MUSICAL ART CLUB

The McPhail quartette offers a program which will appeal to all true lovers of music. Playing the music of the greatest composers with beautiful tone quality, excellent ensemble and soulful interpretation, the engagement of this quartette will offer the people of Little Falls an opportunity to hear the finest compositions of Beethoven, Schumann, Greig and Dvorak, played by a quartette of artists.

Wm. McPhail, who heads the company, has spent four years in the music centers of Europe. While studying violin under Sevcik in Prague, Bohemia, he secured the instrument which he will use at this concert—a Cremona, made in 1706. This violin has a commercial value of \$1200.

Carlo Lischer, one of the best-known cellists of the northwest and Ebbie Leonora Nordgarden, a reader of great caliber, will be with the McPhail quartette at the Little Falls high school auditorium, Oct. 10, 8:15 p. m.

After the concert an informal reception will be held in the gymnasium to which all attending are invited.

Mrs. G. C. Hunter of Duluth arrived the first of the week for a visit at the home of Mr. and Mrs. Frank Renick.

Miss Gladys Delahunt entertained a few friends at her home Sunday evening. Games furnished the amusement.

If you are afflicted in any way look up Jergens, your chiropractor. A few adjustments will convince you that chiropractic will correct the cause of "disease." Hours 3 to 5 and 7 to 8.—Adv.

Miss Ione Kirscher of this city, a junior at the state university, was one of a number of students in that class who were recently appointed as advisors to assist freshmen at the university.

James Tanner was pleasantly surprised by a number of his old friends Tuesday afternoon, the occasion being his eightieth birthday anniversary. Card furnished the entertainment for the occasion and a splendid repast was partaken of.

Minnesota's spring wheat crop is estimated at 33,900,000 bushels, a loss of 33,550,000 from last year, when 72,250,000 bushels were raised. It is estimated that there are 714,000 bushels of winter wheat in the state, against 1,170,000 bushels last year.

Work on the construction of the new postoffice here is now progressing quite rapidly and the beams for the first floor are being put in place. The corner stone was laid Tuesday morning. It occupies the southeastern corner of the building, and bears the inscription "William G. McAdoo, Secretary of the Treasury. James A. Wetmore, Acting Supervising Architect. 1916." Carl C. Holloway, who has been superintending the work on the building, has been transferred to Portland, Ore., and he left for that place Saturday. J. C. Johnson has taken his place.

Several changes in the way of improvements are being made at the Merchants' State bank. A new vault door has been placed on the vault and the old door has been placed on a vault in the basement, which heretofore has not been in use. New steel filing devices have been put in the vault upstairs and 100 safety deposit boxes of the latest type have been added. The vault will be partitioned off and the outer half will be for the use of those who have safety deposit boxes there. A steel railing will be run from the directors' room to the vault, so that those who want to get their safety deposit boxes will not interfere with the bank employees. The directors' room will also be fixed up.

DIED

Charles A. Sprandel, who has been a resident of this county for the past thirty-five years, was suddenly called by death on Friday evening at 8 o'clock, his demise resulting from heart failure, while sitting in a chair in his home west of this city. He was 66 years of age.

Mr. Sprandel was born in Reading, Pa., December 14, 1850. He was raised in the east and came to this state in the early eighties, locating at Morris, from which place he moved to Little Falls in 1881. Six years later he was married to Miss Lena Kaestnes of this city. In 1892 they moved out west, where Mr. Sprandel purchased an electric light plant at Roseburg, Ore. He moved this plant to Roslyn, Wash., and two years later disposed of it and returned to Little Falls. He then started in the brick-making industry here, being the pioneer in this business in this section, and operated the yards two miles west of this city until a few years ago, when he retired from active business. He owned considerable property, including his home in the Brickyards, several residences in this city, and two-story brick business building on First street southeast, just south of the German American National bank. He was vice president of the Merchants State bank and was also town treasurer of Pike Creek town, at the time of death. Twenty years ago his first wife died and in 1900 he was married to Mathilde Becker at Long Prairie.

