The Dog Hill Methodist and Hog Ford Baptist church have cut out the ringing of the bell for the hour of service. This gives the sextons more time to cut the grass on the church lawns.

Tobe Moseley thinks if the public could get hold of enough samples there would be very few salesmen left.

One summer, during my early youth, I played around a great church building that was going up in country town. One day I asked the contractor how long it would be before the building would be complete.

He replied that he would require about ten years to complete it on account of the church's lack of immediate funds. Just across the public square a huge stone front building for hardware firm was being completed.

Now here was a congregation of about four hundred good, honest church people who could raise an amount equal to the cost of the building in a few days.

While within a few hundred yards were three well-known sinners who had raised an amount equal to the cost of the building in a few days.

When I think of my work while in every way to be done. He spent Friday at the postoffice, where he laid out and built a new building for the postoffice.

He was home gathering in the mail. He says the mail is a light work, but it is a heavier one than usual.

The Dog Hill preacher is keeping the fact that he will endeavor to collect his salary next Sunday very quiet. He wants a good attendance at the cost of duty as a public official during the fall months, and to get through it he will have to stock up on tonics and bitters.

While he is privileged to sit on the front porch of the postoffice and talk or take a nap all he pleases, he cannot get very far away from his business unless he closes the door, and if he did that the government might think hard of him, as an illustration of the business and business cares attached to this important office, the P. M. walked down to Gander Creek the other day to fish awhile.

Before he had been there more than an hour, and just about the time the fish were beginning to get interested in the bait, he was disturbed by the ringing of the bell on the post near the postoffice building. This sounded the alarm that a customer was in waiting. As soon as he could conveniently do so, he wound up his fishing pleasures and strolled to the postoffice.

The bell had continued to ring all this time, and when he arrived he discovered that the customer was Miss Flutie Belcher, who wanted to know if two or three cents was necessary to carry a postcard. He was on the verge of resigning until he reconsidered.
