 The German Catholic Aid association of Minnesota will hold its annual meeting at Sleepy Eye this year. The St. Joseph's society of Pierz, at a meeting held last Sunday, appointed the

following delegates to attend the annual meeting at Sleepy Eye, September 23, 24 and 25: Rev. J. G. Stiegler, Conrad Stangle, Casper Meyer and Nick Stalpes.  
 The Misses Rose and Margaret Koch of Minneapolis, daughters of Mr. and Mrs. Jacob Koch, are here on a visit to the C. A. Virnig family.  
 Born—To Mr. and Mrs. Theo. Richner of Platte, last Sunday, a son.  
 John Girtz left Monday for North Dakota, where he will work during harvest and threshing.  
 Henry Wuellner reports that dogs killed over sixty of Jake Thoen's sheep last Saturday night. Only three lambs are left out of a flock of 64. The common opinion is that the wolf is the greatest enemy of the sheep, but the truth is the dogs play havoc in the flock in the thickly settled country. There are fifty dogs to every wolf and a dog's appetite for gore is about

equal to that of the wolf. He answers the call of the wild during the dark hours of night and for a time forgets that he has become domesticated. Such dogs are always considered harmless by their owners and countless suits and quarrels have come from the owner's faith in his pet. Often one dog will learn from another to kill sheep, and sometimes a half a dozen dogs will start out after dark on a sheep-raiding expedition, to return before daylight and be sleeping unsuspected in their kennels.

**Cribs Should Be Put Into Good Condition NOW**

Crops of all kinds in the Northwest are badly damaged and it's going to make every bushel of corn and other grains that is safely harvested very valuable.

Some people believe that what is lost in yield will be nearly if not quite made up in advanced price.

This makes a very important reason for making old cribs safe and for building good new cribs where necessary.

We have been prepared for some time for an extra big crib business. We have several very practical plans for cribs in various designs and a very fine lot of crib lumber all bone dry.

Plenty of fresh cement and lots of good roofing and new cedar shingles.

We want your crib business and Morrison County Lumber Company Service will give you the biggest possible value for your money.

Most farmers feel more or less anxiety about their corn crop this time of the year, but those who are the least concerned are those on whose farms stand silos. The silo makes it possible to save a corn crop that, owing to the immaturity or early frosts, might be almost wasted. The farmer therefore, who has been thinking of building a silo should get into action, and the man who has not been thinking of the silo should think and act promptly.

**In the Coffee Business Since 1899**

We have just installed a big coffee roaster which roasts with coal instead of gas. The reason we made this change was to get away entirely from any gas odors, while you get more or less roasting with gas.

With the new coal roaster we are putting out roasts far superior to any roasting done by gas.

Our blends speak for themselves. Try any of our coffee and see the difference between fresh roasted and coffee that has been roasted all the way from three to six months before you get to use it.
