AMENDMENT NO. 1 INDORSED BY MINNESOTA OFFICIALS

We believe that Constitutional Amendment No. 1, to be voted upon at the November general election, will be a great benefit to the entire State of Minnesota and we give it our hearty endorsement.

Handwritten signatures of various officials endorsing Amendment No. 1.

The above is an indorsement of Constitutional Amendment No. 1 to be submitted to the voters at the general election on November 7.

State officials familiar with the development of the State have put their names to the indorsement and the signatures have been photographed and are being sent broadcast over the State.

Amendment No. 1 provides a revolving fund of \$250,000 for the purpose of clearing state lands. The idea is to give the man who buys a piece of state land a fair start in his battle in the wild country in the northern part of Minnesota.

The passage of Amendment No. 1 is not a direct appropriation, and will in no way increase the taxes; in other words it is simply loaning a small part of the present school fund for the purpose of developing state lands.

Every voter should place a cross (X) opposite the word "Yes" for Amendment No. 1 when he marks his ballot on November 7.

Nothing more than milk and an occasional egg nog has passed his lips. And yet he does farm work and says he never felt so well as he does on this diet which costs him considerable less than \$1.00 a week.

How easy it would be to bust the meat trust if everybody would follow Adam Becker's method of living. H. J. Terhaar, cashier of the bank at New Munich, had the misfortune to fall downstairs at his home and break a leg.

Chas. Lundwall bought a Ford touring car from Paul Sanders of Ft. Ripley last week. E. G. Carlson received a carload of brick Saturday.

Mr. and Mrs. S. J. Blake made a business trip to Little Falls Friday. Many went to fair Sunday to take in the church fair.

Mr. and Mrs. L. E. Gottwalt and son Paul and daughter Mary of Rice were here Sunday to visit relatives.

Warren Milberry and C. W. Bouek of Royalton were here on business Sunday. Mrs. Joe Weisbrick was in Little Falls on business Monday.

Joe Hortsch and son Leonard were in Morrill on business Sunday. Rose Loscheider left for Little Falls Friday, where she will visit relatives for a week.

a large furnace will absorb. Ordinarily plenty of air is all that is needed to cure any seed corn. Of course, where there is a large bulk the ventilation must be very good. It is impossible to get too strong a circulation through the corn.

"We are careful not to let our corn freeze before it is thoroughly dry, but after that we keep only enough fire to keep out the moisture and prevent extreme low temperatures."

"We find that this method, which can be easily followed by any farmer, produces the very best grade of seed corn obtainable."

FALL SELECTION OF POTATOES PAYS It pays to select next year's seed potato tubers from the field at digging time, better, than to select them from the bin next spring.

At digging time one can get a good idea as to the type and uniformity of tubers produced under individual vines which can not be obtained after the crop has been put in storage.

Plants affected with leaf roll, only dwarf and mosaic should be destroyed and no tubers saved from them. Although these diseases do not cause any visible injury on the tubers, the use of infected seed will reduce the yield and finally cause the potatoes to "run out."

The diseases are described in detail in Minnesota Station Bulletin No. 158, which can be obtained on application to the Office of Publications, University Farm, St. Paul, Minn.—A. G. Tolaas, University Farm, St. Paul.

THE GOOD JUDGE WAS NOT SURPRISED. HELLO, MAYOR! I THOUGHT YOU SAID IT WAS TOO STRONG! I WAS LIVING TOO HIGH—TAKING TOO LARGE A CHEW. NOW I'M GETTING WISE. THAT'S THE IDEA—A SMALL CHEW LOOKS BETTER AND TASTES BETTER. THE tip from a user of W-B CUT Chewing to a beginner is: "If you won't take a little chew don't take any. W-B CUT isn't ordinary tobacco. It's rich tobacco—a chew as big as a regular sized wad of plug is too much of a good thing. If you really want to know what tobacco satisfaction is, tuck a little nibble of W-B into your cheek, and notice how the good tobacco taste lasts and satisfies."
