**MOTHERS NEED AID OF A LOCAL NURSE**

Effectively combating infant mortality depends upon an effort of mothers by visiting nurses, supplemented when necessary by reliable milk stations, consultations, baby contests and hospitals. This is the opinion of Dr. C. V. Chapin of Providence, R. I., which Dr. I. J. Murphy of the Minnesota Public Health association gives in reply to the frequent inquiries as to the best methods of preserving infant life. "Effective work," quotes Doctor Murphy, "depends upon each community's doing the task for itself, either through a local health department or some other agency."

"It is the proper function of the state to stimulate each town and city to take up this work. Dr. Murphy says, "Only one or two states so far have made any systematic effort to do this."

"Most state health departments," he continues, "issue pamphlets or circulars of instruction, giving information about the care of babies. Some of these are excellent and the value of this literature is probably considerable, though the experience in eastern cities has been that it is markedly inferior to personal instruction. No doubt it is more effective among the better educated native population of other parts of the country."

"In most states this literature is simply distributed as are other circulars or is sent out on call or perhaps given to mothers' clubs. In North Carolina and Indiana an excellent baby booklet is sent with a congratulatory letter of the governor to every mother."

"Such things may help considerably," Dr. Murphy concludes, "but a greater aid in removing the difficulty would be local effort."

Health association this question. An answer is given by Julius Hortvet, chief chemist, state dairy and food department, and member of the United States Joint committee on food standards, which committee is co-operating with the New York Milk commission. He says:

"All milk should be graded and sold under its proper label. All grades which contain over 100,000 bacteria a cubic centimeter should be pasteurized. All milk which contains less than 100,000 bacteria per cubic centimeter should be permitted to be sold only as 'raw milk.' Pasteurization is defined as subjecting milk to not less than 145 degrees Fahrenheit for not less than thirty minutes. This process should be carried on under the supervision of local and state health officials. Pasteurized milk should be divided into three grades:

"First, that which contains not more than 200,000 bacteria to the cubic centimeter before pasteurization and not more than 10,000 bacteria to the cubic centimeter when delivered to the consumer."

"Second, that which contains not more than 1,000,000 bacteria a cubic centimeter before pasteurization nor more than 50,000 bacteria per cubic centimeter when delivered to the consumer."

"Third, that which should be restricted in its use to cooking and manufacturing purposes only. Such milk should not contain more than 1,500,000 bacteria a cubic centimeter before pasteurization and not more than 300,000 after pasteurization."

These are the New York rules. Under them New Yorkers know when their milk is safe.

Two hundred thousand pounds of turnipseed have been imported from Argentina and Japan. The seed specialists of the United States department of agriculture are cautioning farmers to avoid seeding turnip-rape which is not winter rape and is not suitable for the forage purposes for which winter rape is grown.

**\$241,000,000 FOR U. S. NAVY**

Appropriation Bill Submitted to House, Explained by Committee. Washington, May 25.—An elaborate report explaining the \$241,000,000 naval appropriation bill was submitted to the House by the naval committee. At the same time the Republican members of the committee joined in a minority report attacking the measure as inadequate and demanding that Congress provide for a navy ranking second among the world's fighting forces on the sea.

**Pastor Pleads Guilty.** San Francisco, May 25.—The Rev. Richard Fysh of Fresno, Cal., after his trial with seven others had started in the United States district court, pleaded guilty to conspiracy charges of using the mails to defraud in obtaining applicants to purchase Southern Pacific grand lands in Oregon. He will be sentenced Monday.

**Unitarians Oppose Billy Sunday.** Boston, Mass., May 25.—Speeches voicing opposition to the evangelistic services to be conducted here in October by the Rev. William A. Sunday were made at meetings of the Unitarian church societies held in connection with the ninety-first anniversary week of the American Unitarian association.

