**WONDERFUL "BIRTH OF A NATION" AT THE VICTOR**

D. W. Griffith's mighty spectacle, "The Birth of a Nation" begins its 3 days' engagement at the Victor theatre Wednesday, May 31. There will be two performances daily at 2:15 and 8:15 p. m.

Nothing like this wonderful attraction has ever been seen upon the local boards. It is given here exactly as it is being presented in New York City where the big drama has broken every record in the stage history of the first city in the country. In addition the piece has piled up record engagements in Chicago, Boston, San Francisco and Los Angeles.

It covers a wide range of American history and touches only the highest points of interest in the great events that led up to and terminated the Civil War. The force that slavery played in producing this crisis is traced from its inception to its abolition. While the basic theme is historical in its foundation its intent is the fundamental one of true drama. The forces which make for these results have been marshalled upon a larger scale than was ever dreamed of before. Where directors of vast spectacle have dealt with hundreds in the past Griffith employs thousands. 18,000 people fill his stage which has a vast territory for its background. 3,000 horses pass before your view in wild dashes over miles of country roadway. The decisive battles of the Civil War are reproduced in faithful detail and you see these conflicts fought again just as they were waged 50 years ago. Cities were built up only to be destroyed to lend force and verity to the dramatic narrative. One enormous battlefield is shown stretching over an area of 10 square miles and upon these planes and trenches 10,000 soldiers clash in a mimic warfare that is as real as if you were eyewitnesses of the actual occurrence. Holding the great effects in tether is a story as tender and true as love and romance can be pictured. There are tears and smiles, noble sacrifices and heroic deeds of personal valor. Youthful dreams of love's fruition are rent asunder by the demons of war; home ties snap before the call to arms and suffering such as cannot be imagined is depicted in the crude manner that history is made when men surrender reason to passion and engage in a deadlock of armed resistance.

You see the war start after being shown the causes which precipitated it. You see the great generals of the contending sections playing their desperate games of human pawns moved into the fields of slaughter. Then comes the agreement for peace and Lincoln sets about his superhuman task of healing the wounds by the application of that great love which made him the towering figure of his age. A fanatic's bullet stills the heart which beat so evenly for all humanity. The South is thrown back into a worse fate than war. Their lands are overrun by a hungry horde of vengeful politicians and grafters. The poor negro is cajoled into a false understanding of liberty and in his ignorance is led into excesses by these scoundrels of fortune. Out of it comes the ghostly crusaders of a terrible era to once more set things aright and return the lands and liberties of peace to their rightful owners and the land's miserere sounds the chorus of brotherly love in an allegorical dream which visions the reunion of the divided sections and the welding of that national spirit which has made this nation so great after its baptism in its own blood.

A wonderful score of operatic reaches accompanies the narrative. It is all done upon a most stupendous scale. No detail has been overlooked. The drama is outlined and told in the most graphic form that has yet been devised by the brain of man for such purpose. No wonder this work is epoch-making. It has set up new standards which it will be difficult to equal for many a year to come.

Seats are now on sale at the box office.—Advertisement.

**IT IS CIRCUS TIME AGAIN**

Howe's London Much Bigger—The Glasgow Horses Also Coming

The Great London aggregation of colossal and renowned features will be in Little Falls on Friday, June 16.

Acrobats from the old world and the new; giants, pigmies, beasts of the wildest forests of the world; strange birds and daring bareback riders.

Circus day comes around about right. A fellow gets old during the winter. Notes fall due; things must be attended to; life looks serious any way one looks at it. A thousand things press down upon the mind until the head aches. Wrinkles grow deep during the winter, and the hair borrows a tinge from the frosts. It's different circus day. You're a boy again—or ought to be.

The \$25,000 Glasgow Prize Horses are also with Howe's London Show this season. Beauties say the critics everywhere.—Adv.

In the **Coffee Business** Since 1899

We have just installed a big coffee roaster which roasts with coal instead of gas. The reason we made this change was to get away entirely from any gas odors, while you get more or less roasting with gas.

With the new coal roaster we are putting out roasts far superior to any roasting done by gas.

Our blends speak for themselves. Try any of our coffee and see the difference between fresh roasted and coffee that has been roasted all the way from three to six months before you get to use it.
