

Two Favorite Shotguns and the Steel Lined "Speed Shells"

"Dope" on shooting is plentiful. And shooters know where the right dope comes from—and that it leads straight to Remington-UMC.

THE Remington-UMC Pump Gun and Autoloading Gun—these are the shotguns of today. Adopted everywhere, for use in the field and over the traps—shot by more of the men who are setting the pace in the sport than any other make of guns in the world.

In the matter of Shells—where is the sportsman who does not know the Remington-UMC "Speed Shells," Steel Lined—all the drive of the powder kept back of the shot, and showing results that flatter any make of gun?

For the right dope—see the Remington-UMC Dealer. He displays the Red Ball Mark of Remington-UMC—the sign that his store is Sportsmen's Headquarters of the town.
