HOGWALLOW NEWS

DUNK BOTTS, Regular Correspondent
(George Bingham)

Jefferson Potlocks beat Luke Mathews in a horse trade a few days ago, and as a salve for his conscience he will lead in the singing at the Dog Hill church next Sunday.
Miss Flutie Belcher spent Tuesday afternoon in the Gimlet creek woods communing with nature. As usual, she did all the talking.
Jefferson Potlocks arose during the

Dog Hill preacher's sermon last Sunday and went home. He had his red handkerchief to his nose as he went out the door to make the preacher think he was sick.
Cricket Hicks complains that some of the girls of the Rye-Straw section have been trying to use steam roller tactics on him, but he still stands as one of Cupid's uninstru ted delegates.

Tobe Moseley went fishing on Gander creek Tuesday, but went to sleep and let all of his fishing worms crawl away.
Fit Smith, who has been making a search for the bushel of snakes he turned loose last fall, has succeeded in finding most of them, and will leave tomorrow for Bounding Billows. Fit takes the snakes with him wherever he goes and thereby attracts interest that would otherwise be bestowed on somebody else.
Sim Finders has promised us a shower of rain within a few days. What Sim does not know could easily be put inside the Wild Onion school house.
The Postmaster sneezed Tuesday morning. He says this is a sign that somebody is going to get a letter.
The Tickville Tidings this week reprints a poem written by Miss Hostetter Hocks, the Ella Wheeler Wilcox of Hogwallow. The editor explains that though he had added a foot note, it should not be construed as a kick.
Isaac Hellwanger reports that there are several frogs missing from his pond.
Sidney Hocks, who left Hogwallow Tuesday night for Tickville to buy a calf, has not been heard from and foul play is feared, as he had about \$2 on his person.
The Wild Onion school teacher, in his regular Friday afternoon talk to his pupils last week, told that while he had absorbed about all the knowledge in the school books, there was still a lot of loose knowledge scattered about over the world that they could pick up. Some of them showed surprise when the teacher, in his usual frank manner, admitted that there were yet a few things that even he himself did not know.
Wash Hocks has been in the habit of carrying two full jugs around with him to keep himself at all times balanced and upright. But on Wednesday morning just before he crossed the foot log at Gander creek, he stopped and took a big one, and that missing drink pulled him into the creek.
Atlas Peck has two cisterns at his home and would be willing to dispose of one of them if he could get a good offer.
Filmore Hocks, of near Bounding Billows, has an addition at his home in the person of a fine young son. He has christened him Moline, after the Moline disc harrow.
The widow woman, who lives near the old persimmon tree in the Call Ribs neighborhood, was seen at the Dog Hill church Sunday with a new hat on. There is some talk of Ellick Hellwanger going to see her, but he will not fully decide on the matter until he can put on his spectacles and look at her at close range.
Slim Pickens went over into the Bounding Billows section the other day and returned with a whistle that he took off of an old saw mill boiler. He says if he had some way to get up steam he could blow it.
Frisby Hancock has decided to catch all the frogs out of his pond. This will be done to make room for the summer stock of fish.
The Hog Ford Baptist church will hold a social next third Saturday night. A large crowd is expected to be present, as this is in celebration of the twenty-first anniversary of the congregation's attempt to pay on the church debt.

URIC ACID SOLVENT

50 Cent Bottle (32 Doses) FREE

Just because you start the day worried and tired, stiff legs and arms and muscles, an aching head, burning and bearing down pains in the back—worn out before the day begins—do not think you have to stay in that condition.
Be strong, well and vigorous, with no more pains from stiff joints, sore muscles, rheumatic suffering, aching back or kidney disease.
For any form of bladder trouble or weakness, its action is really wonderful. Those sufferers who are in and out of bed half a dozen times a night will appreciate the rest, comfort and strength this treatment gives.
To prove The Williams Treatment conquers kidney and bladder diseases, rheumatism and all uric acid troubles, no matter how chronic or stubborn, if you have never tried The Williams Treatment, we will give one 50c bottle (32 doses) free if you will cut out this notice and send it with your name and address, with 10c to help pay distribution expenses, to Dr. J. A. Williams, Company, Dept. 2822D, New P. O. Block, East Hampton, Conn. Send at once and you will receive by parcel post a regular 50c bottle, without charge and without incurring any obligations.

HEALTH/OFFICER CHANCE WARNS PUBLIC OF THE DANGER OF THE FLY

Ninety-five per cent of our house-fly pests come from horse manure. A few are hatched in cow stables, especially in those where much bedding is used, making the litter fairly coarse and loose. When there are no stables convenient, flies breed in litter from chicken houses, pig runs and outhouses. Under special stress they may breed in decaying vegetable matter.
Flies place their eggs in large masses in fresh manure, never in manure a season old.
With a single insect producing 480 eggs, which yield full-grown flies in ten to fourteen days, it is possible for flies to become numerous in a short time. It is also possible for a few flies to make the use of traps of no avail as a means of fly reduction. No matter how many flies you trap, there are always enough left outside to replenish the supply if they get a chance to place their eggs in a favorable place, or those you have caught may have placed a supply of eggs in the manure pile already.
Here is the only REMEDY: KEEP FLIES FROM BREEDING by seeing that the places where they wish to lay their eggs are not accessible or are distasteful to them. FORCE RACE SUICIDE UPON THEM. It's the only effective method of warfare against them.
I will insist on the immediate removal of all fresh manure. It is in fresh manure, allowed to stand, that flies are bred. All manure must be cleaned up at once and kept cleaned up.
—Dr. N. W. Chance, Health Officer.