**"Now! write this down"**

**UNITED STATES CREAM SEPARATOR**

**GOT A SLIP OF PAPER HANDY? All right, now take your pencil and let's do a little figuring.**  
 As a dairyman of long experience, what points would you pick out as most important in a profitable cream separator? **FIRST—**

- Cleanest Skimming Comes First**  
 Right on the first count! That's the bull's-eye they are all shooting at; but some can't even hit the target. Put down your second point.
- Most Sanitary is Next**  
 Sure thing! If a separator cannot be kept sweet and clean, inside and out, winter and summer, it is a mighty bad investment. What's a third requirement?
- Must be Easy to Operate**  
 That's correct! If a machine takes up a lot of time and strength to "hitch, un-hitch, or drive,"—twice a day, seven days in the week, 365 days in the year, that's the one to pass by! What next?
- Small Repair Bills Important**  
 Isn't it the truth? A "cheap" separator is always the most expensive in the end, on account of the cost of replacing weak parts, and by reason of lost time and inconvenience. So now you have reached the fifth requirement.
- One without Nest of Funnel Discs**  
 Under the old "bunch of discs" system the wife can never expect to be relieved of heavy burden in the dairy. Why not free her from all but the necessary toil?
- Must Work from Either Side**  
 That's a good point too. It makes it possible to fit the separator into any room. You don't have to make over the room to fit the separator.

**NOW SUPPOSE YOU DRAW A LINE, AND ADD UP THE GOOD POINTS. WHAT DO YOU GET? CORRECT. THERE IS ONLY ONE ANSWER—**

**"THE UNITED STATES CREAM SEPARATOR."**

Don't buy any separator until you have seen THE Separator. I want to show you how it works. I can preach a sermon on any one of the six points you've mentioned. Call me up by phone, write, or come in and see me.

**TO PRESIDE AT CONVENTION**

**FORMER DEMOCRAT IS CHOSEN CHAIRMAN BY PROGRESSIVES.**

Attendance of Delegates and Alternates at Chicago Will Exceed 2,000, Report Indicates.

New York, May 25.—Raymond Robins of Chicago was selected temporary chairman of the national convention of the Progressive party at Chicago at a meeting here of the executive committee of the Progressive national committee. Other officers selected were: O. K. Davis of New York, secretary, and J. P. Corrick of Nebraska, sergeant-at-arms.

Mr. Robins, the choice for temporary chairman, was the Progressive candidate for United States senator in Illinois in 1914. Prior to 1912, when he joined the Progressive ranks, he was a Democrat.

Those present at the meeting were George W. Perkins, chairman; O. K. Davis, secretary; Walter Brown, Ohio; Harold L. Iokes, Illinois; E. A. Van Valkenburg, Philadelphia; Wm. Manning Childs, Brooklyn; Horace S. Wilkinson, Syracuse; Raymond Robins, Chicago; Everett Colby, New Jersey; and Henry L. Stoddard, New York. Absent members of the committee were represented by proxies.

Reports indicated, it was said, that the attendance of delegates and alternates will exceed 2,000 instead of 1,256, as allotted in the official call.

John Dickson of Bellevue collected bounty for eight cub wolves at the county auditor's office Friday.

Mrs. J. A. Nichols and daughter Jean of Minneapolis are here for a few days, visit with friends. They formerly resided here.

Jake Mrozik, formerly of Sobieski, but now located at Carlton, Ore., is here on business matters. Mr. Mrozik states that if he does not dispose of his store property in Sobieski, he will likely return and start in business at Sobieski.

**SWAN RIVER**

May 24.—Paul Stanek and brother Frank were Flensburg callers Monday. Mr. and Mrs. John Plakut and Geo. Payer were county seat visitors last Thursday.

Andrew Basinski of this place has purchased a motorcycle from Frank Grezeca of Little Falls.

Farmers in this vicinity are nearly through planting potatoes and corn. Tom Bartkowitz and Andrew Magdzas have nearly completed grubbing at Charley Gosiak's place.

A. J. Sohar and Peter Bartkowitz were Sobieski callers last week Monday, making the trip with their auto.

Joe Bartkowitz intends to put the foundation under his barn, which he probably will build this summer. He will start this week, it is reported.

