How We Go At It First we look into the battery to see if you put water in it. Then we use the hydrometer which is the one reliable way of knowing the condition of its charge. Then, if no special cause of trouble appears we put it on the line to see if it will take a charge. But if there is plain indication of serious trouble we open the battery up and find out exactly what's what. Don't trust your battery to amateurs or artists in guesswork, who claim they can tell inside condition by outside inspection. Come here where you find adequate machines and apparatus to really inspect, charge and repair any battery. GORDON MOTOR COMPANY -and- ELECTRIC SHOP Willard STORAGE BATTERY

Luck and Lack Don't trust to luck. Luck is untrustworthy. Systematic, scientific striving for any goal is far more likely to bring you success than any mere faith in your success. Save and Win Be well dressed. Make friends. Increase your influence in your community. Enjoy the respect of all your associates. These things do not come to those who trust to luck for them. Systematic saving will win them for you. Systematic saving will accumulate for you a small fortune that can safely and readily be expanded to a large one.
