in closer touch with the people on the farms, to whom the fair owes its success.

This plan was agreed upon at a meeting of the fair board held at the office of the secretary Tuesday evening. All were of the opinion that the tour plan would bring results and would also afford pleasure trips for local autoists. The society is anxious to clear itself of all encumbrances this year and for this reason a committee has been appointed to solicit money. An effort will be made to raise at least \$1,000 by subscription and the committee will start out next week. The society's indebtedness now amounts to about \$1,700.

MAN HURT BY FAST TRAIN

J. ANDERSON OF LINCOLN THE VICTIM—TWO HORSES ARE KILLED

John A. Anderson of Lincoln had a narrow escape from death Tuesday evening at about 7 o'clock when the rig in which he was riding was hit by the Winnipeg Flyer No. 14 near Lincoln. He was thrown many feet by the force of the collision and both of his horses were killed and the wagon was smashed.

Mr. Anderson was returning from work in the hay fields when the accident occurred. At the railroad crossing there is a deep cut in the roadway and a bad curve in the tracks. The horses were already on the train approach. Realizing that an effort to get across the tracks would likely result in his death he stopped the horses. The train struck them, killing one instantly and injuring the other so that it had to be shot. The wagon was smashed and Mr. Anderson was thrown about fifteen feet.

The train was stopped and the injured man was brought to this city and taken to St. Gabriel's hospital where he was given surgical aid. His left leg was broken near the ankle and he sustained several bad scalp wounds. Wednesday noon he was taken to the N. P. hospital at Brainerd for treatment. It will require several weeks before he will be out of the hospital.

Mr. Anderson is a brother of Jens Anderson, section foreman at Lincoln.

STAND AT CARNIVAL CLOSED BY AUTHORITIES

As a result of one or two complaints one of the stands at the carnival was closed Tuesday by Sheriff Felix. One man operated a roulette wheel on the order of the old style slot machine. If the arrow stopped on red you would win, if it stopped on black you would lose. Money was placed on the game, ranging from \$1 to \$2.25. This was considered open gambling and was ordered closed. The entire grounds were inspected but no others were closed.

Manager Patterson stated that rather than have trouble with the authorities he would close all the concessions. They do not belong to the show, he said, but paid a certain amount to operate their stands in connection with the carnival.

It is believed that the man intended to board the car and that in crossing the tracks he misjudged the distance the car was from him or the speed at which it was traveling.

TO ENFORCE MIGRATORY LAW

FEDERAL REGULATIONS FOR PROTECTION OF WILD FOWL MUST BE OBSERVED

Washington, D. C., Aug. 12.—With the approach of the open season for shooting wild fowl, the United States Department of Agriculture is warning sportsmen that the Federal regulations as amended October 1, 1914, will be strictly enforced. Some misunderstanding has arisen from the fact that the various state laws do not always conform to the Federal regulations. This is regarded as unfortunate but in such cases the department must insist upon the observance of the Federal regulations.

The department will consider any recommendations submitted in good faith for amendment of the regulations, but will hold no public hearings thereon, nor will it amend the regulations prior to October 15, 1915. It is the purpose of the department to conform the regulations to the wishes of the majority of sportsmen so far as it can be done and at the same time give wild fowl the necessary protection.

Federal regulations in the United States into two zones. Zone No. 1, the breeding zone, includes the states of Oregon, Idaho, Colorado, Nebraska, Iowa, Illinois, Indiana, Ohio, Pennsylvania and New Jersey and all states north of them. Zone No. 2, the wintering zone, includes all states south of those named.

The regulations prescribe seasons in Minnesota, North Dakota, South Dakota and Wisconsin as follows: Waterfowl—Sept. 1 to Dec. 16. Exceptions: Minnesota, North Dakota, South Dakota, Wisconsin, Sept. 7 to Dec. 1.

Rails, Coots, Gallinules—Sept. 1 to Dec. 1. Exceptions: Minnesota, North Dakota, South Dakota, Wisconsin, Sept. 7 to Dec. 1.

Woodcock—Oct. 1 to Dec. 1. Shore birds, black-breasted and golden plover, jacksnipe, yellowlegs—Sept. 1 to Dec. 16. Exceptions: Minnesota, North Dakota, South Dakota, Wisconsin, Sept. 7 to Dec. 1.

Insectivorous birds protected indefinitely. Band-tailed pigeons, cranes, swans, curlew, smaller shore birds, and wood ducks protected until September 1, 1918.

Shooting prohibited between sunset and sunrise; and at any time on sections of upper Mississippi and Missouri rivers after January 1, 1915.

SECOND STREET SEWER Laid—WORK ON WATER MAIN IS DROPPED

Work has been completed on the laying of the second street sewer and the contractor is now putting in sewer connections for the new Franciscan hospital. As soon as this is completed he will start work on the laying of the Third street sewer, for which the Grand Forks Concrete company also has the contract.

Only a part of the Second street water main has been put in, as a result of the employees demanding higher wages. They had been receiving \$2 per day but demanded \$2.25. On Saturday they were informed that this could not be paid and most of the men then quit work. The Water Power company tried to get another crew, but was not successful and the main was therefore completed as far as it had been laid and the remainder of the crew laid off.

