FANS ELECT COMMITTEE ON FUNDS—WANT FIRST CLASS TEAM

Little Falls baseball enthusiasts are lined up solidly for a first class all-salaried team for this summer. This was brought out at a meeting at the city hall Tuesday evening at which about forty fans were present.

All the fans agreed that a good salaried team is the only kind to have. The majority favored a playing season of about two and one-half months, while some wanted a three months' season.

A committee of three was elected to solicit funds. They are Joseph Moeglein, Earl Wetzel and Charles Sylvester. They started work yesterday and will make an effort to finish work so as to make a report at another meeting to be held next Tuesday evening.

The plan, according to the sentiment expressed at the meeting, is to elect a board of three directors, who will have full charge of the team and the finances. This board would select the secretary and handle all the detail work. The fans want a team that will be on the level with the best teams outside of the leagues.

Peter Newman was selected as a committee of one to get in touch with outside players of ability who would be willing to play with Little Falls.

Several towns in this part of the state expect to have salaried or part-salaried teams this summer. Ironton plans on having an all-salaried team. Crosby will have at least a part-salaried team; Melrose will have a first-class team; and Brainerd will probably have a good team in the near future.

The question of having baseball as a part of high school athletics was talked over and the fans went on record unanimously as favoring the re-establishing of baseball in high school.

THE WOMAN CITIZEN

MRS. UELAND OF MINNEAPOLIS GIVES TALK ON LEAGUE OF WOMEN VOTERS

Mrs. Andreas Ueland, of Minneapolis, the "first woman citizen of Minnesota" as Mrs. L. D. Brown called her in her words of introduction, gave an interesting and enlightening talk Wednesday evening at the Mand. Moon Weyerhaeuser hall, on "The Woman Citizen."

The gist of Mrs. Ueland's talk was the explanation of the ideas and plans of the League of Women Voters. The idea is for the education of women in the political line and for the gathering up and directing of power in order to accomplish certain things.

Mrs. Ueland explained how organization was to be made in the counties. Women will be especially interested in child welfare, food supply and demand, women in industry, American citizenship, school education, public health and social hygiene.

Mrs. Ueland spoke on each one of these subjects showing why they occupy places on the program.

Some are not better than men, she said, nor more conscientious but they have different points of view. The father as the breadwinner overemphasizes money. The woman as mother, is more interested in the home and children.

Before deciding upon her party, a woman must study the aims and plans of both parties and then join the one which promises the things most fitting to our needs.

Mrs. Ueland spoke of Mrs. Carrie Chapman Catt and her wonderful work for suffrage. The right to vote is a "little bit of sovereignty" and every woman should avail herself of the opportunities which are coming to enable her to vote intelligently.