Besides his wife, deceased leaves ten children to mourn his loss. They are Carrie, Charles, Clarence, Bertha, Walter, Alfred, Evangeline, Merlin, George and Margaret. All live here. The funeral was held from the home Tuesday afternoon at 2 p. m. The services were conducted by Little Falls Lodge No. 770, B. P. O. E., of which he was a charter member. He also belonged to the Knights of Pythias. Fully forty automobiles and several rigs were in the procession from the home to Oakland cemetery, the last resting place of the deceased. The automobile hearse from the St. Cloud Undertaking company was used.

William Skelton, who until recently was employed as gatekeeper at the West side crossing of the N. P., passed away at his home early Sunday morning from apoplexy, after an illness of about ten days' duration. He was 79 years of age.

He was taken ill while working and was brought home. His wife was out of the city at the time and when she returned home the next day he was in a precarious condition. Later, however, with medical aid, he improved somewhat, but Saturday night he became worse and the following morning he passed away.

Deceased was born in Canada October 10, 1837. The funeral was held from the home Monday afternoon and interment was in Oakland cemetery.

Vivian, the 6-months-old daughter of Mr. and Mrs. Wm. Ledoux of Belle Prairie, passed away Saturday. The funeral was held at Belle Prairie the following day.

Eva, the 10-year-old daughter of Mr. and Mrs. Sam Ripley of Ripley, was operated upon for ruptured appendix at the Hall hospital yesterday.

Alfred Bergren of Ninth street northeast sustained a fracture of the right arm just above the wrist Tuesday, when he fell from a fence.

Miss Maude G. Smalley has returned from St. Paul, where she spent the summer at her home, and has resumed her classes in vocal instruction here again.

On Tuesday J. N. Carnes and Warren H. Milbury, both of Royalton, filed petitions for the candidacy for the office of county commissioner from the fourth district. The first named is now serving on the board, having been appointed to fill the unexpired term of the late F. H. Lakin.

Mrs. C. N. Gunnison returned to her home in Sioux Falls, S. D., Tuesday, after a short visit with old friends here. Mrs. Gunnison was before her marriage Miss Clara Barnard of Cudrup and is known to many local people. While here she was the guest of Mrs. J. W. Jarboe and Miss Edna Harkens.

The Northern Improvement league will meet at Bemidji on December 3 and 4. One of the interesting events on the program will be a livestock judging contest by members of the animal husbandry classes of the high schools throughout this section. The local high school may send some boys up to take part in the contest.

B. Y. McNairy went to Minneapolis Tuesday, upon receiving word that Mrs. McNairy, who is at Hillcrest hospital there, was worse. She was operated upon Wednesday morning and the attending physicians expressed hopes of her recovery. Her son Louis and daughter, Mrs. H. T. Peterson of Geneva, have been with her for some time.

While out hunting east of this city early Sunday morning, Elmer and Victor Peterson of the West side were accosted by a stranger who threw a scare into them by chasing them, jumping into their rig, and finally getting into a fracas with them, in which, according to the boys, he got "his." They said that he also chased after an automobile later and yelled and acted very strangely. The experience was a most unpleasant one for the boys.

RANDALL WANTS LOCAL CURRENT

Randall may get electric current from the Water Power company of this city and a meeting was held there Monday night to discuss the matter. The local company is willing to run a transmission line to that village and supply them with current provided there is sufficient business to warrant the expense. Mr. Gordon states, and they will take steps to ascertain this in the near future.

Charles Chandler of that village has stated that he will also make a proposition to them for the installation of an electric light plant there.

It does not seem likely that any steps will be taken toward having the court house clock raised or larger dials at this time put in as the clock as it now is conforms entirely with the specifications of the contract. However, the county board will probably have the background of the dials made dark. As they now are the figures are almost of the same shade as the brick in the tower and it is hard to distinguish them. It has also been suggested that electric lights and reflectors be placed at the top of the dials, so that they would be of service at night as well as in the daytime. The commercial club was to meet last Monday evening to discuss the matter but the meeting was called off.

Better Get Your Repair Material Too

You have been so busy for the past month or two that the "fixing up" you have seen was needed in a great many places around your farm has simply been neglected for lack of time.

It's getting along toward cold weather pretty fast now and if you don't get the lumber, cement, shingles, building paper, roofing, etc., that you will need for the work and get right at the jobs soon, cold weather and snow will beat you to it. We have the kind of material you will like to work with—good bone dry lumber, fresh cement and new paper and roofing.