THE DOG'S COLOR CHANGED

Chas. Thomas of this city has a dog who underwent a sudden change of color the other day. The animal was originally white with black spots. One day he disappeared and did not return for several days. When he returned his master hardly knew him for the spots which before were black were now brown. He proceeded to investigate and found that the change in the color was due to the painting of the black spots with hair dye. He is now satisfied that the dog, which is a valuable hunting dog, was stolen by someone. The animal had evidently been tied and had broken away as he had a piece of broken strap about his neck.

BASEBALL GAME TONIGHT

ALL STARS TO PLAY PATTERSON TEAM AT THE FAIR GROUNDS

Tonight, at the fair grounds, the All Stars will clash with a nine composed of men from the Patterson shows, which are exhibiting here this week. The Patterson team is said to be a fast one, having won nearly every game played this season and the All Stars look for a hard match. The game will begin at 5 o'clock sharp.

It is not likely that any game will be scheduled for Sunday. Manager Lagerbauer has been unable to secure one as yet and does not expect that he will be able to get one.

A record crowd should turn out tonight and help the local boys trim the Patterson aggregation. Lagerbauer will likely be on the mound for the locals.

Manager Lagerbauer is in receipt of a letter from a representative of the Carl Hagenbeck-Wallace circus, asking for a baseball game with the local team, on the afternoon of August 18, to be played at 4:30, or immediately following the circus. Mr. Lagerbauer will not schedule the game as he expects to resign as manager of the team after tonight's game and the nine will then likely be disbanded.

CHANGES AFFECT HUNTERS

BIRD SEASON OPENS SEPT. 7—STATE LICENSES MUST BE HELD BY ALL

Northern Minnesota is considered one of the greatest hunting regions in the United States and although it is a trifle early to discuss shooting plans, Carlos Avery, state game and fish commissioner, and William Munch, the Crookston warden, have begun a campaign to acquaint sportsmen of the northern territory with the changes in the hunting laws. In a bulletin issued by the department, attention is called to changes as made by the last legislature.

Heretofore the hunting season law has required all residents of the state hunting big game to hold a license, but has permitted persons hunting small game in the county in which they reside to do so without a license. This was amended so that all residents are required to have a license for small game except persons hunting on land on which they reside. This privilege is also extended to lessees as well as owners of land and to members of their immediate families. This act is considered the most important law affecting preservation of game passed at the session and will greatly increase the revenues of the state and go a long way toward making the department of game and fish self-supporting.

The limit of bag of game birds in Minnesota has long been a reproach to the state and this was remedied to a large extent by the passage of a law limiting the daily number allowed in possession to thirty. This applies to all game birds except wild ducks, of which fifteen may be taken in a day and thirty-five may be had in possession. This act also closes shooting entirely on wood duck, woodcock, turtle doves and upland and golden plover until September 7, 1918.

The well known fact is recognized by all experienced duck shooters, that the secret of good duck shooting during the whole season of migration is in not misleading the ducks on their feeding grounds. An act was passed which takes this fact into consideration and makes it unlawful to pursue or shoot ducks on the open water of any lake and limits the building of blinds to the natural growth of vegetation. This act also makes it unlawful to hunt or shoot ducks from a motorboat or any other way than with oars, paddle or pole held in the hands.

The open season for birds and ducks begins September 7. Local sportsmen have been preparing for the great onslaught by practicing at the traps and they are confident that they will get every chicken that comes within their sight. But if reports from various parts of the country are correct the chickens will be rather scarce this fall. This is attributed to the unusually late spring.

FIRST FIRE IN SIX MONTHS

RESIDENCE OF J. DELAHUNT DAMAGED BY FLAMES—TRUCK MAKES FIRST TRIP

For the first time in six months, Little Falls was visited by a fire on Monday when lightning struck the residence owned by A. A. Fitch and A. H. Turritin of Royalton and which was occupied by James Delahunt. The fire occurred at about 3:30 p. m., during an electrical storm.

This was also the first time that the new fire truck was used since it was installed, some two months ago. The fire started on the second floor of the house and had burned a hole through the roof before it was extinguished. The damage is estimated at about \$150. All the furniture was saved but the interior of the house was damaged somewhat by water.

It is the opinion of those who witnessed the fire that the residence would likely have been a total loss had the firemen been compelled to use the old hand drawn apparatus. As it was the truck was at the scene of the conflagration and a stream of water was playing on it before the person who turned in the alarm returned from where he phoned, two blocks away.

A. A. Fueger and Henry Dorman attended the state meet of the Redmen lodge as delegates from the local tribe, on Tuesday.

A lady who understands advertising says, "No lady wishes to be looked upon as a shopping fiend; she does not care to go into a store and have a merchant show all his stock in order to find out whether he keeps what she wishes to purchase and whether the article is sold at a price she can afford. It is so much easier and pleasanter to look through the advertisements of a paper than it is to bore the clerks and waste her own time. Next to the local items the advertisements in a paper stating articles for sale with prices will keep much of the money that goes to the large cities at home.—Ex.
