PAGEANT "OENONE" WAS WELL GIVEN

The large crowd that gathered at the high school Friday evening to witness the presentation of the pageant "Oenone," by the girls of the physical training department of the high and junior high, were well repaid, the production being pronounced one of the best of its kind ever presented here. More than fifty girls took part. Beautiful costumes, together with good lighting effects and attractive scenery, added much to the pageant. The dances were well given, showing splendid training under the direction of Miss Houghtaling and hard work on the part of the cast. Miss Allison Hall played the part of Oenone in a very satisfactory manner. Miss Carol Schallert adapted the pageant for presentation here.

WE AIM TO PAY GOOD WAGES

We endeavor to pay such wages to our employees as will permit them to live comfortably and to accumulate something. Also, we aim to pay our superintendents, managers and other supervisors reasonably good salaries as a reward for their years of efficient service, and as an inducement for younger people in the organization to work faithfully to reach these positions. In order to retain valuable men and women, it is our policy to pay fully as much as they could get in other lines of business. Our rates are based upon the payment of a fixed sum for wages. CREAMERIES UNITE FOR CO-OPERATION

BUTTER MAKERS JOIN TO STANDARDIZE PRODUCT AND SHIP IN CAR LOTS

Launching of a new co-operative marketing enterprise by Minnesota creameries was announced today by the state Farm Bureau Federation.

To standardize their butter output, improve their markets, and save money by shipping in carload lots, 11 creameries in Meeker county and several in Wright county have formed a co-operative association and engaged C. G. Gustavson, former inspector of the state dairy and food commission, as field manager. The eleven Meeker county creameries alone have an output of nearly 2,000,000 pounds of butter annually. The movement was promoted by the Meeker County Farm Bureau. "A saving of half a cent on every pound of butter can be obtained by shipping in carload lots," T. G. Stitts, county agent, said. "We feel that this is the beginning of a big organization and will mark a new step in the marketing of co-operative creamery butter."

The association is financed by the payment, by each creamery, of one third of a cent for every pound of butter it produces. Its manager will assist the members to standardize their butter in texture, salt and color, to ship in carlots to pool orders for creamery supplies and save money on such purchases, and to check up on scoring of the butter shipped, both at the shipping point and the terminal market.

Frank Gakin was last Friday released from the state reformatory at St. Cloud on parole and he returned to this city. Gakin was sentenced to the reformatory two years ago for forgery.

Word has been received here of the marriage of Miss Hilja Johnson and Waldred Brostedt at Los Angeles, Calif., on April 2. The bride is the daughter of Mrs. Fred Johnson of Ninth street northeast and is well known here.

THE GOLDEN RULE Your Most Important Document is your will. It should not be prepared in a state of hurry, ill health or when the mind is disturbed or uneasy. The preparation of your Will demands calm and deliberate judgment on your part. Where a Will is attacked in Court it is usually on the grounds that the maker was not at his mental best when it was made. Of equal importance with the division of your estate is the naming of your executor. When the time comes for your executor to act, you will not be here. The greatest care should therefore be exercised in naming such executor. The proper enforcement of your Will demands that you appoint an executor whose existence, whose powers and whose responsibilities are not subject to the fluctuating fortunes of a human being. Such an executor is the American Savings and Trust Company of Little Falls, Minnesota, with offices in American National Bank building. It is not liable to death, disease, old age or impairment of faculties. It is skillful and reliable now, and it will be for years to come. Its officers will be pleased to consult with you. American Legion Corner

The first pilgrimage of gold star mothers to visit the graves of their sons will begin June 1st, when 100 mothers will sail for France on the steamship American. In France, they will be guests of the Women's Auxiliary to the Paris Post of the American Legion.

Minneapolis Legion Auxiliary members are to open a rooming house to care for disabled ex-service men coming here for medical treatment. The high prices which disabled veterans have to pay for hotel accommodations brought about this decision.

About twenty positions paying not less than \$1500 per year are coming to service men with the Federal Board for Vocational Training, Kieth-Plaza building, Minneapolis. Applicants should have a high school education.

The American Legion urges every buddy to have his discharge papers registered, so that, if lost, true copy may be secured. Victory medals and discharge papers are family heirlooms and should be carefully preserved.

"Expulsion from Legion membership should not be taken until a complete investigation of charges preferred has been made," announces State Commander A. H. Vernon, adding, "Names and details should be mailed to Department Hq."

Litchfield, Minnesota, has a live Legion Post. State Commander Vernon addressed the members last week. He was greatly pleased with the fine organization there. The post had 214 members last year but already has 351 members paid up for 1921. Litchfield citizens are proud of their Legion post.

Very soon, local medical examiners will cease to do the work of the U. S. Public Health Service. Disabled ex-service men will be examined at "sub-centers," located at Minneapolis, Duluth, Brainerd, Sioux Falls, Fargo and Grand Forks, where special doctors and office force will be maintained.

Now is the time for former service men who had influenza or pneumonia, or were even slightly gassed in service, to ask the U. S. Public Health Service, Minneapolis, to arrange for physical examination so that, if tuberculosis later develops, their disability may be connected with their war service.
