Mrs. J. R. Briggs of this city received a telegram Sunday conveying the sad news of the death of her mother, Mrs. Orilla Porter, at Fitzgerald, Ga., that morning. The Golden Rule LITTLE FALLS, MINNESOTA

"Eyes Wrong?"

"Why," exclaim some people "I can see as far as ever I could and I can read print away out there"—holding the paper at arm's length. Seeing far is no proof of normal vision. It is possible to see too far. And holding the paper at arm's length is proof positive that glasses are needed for reading. About 13 inches is the correct distance. If you are over or under that, it is time to see us.
