

BURTON & GREISCH WINNERS

OVER SAM LAFOND'S PACER IN TWO STRAIGHT HEATS—COTA'S HORSE ALSO WINS

In a race that was mighty close, the pacer recently purchased by Burton & Greisch won over Sam LaFond's pacer Sunday afternoon on the ice race track above the Broadway bridge. A large crowd gathered to witness the races, although a cold weather prevailed throughout the afternoon.

The Burton & Greisch horse, known as Black Diamond, won both heats, each by a narrow margin. Mr. LaFond

believes that had his horse not broken gait both times the result might have been different, and he expects to use hobbles on the horse in another race.

Napoleon Cota's horse won over Louis Boisvert's in one heat. The only other fast horse on the track was the one owned by Dr. E. A. Hall. Others were probably kept away on account of the cold.

It is planned to have another race in a week or two and at that time Mr. LaFond hopes to recapture the title.

FORMER LOCAL PEOPLE AT 'U' ALUMNI BANQUET

Minneapolis Tribune: What kind of a splash Minnesota folk can make in the New York pool was demonstrated when the alumni of the university of Minnesota held their annual banquet in New York city the evening of January 28. About 100 men and women, former students and former faculty members at Minnesota, were present. President Vincent was the honor guest.

The gathering served to emphasize the number of former Minnesotans now living in New York and neighborhood, and the variety of activities that engage them.

Benjamin Gruenberg presided at the banquet. Among the speakers, besides President Vincent, were Prof. John Dewey of Columbia university, formerly of Minnesota; Prof. Frank Constant, now of Princeton university, and former Dean Downey of the arts college at the Minnesota institution. Mae Knowlton Harting and G. W. Harting, both artists, were there.

Among those interested in writing were Janet Priest, who is doing press work and magazine stories; Bess Shannon, moving picture press work and free lance writing; Tom Uzzell, formerly with the New York Sun, who is now assistant editor of Collier's.

E. J. Beattie, the Broadway confectioner, has purchased a new soda fountain for his store. He will have his store entirely remodeled inside and mirrors and panels put in along the walls.

A number of local people were at St. Cloud Sunday evening to witness the exhibition of the motion picture, "The Birth of a Nation." Others have been down there for the show each evening during the week and many expect to go down tonight.

Mr. and Mrs. A. P. Stoll and John Boser the Pierz liveryman met with a slight accident Sunday enroute home from this city. They were making the trip in a sled drawn by four horses. When only a few miles out they met the deliveryman for the Kiewel Brewing company coming to town in the delivery wagon. In trying to turn out of the way to pass, one of Mr. Boser's teams turned the wrong way, resulting in the sled being upset and the occupants precipitated into the snow. The sled was smashed and the Pierz people were forced to return to this city with the deliveryman.

RURAL MAIL BUSINESS LARGE

EIGHT CARRIERS HANDLED 66,003 PIECES OF MAIL IN JANUARY—ROADS WERE BAD

Sixty-six thousand and three pieces of mail were handled by the rural carriers on the eight routes out of this city last month, according to figures compiled at the local postoffice. Of the above number 8,107 pieces were collected and all the rest delivered.

Considerable inconvenience was suffered by the carriers last month on account of the bad roads, due to the deep snow. Several were unable to make the trip on one occasion and others made the trip out but could not return until the following day. Patrons along the route are expected to assist the carriers under these conditions by breaking roads for them, otherwise the carriers at not required to make the deliveries.

Following is the itemized statement of the mail handled by the rural carriers during January:

DO NOT BE BARN THE KID

Ironton News: When the business men of Ironton put up seventy good dollars for a thermometer they expected to get one that would go lower in winter than any other thermometer in Crow Wing county. But they got fooled. Lundholm has a little old #2 thermometer that beats the #70 one all hollow. When the high priced one goes it is 15 below the cheap one gets right down to business and records 25 below. Then when warm weather comes that high priced piece of useless furniture will be fooling around about ten or fifteen degrees below where it ought to be. Nobody in this town takes any stock in it any more, for they are going to have the coldest and the hottest weather there is if they have to buy thermometers for ten cents apiece.

Adolph Peterson of Elm Dale was in the city Friday, enroute to Green Prairie to attend a farmers' club meeting.

Lincoln's Birthday

February 12

WE can't tell, of course, "What President Lincoln would do" if he had to face the great world problems of the present time; but we are quite sure that he would try to act wisely in consideration of all conditions for the best interests of our country and humanity. As for ourselves, we don't have to settle deep questions of international conduct. We have to keep alive and ready the true spirit of service to others.

That's what we are trying to do in our business by giving you the best clothing, furnishing goods, haberdashery, hosiery and shoes, that we can buy and when we are called upon to do more important things for the good of the nation, you will find us Johnny on the spot.
