CONFERENCE FEARS FOR DAIRY INDUSTRY

A conference representing producers, manufacturers and distributors of milk and milk products throughout the United States, in Chicago recently, announced that the dairy business was in grave danger through restricted consumption of dairy products and the accumulation of a vast supply of such products in storage.

H. H. Kildee of the Minnesota College of Agriculture has brought back to Minnesota resolutions passed by the conference. These resolutions ask:

That the food administration make public announcement that for the present there is no longer need for the curtailment of the use of milk and milk products; that the production and storing of butter and cheese be stimulated by encouraging the investment of capital in the coming butter and cheese crop; that the boys of the army and navy in service be supplied with butter; that cheese be placed in the army ration; that the forming of cooperative associations of farmers for making collective sales of farm products and effecting economies in production and marketing be encouraged; that a bureau of dairying in the United States department of agriculture be established.

The members of the conference pledged the food administration that during the war those engaged in any department of the dairy industry would demand only the cost of their operations plus a reasonable profit to be approved by the food administration or the government.

U. S. MAKES DRIVE FOR COTTAGE CHEESE

Three representatives of the United States department of agriculture, arrived in St. Paul about the middle of April and began a campaign to encourage the consumption of cottage cheese as a means of preventing an enormous economic waste. This campaign is to be pushed throughout the state.

About 41 per cent of the milk produced in the United States is manufactured into butter. A by-product of this butter-making is more than 29,000,000,000 pounds of skim milk. This would make more than 4,350,000,000 pounds of cottage cheese containing something like 913,000,000 pounds of protein. This is only about 40,000,000 pounds less than the protein in the more than 8,000,000,000 pounds of beef consumed in the United States in 1915.

All of the skim milk, of course, does not go to waste. Much of it is fed to livestock. Still there is an enormous waste and the government's drive is designed to stop it: By encouraging the consumption of cottage cheese in centers of population as a substitute for meat, the consumer will benefit in the saving effected, and the producer will benefit by finding a market for a by-product hitherto largely wasted.

MR. HOOVER SAYS SAYS: EAT MORE POTATOES

A telegram just received from Herbert C. Hoover, United States food administrator, by the Minnesota food administration, urges that everything be done to stimulate the consumption of potatoes. Mr. Hoover says:

"Every effort must be made to get potatoes flowing freely to your markets and placed in the hands of consumers at reasonable prices that will stimulate consumption. If any shortage exists because of transportation difficulties, advise by wire and we will secure the necessary help from the railways' director general.

"Do all possible to increase the consumption of potatoes to take the place of wheat flour."

Minnesota's Food Administration suggested as a slogan for this state: Buy a Bushel of Potatoes. Don't Be Satisfied With a Peck.

BANK CHANGES NAME
German-American National Bank
 NOW
American National Bank

Believing that it is not good nor desirable that the name of ANY FOREIGN NATIONALITY be attached to an American institution or bank that is under Government supervision, we gladly and loyally comply with the desire of the Government and also general public opinion and change our name to The American National Bank, as many other banks of the same name have already done. We know that with few exceptions the citizens of Morrison county of German descent are 100 per cent loyal and they will praise us for taking this step, which is for our best interest and that of our beloved country. We ask for the enthusiastic approval of the public. This took effect May 1, 1918. All checks bearing old name will be honored as usual. Other than in name the bank remains the same.

Yours respectfully,
 —JOHN WETZEL, President,
 —J. W. BERG, Vice President,
 —R. D. MUSSER, Vice President,
 —E. J. RICHEL, Cashier,

"SHE WALKED RIGHT IN AND LOOKED AROUND AND CAME NEAR WALKING OUT AGAIN"

She was looking for a drug Store, but her eyes discovered our beautiful display of Ivory and this was too much for her. She didn't know we kept Ivory Clocks in stock, and before she departed she had bought the following pieces in Ivory:

Clock
 Mirror
 Brush

If you should happen in you would also be surprised to see the beautiful assortment of French Ivory we carry.