Mike Basinski and Joe Magdzas were in Little Falls last Friday on business.

Paul Magdzas, who has been employed in a barber shop at Little Falls for some time, is now working at his trade in Park Rapids.

The first calls were announced in the St. Stanislaus church last Sunday of Edward Kupka and Cecelia Kokek. Mr. and Mrs. Jos. Magdzas called on Mr. and Mrs. John Gwosdz last Sunday afternoon.

L. E. Larson and daughter Ester were in Little Falls Monday, on business.

Mike Zientek and Peter Magdzas were visitors in Sobieski Monday.

Mike Casey of Platt was in Swanville visiting over Sunday with Mr. Kulla. He returned Monday.

Peter Balaski and brother Julius of Swanville, were Sobieski callers last Monday.

**NERVOUSNESS**

A woman suffering all of the many annoying and depressing symptoms of nervousness, after taking medicine for years, found that her trouble was due to an imperfect condition of one of the joints in the neck. This abnormality was very slight, but like a small pebble in the shoe, it was sufficient to keep one of the nerves continually irritated. Defective neck-joint was the cause, general nervousness the effect. Chiropactor removes the cause. G. M. Jergens, Chiropactor, Realty Block, Entrance First street.—Adv. 12-1

**SOUTHWEST DARLING**

May 23.—The weather is fine now and everything is growing fast. Currant, apple and plum trees are in

bloom. The early sown grain is also up. All the lowlands and meadows are submerged in water as a result of the heavy rain Sunday. We hope the warm weather will continue.

August Blomquist had 50 young ducks but lost some of them during the recent cold weather.

It is not yet too late to seed barley. Albert Zimmerman has been clearing a great deal of land on his farm here lately. He's a real hustler.

**WANTS**

One cent per word per insertion. No ad taken for less than 10 cents.

**MONEY TO LOAN—On farm land on low rate of interest.** John Vertin. 40-1f

**FOR SALE—Jersey bull, 3/4 blood, 18 months old, weight about 900. G. Larson, 13th St., southwest.** 12-2

**FOR SALE—Lot 12, 13, 14, Block 20, Searle's addition; make an offer; will sell one or all. O. Helmer, 10137 Ave. M, Chicago, Ill.** 11-4

**STRAYED—From pasture, section 12, Ripley town, 2-year-old iron grey horse colt, white hind left foot. Walter Levinski, route 1, Ft. Ripley.** 12-2

**WANTED—By June 15, a tenant for a 160-acre improved farm; good buildings, crops are in. Inquire of J. K. Martin at First Nat'l Bank, or A. T. Kull, City, Rt. 6.** 12-1f

**FOR SALE—Just purchased several hundred acres of good farm land. All in Morrison county, some piece partly under cultivation. I will offer this land at a very low price and on very easy terms.** John Vertin. 40-1f

**FOR SALE CHEAP OR TRADE—For a big work team; my 5-year-old Spanish Jack Stallion, brown with white points; sound; broke to drive. Joseph A. Jansen, R. 2, box 32, Pierz, Minn.** 12-

**AN OPPORTUNITY is now offered to secure the finest suite of lodge rooms in the city; large; well lighted and ventilated; ball room; ante room; kitchen; hardwood floors; steel ceiling; newly decorated; toilet, steam heat. Inquire of L. V. Tanner.** 61f

**BRICK BUSINESS BLOCK,** one of the best locations in the city, always rented; for sale or will consider trade for improved farm. 160 acres, 7 miles from city, for sale; will take house as part payment. 115 acres, Todd county, 45 acres under plow, 15 acres meadow, balance level and easy to clear; dark sandy loam, on shore of lake, 2 miles to railroad; a bargain for \$19 per acre. 80 acres, 4 1/2 miles west of Pierz, 45 acres under plow, balance growth of poplars; level and good soil; price \$35 per acre. Several places in Todd and Wadena counties, partially improved. Prices from \$15 to \$22. Inquire Morin Land Co. 12-2
