## COUNTY DADS MEET

### RECONSIDER ROAD BUILDING PROGRAM—NOT ALL TO BE DISCONTINUED

The county board met in adjourned session Monday afternoon with all members present.

The first matter to come before the board was the condition of the road and bridge fund, and as to the advisability of discontinuing road work during 1918, until outstanding road and bridge warrants had been in a measure redeemed.

The resolution passed at the regular meeting on the 7th of May, "That all road work on county and state roads be discontinued, except such as may be necessary to obtain state aid," was reconsidered and qualified in that if it is necessary in order to make the roads passable now under construction the following amounts, but no more, may be expended on the following roads: The sum of \$2500 on state road No. 3; the sum of \$1500 on state road No. 1 and the sum of \$1000 on state road No. 4. But the foregoing limitation shall not apply to maintenance work.

It was decided that after the county has completed the work on state roads, that the tractor will be loaned to such towns as desire them, the towns to use the engineer now employed by the county, and pay him and pay all other running expense and to maintain tractors, and keep them in repairs and return same in as good condition as when received, usual wear excepted; also to use the same grader men now employed on the county graders. Berglund and Vanselow have charge of the old tractor and Carnes, Gassert and Rochelleau have charge of the new tractor.

The matter of the bridge over the Mississippi river on state road No. 1, near Royalton, was then taken up. Mr. Ellison of the highway commission appeared before the board and explained the present condition of one of the piers under said bridge, and who was to blame for the same; also the best manner to rectify said default.

The county allowed the Minneapolis Bridge Company, a partial payment on their contract for \$5000. It is further agreed that for driving and furnishing steel sheet piling and placing of additional concrete under pier No. 3 of bridge No. 2436 the county enters into a contract to pay Minneapolis Bridge Co., \$1000 over and above the original contract price of said bridge, said work to be done under the plans and specifications of state highway commission.

## CRUSH PRUSSIANISM

### MISSION OF UNITED STATES SAYS CONGRESSMAN MILLER OF DULUTH

Congressman Miller of Duluth spoke at a loyalty meeting at the Victor theatre Tuesday evening. The attendance was rather small, principally due to the inclement weather.

Congressman Miller said that through investigation he has found Morrison county to be the banner county of the state. It has the largest number of members in the America First organization, in proportion to size, of any county in the state. He said that the America First organization is an organization without a religion and without politics. It has only one purpose and that is America.

Mr. Miller gave a review of the war from the beginning to the present time. He said ever since the little kingdom of Prussia came into existence it has been a war loving people with idea of a strong army always uppermost in its minds. Slowly by conquest and pillage it welded together a strong nation, always under the military heel.

About the years of 1913 and 1914 the German people began to wake up and demand more rights of freedom. Up to this time they had been working for practically nothing, and without any freedom of speech to demand what was theirs. The kaiser became uneasy about the sudden outbreak of his people and called his cabinet together to decide on what was best to be done. He decided that a war would be necessary to quiet the people and thus keep militarism supreme. Therefore the war was started by the kaiser and no one but him. We will have to lick the kaiser and his clique before we can end the war, Mr. Miller said.

Mr. Miller gave the development of the war up to the present time telling about the German advance through Belgium and how France stood the shock of the onslaught alone. Although England had a small army they were fighters and when they were put in France fought the longest and retreated the slowest of any men fighting in France at that time. He gave a good description of the battle on the Marne and the battles of Vimy Ridge and Verdun, telling how at Verdun the Crown Prince Karl with a large army of picked fighters was beaten.

After the English had organized an army of 5,000,000 men and put them in, relieving the strain on the French, things started to go the way of the allies. The Germans were slowly being pushed back toward Germany until Russia betrayed the cause and laid down its arms. This gave the Germans a chance to put their men from the east front on the west and thus check the advance of the allies. The allies are now holding the Germans and the Germans may bend the allied line but they will never break it. Mr. Miller said that it is up to the U. S. A. to win the war and by constructing enough ships to carry 5,000,000 men to France we are going to do it.

The food supply of England, Mr. Miller said, will last them but ninety days and the people of England are living by card. Last year we sent to England 10,000,000 bushels of wheat and since we started conserving we have increased the export to 100,000,000 bushels.

By an established system of convoy the submarine menace has also been quieted, breaking the blockade around England and letting food in.

Mr. Miller urged the women to conserve, saying it was only a small bit compared to what the women of England are doing. There are 1,400,000 women working in the munition factories, industrial factories and farms. With the United States in the war it means a speedy death to Prussianism and autocracy, in which case, the United States will write the history of the world for the next fifty years.

Dr. L. M. Roberts introduced the speaker, expressing his regret that the weather was such that crowd could not attend. Congressman Miller has recently returned from France and all that he told the audience was taken from personal investigation.

When the Red Cross war fund campaign opens Monday, May 20, on a drive to secure \$100,000,000 in the United States, committees in Morrison county will set out to secure the allotted amount of \$25,000. This sum has been apportioned among the forty-one districts of the county according to population, valuation and general conditions. This week complete instructions are being sent to the chairmen who are to have charge of the districts of the county. Letters have been sent to the 27 branches of the Morrison County Chapter of the Red Cross asking them to have rallies during the week of the campaign, and the Speakers' committee has been requested to furnish speakers for the rallies.

It has been decided that instead of Saturday, which is the national parade day, the parade shall be held in Little Falls next Wednesday evening at 7:30 o'clock prior to the address by Lieutenant L. Business houses, churches and public buildings are urged to fly the Red Cross flag beginning today and to continue flying the flag until the campaign is completed.

The Board of Commerce office is the official headquarters for the campaign and all work will be conducted from there by the director, the managing secretary of that organization. The money secured in the drive goes first to the relief of the boys in khaki and to the home service for relief of those left behind.

The Jefferson Highway association is to give a medal to some man in every county on the highway at end of the year, and he will also have a chance to attend the annual meeting of directors at the expense of the association.
