SELL
U. S. CREAM SEPARATORS

TAKE ONE HOME TO-DAY

Nothing gives me so much pleasure as to see a dairyman and his wife driving home with a U. S. Cream Separator in the wagon. It's plumb sure to cement our friendship, and add to my future business.

The last "U. S." that left the store actually sold itself on its sanitary points alone. You see the wife was along, and she knew what it meant to keep one of those old disc type separators sweet and clean.

JUST FOLLOW ME

"Just follow me," I told these good folks, "and I'll take you through the United States Separator just like you were going through the U. S. Capitol."

We started in with the cast iron bowl chamber, which in most separators is a rough, uncleanable catch basin for grease and slopped milk as unsanitary as can be. But in the U. S. Separator, there is a removable, non-rusting, sanitary lining for the iron bowl chamber, which absolutely prevents any spilled milk from coming in contact with the cast iron.

But the mechanically washed skimming device itself is what made the big hit with the dairyman and his wife. In most skimmers steel is used, and rust gets busy right away on the "thousand-and-one" different parts. In U. S. Skimmers, nothing can rust; they are made of costly Nickel-Silver, absolutely non-rusting.

The frame of a United States Separator is open at the base, for easy cleaning. There are no exposed gears, pockets, or ledges to collect dust, grease, and milk. You can clean over it, around it, and under it.

And here is another important sanitary argument that appeals to all practical dairy people. The bowl of the U. S. Cream Separator has openings at the bottom which keep it perfectly drained. Nothing stands in this bowl after running. No slop over self and floor as with bowls that must be hand-emptied.

SEEING IS BELIEVING

I wish every dairyman in the country would take the time to look over a U. S. while I act as "guide." Take an afternoon off, and drive in with your wife. Better bring the open wagon, for you will probably want to take one home.

HENRY NATHE
LITTLE FALLS MINNESOTA

son's corner or whether the district be divided, Saturday at 10 a. m.
Swen Carlson is busy hauling sand these days.
Frank Mattros went to Bowlus Monday with cattle.
William Larson is employed by Martin Larson at present.

Dr. Agnes Lewis and Dr. Henry Lewis, Osteopathic Physicians, are at their office over the First National bank every Thursday afternoon. Telephone 340-J.—Adv. 7-ff

Almost \$200 in labor was given to the city of Little Falls free last month by persons who were sentenced in Municipal court for being drunk and disorderly. This represents almost ninety days' work and although the prisoners employed on the chain gang do not turn out as much work as paid men it is a money-making proposition for the city, whereas before the ordinance providing for the chain gang

TO THE VOTERS OF THE THIRD DISTRICT
At the request of a large number of friends, I have decided to become a candidate for the non-partisan nomination for commissioner from the Third district.
I have served 22 years on the town board of Pierz and am now a director of the Pierz Stock Shipping Assn., and the Farmers Mutual Insurance company.
If elected commissioner I shall seek to promote the best interests of the county and the people.
I respectfully solicit your vote at the primary, June 19, 1916.
—Magnus Rauch, Genola, Minn.

was passed the prisoners would loaf in the jail at the city's expense for board. The ordinance is being used very effectively and it is believed that it will tend to reduce the number of drunk cases, which are mostly people from the dry country.

SEND HAROLD KNUTSON TO CONGRESS

HAROLD KNUTSON
Candidate for Republican nomination for congress, is a newspaper man and lives at St. Cloud; was raised on a farm in Sherburne county. President Northern Minnesota Editorial association in 1910-11, and secretary finance committee of Northern Minnesota Development association for three years.

HIS PLATFORM.
Cut out all profit in war by having government manufacture all war materials.
A protective tariff that represents difference in cost of production at home and abroad.
Lower the price of gasoline by enacting a liberal law, allowing anyone to engage in the manufacture of denatured alcohol.
Government aid in road building and maintenance.
Federal aid in preventing overflow of agricultural lands in Northern Minnesota.
Right of producer to organize for mutual protection.
Child labor law that will keep children out of factories and sweatshops. Maintain rural mail service at highest point of efficiency.
Regulation of public utilities.
Honesty, efficiency and economy in conduct of government.

Mr. Knutson is financing his own campaign. None of the vested interests have contributed a penny toward his campaign fund, neither will they be allowed to do so. Therefore, if he is elected to congress from this district he will go to Washington absolutely free to serve the people, and not selfish interests. In view of the fact that Mr. Knutson is a man of limited means it will not be possible for him to make an extended and expensive campaign over the district, hence it is up to those who stand for the things that he stands for to assist him in his candidacy in every possible manner. "SEND HAROLD KNUTSON TO CONGRESS" should be the slogan of every farmer, laborer and business man in this district, for in him we have a man who will look after our interests in an able and fearless manner.

Send Knutson to Congress. He Will Represent You Efficiently.

In the Coffee Business Since 1899

We have just installed a big coffee roaster which roasts with coal instead of gas. The reason we made this change was to get away entirely from any gas odors, while you get more or less roasting with gas.

With the new coal roaster we are putting out roasts far superior to any roasting done by gas.

Our blends speak for themselves. Try any of our coffee and see the difference between fresh roasted and coffee that has been roasted all the way from three to six months before you get to use it.

A BIG MAN FOR A BIG JOB
A home grown product. A farmer boy who educated himself. Ability and hard work made him a national leader in the legal profession. As the people's lawyer in trust prosecutions, he won decisions from the U. S. Supreme Court which, if enforced by the government at the present time, would greatly help small business men and farmers and insure equality of opportunity for all. He is guaranteed to the voters by Minnesota's leading country newspapers.
He stands for PROTECTION of Uncle Sam, of agriculture, of labor, and of business. He is on the square and has the welfare of the people at heart.
Let's send a real statesman to Washington.
